Police Draw Guns and Charge Crowd Which Stoned Workmen—Freight Trains Delayed

TWO WORKERS, ARE INJURED

Other Sections of Country Report Slight Disturbances Have Taken Place

East Deerfield Man Shot While in Swimming Early Today

Concord Mayor Appeals to Governor for Troops to Guard Workmen

WORCESTER, July 20.—Rioting and violence in the railroad yards in Worcester developed to such an extent during the night that extra police guards were detailed to the various railroad properties here. Men hired to take the places of striking shopmen, stationary engineers and others on the Boston & Maine were stoned and freight trains held up for hours by the slashing of airbrake hose. Four men, employed by the New York, New Haven & Hartford R. R. to take the places of strikers, were attacked by seven men in the Cambridge street yards. Two of the workers were bruised and cut. At the Boston & Maine yards a gang of strike sympathizers showered stones, coal and iron nuts and bolts from an embankment on those working in the yards. A police guard immediately charged the attackers with drawn revolvers and the band dispersed. Two inspectors in the New Haven yards were routed with showers of stones and iron bolts. The police made a futile effort to capture the assailants. Extra police guards will be ordered on duty tonight at all the yards.

Awful Notice
NEW HAVEN, Conn., July 20.—Heads of the crafts represented in the system federation composed of striking shopmen of the N.Y.N.H. & H.R.R. awaited notice this morning of the temporary restraining order issued by Judge Edwin S. Thomas of the United States district court at his home in New York last night. Hearing on the application for the order will be in this city July 20. John C. Ready, chairman of the system federation, said he was astonished at the allegations of the company that reports made to him indicated that everywhere on the system the striking shopmen had refrained from interference with business and had endeavored to preserve a peaceful attitude towards those at work.

Swimmer Shot
EAST DEERFIELD, July 20.—James Ragio, a machinist, employed by the Boston & Maine railroad, was shot while swimming in the Connecticut river near this town last night. He was taken to a hospital in Greenfield with a bullet wound in the hip. After companions had taken the man to the hospital, he died.

CONVENTION ENDS
LOS ANGELES, July 20.—The National Association of Dental Examiners has concluded its convention sessions here by electing Dr. Harry C. Newman of Los Angeles, president, and Dr. E. A. Charbonnel of Providence, vice president, representing the east.

MAJOR LIBREY DEAD
ST. PAUL, Minn., July 20.—Major E. D. Librey, 78, civil war veteran, Indian war fighter, and former adjutant general of Minnesota, died here yesterday. He was born in Stockton, Me., in 1844.

JEWELL SAYS RAILROADS WILL YIELD WHEN FORCED TO KNEES

President of Six Federated Shop Crafts Claims Roads Will Settle Within Two Weeks—Executive Board Meets Today

CHICAGO, July 20.—B. M. Jewell, president of the Six Federated Shop Crafts, predicted today that the railroads will capitulate and settle the strike within two weeks. "The strike is becoming more effective daily," he said, "and the roads will yield as soon as we bring them to their knees." The railroad executives, statements on the seniority question was characterized by Mr. Jewell as camouflage designed to cover up the real issues. A national adjustment board of the striking unions will meet this afternoon to consider an answer to the statement issued by the railroad officials last night.

KANSAS EDITOR IN FIRM STAND

Newspaper Publisher in Toppeka in Controversy With Attorney General

Places Placard in Window of Office Espousing Rail Strike

TOPPEKA, Kas., July 20.—(By the Associated Press)—William Allen White, publisher of the Emporia Gazette, has posted in the window of his newspaper office a placard espousing the cause of the striking railway shopmen, and expressing sympathy for their announced stand for "living wages and fair working conditions." Mr. White had been told that the state attorney general had ruled that such displays were in violation of the industrial and anti-syndicate law. "The order of the industrial court is an infamous infraction of the right of free press and free speech," Mr. White asserted. "He proclaimed 49 per cent sympathy with the strikers and said he would add one per cent a day as long as the strike was continued." Richard J. Hopkins, attorney general, was emphatic in his statement, although he did not say that Mr. White would be arrested at once. "One who encourages lawlessness in Kansas by advocating it, is himself violating the law and, therefore, is subject to arrest," said the attorney general.

Jumped at Conclusion
"Mr. White has jumped at a conclusion without realizing the fundamental principle involved," he added. "It is not a matter of free speech or free press. It is a question of obedience to law. Under the Kansas law, a railroad strike or a strike in any essential industry is more than a controversy between employers and employees. A strike which would prevent the public from procuring food, fuel, clothing, transportation and like necessities, has been made unlawful in Kansas. It is a strike against the state itself."

"Mr. White has always been very much in favor of the industrial relations law. A strike in an industry where the rights of the public are not directly involved is a matter for debate; but a railroad strike is not a matter for speeches or editorials which promote lawlessness. A railroad strike is an act of lawlessness."

WILL BECOME MISSIONER

Rev. Bro. Joseph N. Leclerc Will Do Missionary Work in China

Rev. Bro. Joseph N. Leclerc, son of Mr. and Mrs. Jean Leclerc of 547 Moody street, will leave tomorrow evening for Montreal, Que., en route to Vancouver, B. C., whence he will sail for Shanghai, China. The young man, who is connected with the order of Foreign Missionaries of Milan, an Italian order, will complete his studies in China, after which he will do missionary work there.

The young clergyman was born at Cap Sainte, Que., 26 years ago and came to this city at the age of five years. He received his early education at St. Joseph's college and later attended the Holy Angels college at

REV. BRO. JOSEPH N. LECLERC

Buffalo, N. Y. He has just completed his theological studies at St. Victor seminary, St. Victor, Que. It will be two or three weeks before he sails from Vancouver and after landing at Shanghai, he is going directly to Kaitung City, Honan Province, China, where he will take up philosophy at a college conducted by the order of Foreign Missionaries of Milan. During his spare time he will teach theology to younger students. He expects to be ordained in five years.

Rev. Bro. Leclerc is well known in Lowell and has many friends here who wish him safe passage to his new field of endeavor and success in his undertaking. For the past four years during the vacation season, he has been employed as a drug clerk at the Lowell pharmacy in Merrimack street. Both his parents are living and are making their home at 547 Moody st. He also has five brothers and three sisters in this city, namely, Alfred, Ovide, Arthur, Emanuel and Jean, Jr. Mrs. Frank Cayer, Mrs. Alfred Papillon and Miss Hermine Leclerc.

ATHLETIC FIELD FUND

High School Principal Says Public Should Assist the Alumni Association

Speaking in the interests of the drive of the Lowell High School Alumni association to raise \$22,000 for the establishment of an athletic field for the school at Spaulding park and adjacent to the city hall, Henry H. Harris, headmaster of the school, today said that it is an enterprise that should have the enthusiastic support of all who are interested in the welfare of the young people of the city. "The boys and girls of the high school have had a fair chance for outdoor games," he said, "and any project that would give them a better one is worthy of their support."

AT THE FAYETTE STREET PLAYGROUND

An excellent program of songs, dances, recitations, games and piano selections was carried out yesterday afternoon by children of the Fayette street playground, under the direction of Miss Lucy Desmond and Miss Rea Sullivan, supervisors. More than 100 children participated.

DECADES DIVIDEND
BOSTON, July 20.—Calumet & Hecla Mining Co. today declared a dividend of \$6 a share. The last dividend was declared on June 30, 1920.

CINCINNATI, July 20.—Five hundred clerks in the Chesapeake & Ohio offices at Richmond, Va., walked out today when the strike order of the clerks and freight handlers went into effect, officials of the road announced. Reports reaching the company's office here also said that 75 freight handlers at Chicago, had walked out.

Charles S. and Cyrus Fidler Purchase Property in Lee Street and Will Erect Factory There

MAYOR WILL SEND NOMINATIONS TO CITY COUNCIL TONIGHT

Four Nominations Already on the Table—School Department to Present Recommendation for \$250,000 Appropriation for New School in South End District—Order for \$50,000 to Motorize Fire Department

Mayor George H. Brown said today that he contemplates sending to the city council tonight the permanent nominations of Owen Monahan, city messenger, and Francis A. Connor, superintendent of public buildings. Both of these city officials are serving as holdovers from last year and as such have no definite tenure of office. The mayor announced some time ago that he would not molest either of these two officials, as he had become convinced that each was efficiently doing his work. Also, he included Chief Edward P. Saunders of the fire department, but when asked today whether he would ask for his name as a permanent nominee, the mayor replied that he desired to give it a little more thought. The council tonight faces a busy session. There are four nominations already on the table, three of which will automatically expire unless acted upon this evening. They are those of Frank J. Hubin, to succeed John Dwyer on the board of assessors; Edwin T. Shaw, to succeed Daniel B. Hogan, chairman of the board, and Dr. William F. Ryan, for city physician.

NEW YORK MEN FOR R. I. MILLS

Organizer Thomas Informed 200 Strikebreakers for Pawtucket Factories

More Workers Join Strikers Because Mill Discontinues Truck Service

PAWTUCKET, R. I., July 20.—Organizer John J. Thomas of the United Textile Workers of America stated today that he had been notified by officials in his New York headquarters that 200 strikebreakers are on their way from that city for Rhode Island textile mills. Organizer Thomas was served with a warrant this morning, charging him with revealing while visiting Londale in the coal strike, the names of the district court in Central Falls, today, and on pleading not guilty, the case was continued for one week. The United States Finishing Co. has discontinued carrying workers to its plant in auto trucks from East Providence. About 100 of the workers, because of this have joined the other strikers. Additional street cars have been provided to carry those employees who remain at work. The Crown Manufacturing company is operating a night shift in its finishing departments. A strike has been in effect at the mill for nearly six months, but the officials claim they are now able to operate practically all departments and the night shift is necessary to finish goods almost ready for the market.

Machinery in Boston Will Be Moved to New Lowell Factory

Fidler & Son Also Lease Building, Occupied by Cook, Taylor & Co.

Boston Ladies' Outfitters Have Big Expansion Plan—Two New Stores

Charles S. Fidler and his son, Cyrus Fidler, proprietors of the Boston Ladies' Outfitters in Merrimack and Middle streets, have purchased the property located at 45-53 Lee street, and are planning to tear down the old buildings and erect on the site a 176,000 factory, which will employ about 300 women. Messrs. Fidler also have leased the building now occupied by Cook, Taylor & Co., adjoining their store in Merrimack street, as well as the upper portion of the building in which they conduct their Middle street store, which is now occupied by the Lowell Lodge of Elks. They are planning to raise the Cook, Taylor & Co. building.

MUST CUT EXPENDITURES

Budget and Audit Commission Suggests Radical Changes in Program

Recommendation of a radical change in the present program of expenditure is included in letters sent out today by the budget and audit commission to Dennis J. Murphy, chairman of the board of public service; Martin F. Conley, superintendent of charities; Dr. Foster H. Smith, superintendent of the isolation hospital, and William A. Arnold, superintendent of state aid.

The letters are in the form of reports, based upon the departmental appropriation in each case and the total expenditures for the first six months of the year. The departments whose average expenditures monthly have been excessive are ashes and waste collection, street maintenance, Chelsea street hospital, cut-door relief, mothers with dependent children, soldiers' benefits and isolation hospital. Aside from the figures quoted, which, of course, vary in the several departments the letters are identical and contain the following positive statement:

"It would appear as though a radical change in the present program of expenditures would be in order. If appropriations as given for credit to the various departments are to be adhered to."

The letter to Chairman Murphy. Continued to Page Four

THE C. M. A. C. AND BOSTON TIGERS

Saturday afternoon at 6 o'clock the Textile campus will be the scene of a battle royal between the C.M.A.C. and the Boston Tigers, the colored team which created such a favorable impression against the hard-bitten Compagnons at Spaulding park last Sunday. Daniels, who held the twelfth wrecking crew at his mercy will again toe the rubber for the visitors. Billy Marcotte will present his unbeaten lineup in this game, with Reagan or Daley on the mound. As there will be no twilight tennis game Saturday, the management is preparing to handle a record crowd.

Radio-graphs

Wonders of Radio Only Beginning, Says Successful Inventor

(By N.E.A. Service)
NEW YORK, July 20.—Radio reception by merely plugging an electric light socket!
That's a new device which may revolutionize radio.
It is the invention of William Dubilier, an East Side electrical wizard, who helped win the war by developing a wireless submarine detector.
"It is not a 'wired wireless,'" he explains, "but a simple arrangement which makes it possible to utilize indoor wires as aerials."
He got the idea when he started building a large outdoor aerial.
"It was hard work," he says, "was about to give it up as a bad job when the idea struck me to use the wires in the house."
"I knew that any wire would receive the wireless waves. But I had to contend with the lightning current which went through these wires."
"After some experimenting with condensers, I rigged up a little 'filter' which allowed the high frequency radio waves to pass through without interference."
"Further work perfected the device so that now one need only screw this little 'Dusbort' into an electric light socket, attach the receiving set and listen in!"

WILLIAM DUBILIER AND HIS IDEA OF THE TUNING KNOB OF THE FUTURE. MERELY TURN THE HANDLE FOR ANYTHING YOU WANT TO HEAR

to Europe. There I installed a wireless set in the palace of the czar.
"One thing led to another. My business grew, but I never let up on my laboratory work."
"When the war came I concentrated on developing a means of airplane wireless installation for artillery fire and detecting submarines."
Dubilier now holds several hundred patents for electrical inventions.
But he keeps right on experimenting.

Alternating Impulses Make Armstrong Receiver Amplify 700,000 Times

(By PAUL F. GODLEY)
America's Foremost Radio Authority
In the regenerative receiver the greatest amplification is had when the amount of energy fed back into the grid circuit has reached the energy lost in overcoming the resistance of the grid circuit.
This is an adjustment which can only be approached.

At the time when full realization of the regenerative method is expected, uncontrollable irregularities of operation of the vacuum tube render the adjustment extremely unstable. The plate circuit over-feeds the grid circuit and the latter begins to act as a generator. The tone qualities are thus destroyed.
Super-regeneration is a method whereby advantage may be taken of the extremes of amplification, of which the regenerative receiver is capable, without loss of tone.
This is accomplished by actually allowing the regenerative receiver to go into the oscillatory condition for a very short time—about 1-20,000 part of one second—and then stopping the oscillatory action, allowing it to continue again, and so on.
Tone qualities cannot be destroyed in so short a time.
During this short interval an impulse may have been fed through and around through the grid circuits as many as half a dozen times.

High Amplification
Each trip sees it amplified approximately seven times, and the total amplification is close to 700,000 times! The control of the regenerative circuit in the grid of the detector tube alternating negative and positive potentials at the rate of one negative pulse every 1-10,000 part of one second.
The device used to accomplish this is an oscillatory vacuum tube circuit whose inductances and capacitances are so chosen as to give it an oscillatory frequency of 10,000 cycles—a wave length of more than 25,000 meters. Oscillations at this frequency begin to be audible, and make themselves known by a very high-pitched note in the telephone receiver.
These are fundamentals which the

REPORT TO POINCARÉ

Reparations Committee Will Give Opinion of Germany's Financial Status

PARIS, July 20 (by the Associated Press).—The guarantees committee of the reparations commission was expected to report today on the results of its investigation of Germany's financial status to Premier Poincaré and to the commission. It has obtained, it is understood, enough material on which to establish the opinion that Germany's rulers alone were responsible for the financial crisis in which she is now struggling.
Premier Poincaré and Minister of Finance Dr. Lacroix also have ordered an exhaustive study on the issue of paper money by Germany, designed to show that the fall in the value of the mark was a mathematical certainty, under the policy that has been pursued by the German government and that she should not be entitled to ask for a moratorium on reparations payments.
The Petit Parisien today makes the suggestion that France might consent to evacuate the left bank of the Rhine in order to ease the pressure of Germany's finances. It Germany would consent to form the Rhineland into an autonomous state, militarily neutralized, still forming a part of Germany but withdrawn from Prussian domination.
It is generally recognized that all these questions go far beyond the scope of the reparations commission and that a friendly talk between Premier Poincaré and Prime Minister Lloyd George is imperative.
Sun classified ads will be read in twenty thousand homes tonight.

BY WILLIAM DUBILIER
One of America's Foremost Radio Inventors
What's next? Radio places, just like "movie-dromes." Metropolitan opera in every small town.
The development of the imaginative brain!
Radio will improve the mental capacity of the nation.
Movies developed the imagination for sound. Radio will develop the imagination for sight.
Instead of the general store stove, we will soon have loud-speaking amplifiers in every hamlet in the country. Stock quotations, weather reports, news and all other broadcasts will penetrate every nook of the country.
This development is less than a year old. Give it a little time and see what it will do!
For the individual, tuning in and regulation of the receiving set will become automatic. A turn of the tuning dial, and he will be listening to jazz. Another turn and he will hear opera.
It will be simple.
Space will be absolutely annihilated. Eskimos and Palagians, Chinese and Mexicans, Plains and Americans will all become next-door neighbors.

Radio Broadcasts

Below is given this afternoon and evening's radio broadcasting programs for the following stations: STATION WGL, Medford Hillside; WBZ, Springfield, Mass.; WGY, Schenectady; WJZ, Newark; KDKA, Pittsburgh, and KTV, Chicago.
STATION WGL, MEDFORD HILLSIDE
7 p. m.—News.
8:30 p. m.—Music and talks as announced by radio.
9:30 p. m.—Story for the children.
10:30 p. m.—Baseball scores and news.
11:30 p. m.—Boston police reports.
12:30 p. m.—Mary Cunningham, 11-year-old dramatic reader, in "The Confession."
1:30 p. m.—Concert by Emma Almslee, contralto.
Time—Daylight saving.
STATION WBZ, SPRINGFIELD
7:30 p. m.—Baseball scores and a story for the children.
8:30 p. m.—United States government and stock market reports.
9 p. m.—Baseball scores; musical program by Nino J. Feriole, baritone; Ruth Darnold, soprano; Mary Roberts, contralto, and Pauline Cebrelli, pianist.
Time—Daylight saving.
STATION WGY, SCHENECTADY
7 p. m.—Stock and produce market quotations and reports; baseball results and news bulletin.
8 p. m.—Address, "Nutrition," by Dr. Henry L. K. Shaw.
8:45 p. m.—Concert program given by Irene Cody, pianist; Lucile Orrell, cellist, and Sherman De Forest, baritone.
Time—Daylight saving.
STATION KDKA, PITTSBURGH
7 p. m.—Health talk by Harry Greb.
8 p. m.—"Home-Furnishing—Modern and Practical," by Miss Harriett Webster.
8:15 p. m.—"What the Disappearing Forests Mean to America," by Mr. M. L. Davey.
9 p. m.—Concert by Miss Viola Karlson, soprano; Miss Marion Clark, pianist; Roy E. Shumaker, violinist, and Mrs. Roy E. Shumaker, accompanist; reading by Miss Marion B. Stockel.
10:55 p. m.—Arlington time signals.
Time—Daylight saving.
STATION WJZ, NEWARK
8 p. m.—Music.
9 p. m.—Baseball scores of the American, National and International league teams; musical program.
10 p. m.—Official weather forecast, agricultural reports, shipping news and review of business conditions.
11 p. m.—Stories for children.
11:45 p. m.—Talk by Walter H. Eddy, Columbia University Teachers' college.
8 p. m.—Musical program by Florence H. Pratt, lyric soprano; Elmer Collier, pianist and accompanist.
9 p. m.—"Under the Evening Lamp," a literary hour.
10:55 p. m.—Arlington time signals.
11:01 p. m.—Official weather forecast.
Time—Daylight saving.

RADIO PRIMER
Compass Radio—A radio receiver by which the direction of a sending station may be determined. The aerial is a loop which can be turned until the maximum radio energy is received. The direction of the sending station is along the line of the loop.
BRITISH-AMERICAN CLUB
President W. Axon occupied the chair at last evening's meeting of the British American Social club. Committee reports were heard, the recent outing committee was thanked, a vote of thanks and routine business was transacted. At the close of the meeting a social hour was enjoyed during which entertainment numbers were given and refreshments were served.

PAINS ACROSS SMALL OF BACK

Husband Helped in Housework—
Lydia E. Pinkham's Vegetable Compound Made Her Strong

Foster, Oregon.—"I used Lydia E. Pinkham's Vegetable Compound for pains across the small of my back. They bothered me so badly that I could do my work only with the help of my husband. One day he saw the 'ad.' in our paper telling what Lydia E. Pinkham's Vegetable Compound is doing for women, so I began to take it. It has helped me wonderfully. I am feeling fine, do all my housework and washing for seven in the family. I have been irregular too, and now am all right. I am telling my friends what it has done for me and am sure it will do good for others. You can use this letter as a testimonial. I will stand up for Lydia E. Pinkham's Vegetable Compound any time."—Mrs. Wm. J. JUNKKE, Foster, Oregon.
Doing the housework for a family of seven is some task. If you, as a housewife, are troubled with backache, irregularities, are easily tired out and irritable, or have other disagreeable ailments caused by some weakness, give Lydia E. Pinkham's Vegetable Compound a trial. Let it help you.

Putnam Tablet Disappears

PUTNAM, Conn., July 20.—The bronze tablet at the entrance of Wolf Den, in Pomfret, commemorating the historic deed of Gen. Israel Putnam in entering the cave and killing a wolf, has disappeared. The tablet was the property of the local D. A. R. post and cost \$3000. The metal, it is said, would not bring more than \$50.

O. M. I. Cadets Pitch Their Tents in Milligan's Grove, Near Silver Lake, for Their Sixteenth Annual Encampment

Photo by Will Rounds

COMPANY STREET AND REGIMENT

The pine-laden atmosphere of the spacious area of Milligan's Grove, Wilmington, is at present agog with excitement, engendered by the buoyant spirit of representative American youth, during this, the 16th annual encampment of the O. M. I. Cadets. They are tenting these balmy days and nights on old, familiar grounds. Inhabitants of Wilmington, particularly those within the environs of the placid waters of Silver Lake, are once more enjoying the military maneuvers and play of Lowell's splendid "army in miniature."

Since the arrival last Monday afternoon, the cantonment has been fairly bulging over with activity from revolve in the morning to tap in the evening, so much so that A. W. O. I.'s have thus far been conspicuous by their absence.

Upon entering the grounds, the visitor is immediately impressed with the all around cleanliness, the devotion to duty and the gentlemanly conduct of the khaki-clad cadets. Twenty-five or more cotical tents with individual "bunks" are used for sleep and shelter purposes, added precautionary mea-

ures being taken to secure immunity from rain. In this connection it may be stated that the deluge of last Tuesday failed to make an impression on the interior of the tents.

The headquarters tent of Rev. Denis A. Sullivan, O. M. I. chaplain and organizer, is conspicuously situated on the company street. The amiable priest, friend of hundreds of former and present cadets, is ever ready to administer to the wants of the youngsters in his care and it is to his untiring efforts that the success of the yearly event is due.

The hospital tent, in charge of Miss Mary Carran, nurse at the U. S. Carlisle shop, is amply equipped for emergency cases and Mrs. Jeremiah Dooly fulfills the duty of matron exceptionally well. Another tent houses Military Instructor Francis Gorgan and his competent assistant, Edward Toohy, both of whom work zealously for the welfare of the boys. Close by is the headquarters of Lieut. Col. William Horgan and officers of his staff, who are constantly on the go throughout the day.

One of the features of the canton-

ment and the objective of all sight-seers is the mess department in charge of Chief Sidney McKenzie and his able corps of food dispensers. Regulation army mess kits are used, the menu being served at tables of accommodating length. A rolling field kitchen, similar to those employed in the late overseas service, is the only equipment used for cooking, but it certainly meets the requirements and everything moves regularly under the scrutinizing eye of Chef "Sid."

Michael Ryano of the local police force has his attention arrested at all hours of the day in his capacity as athletic and swimming instructor. Under his guidance daily trips are made to the neighborhood waters of Silver Lake, where the swimming hole is located.

Today was official visiting day at the camp and many parents, friends and former cadets could not resist the opportunity of seeing the tented city and its inhabitants. A special program of military and athletic events had been prepared for the benefit of the large gathering. In the morning a swimming carnival was

held at the lake and in the afternoon, a baseball game between the Cadets and a local Twilight league team was played on the smooth diamond. The annual "red light" parade is scheduled for this evening as soon as the sun disappears over the western horizon. The parade will be announced by Regimental Bugler Johnny Finnegan, whose resounding blasts have signalled every movement of the regiment at this year's camp.

The following will give an idea of the daily routine: 6 a. m., reveille; 6.30, callsthenics and setting up exercises; 7, breakfast; 8, police duty; 8.30 to 10.30, drill; 10.30 to 11.30, swimming; 12 m., dinner; 1 to 6, sports; 5.30, recreation and evening prayer; 6, supper; 6.30 to 9.30, recreation; 10, lights out; 10.30, taps.

From the foregoing it can easily be seen that the day is void of dull moments, for business is combined with pleasure, and "happiness" is the counter-claim. Preparations for breaking camp will start late Friday afternoon, and the exodus of local as well as many out-of-town members of the organization will start Saturday.

A HUMAN PYRAMID

WHERE THE SWALLOWS FLY

This photograph was taken at an island off Key West, Fla., the rendezvous of thousands of swallows.

SAD REUNION

Leah Silver and Ruth, her 16-months-old babe who was abandoned in a swamp near Coney Island. The mother, under arrest, was taken to the hospital to which the child was sent by New York police after mosquitoes had attacked it.

Five Injured in Georgia Wreck

ALBANY, Ga., July 20.—Five passengers were injured, one seriously, early today when five coaches of a Southern Railway limited train on route from Chicago to Jacksonville, Fla., overturned on the Central of Georgia line between Smithville and Leesburg, near here. The injured were brought here on the first three coaches of the train, which were not injured. The wreck was attributed to a broken rail.

Must Cut Expenditures

Continued
states that up to July 1 the average expenditures (figured on a 12 month basis) in the ashes division have been exceeded by \$143.36 and at the present rate the appropriation will be exhausted by Dec. 1. In the department of street maintenance the monthly average has been exceeded by \$652.76 and unless strict curtailment is made this appropriation will be exhausted by Oct. 1.

The Chelmsford street hospital's expenditures are \$1978.44 too high each month if the appropriation is to be adhered to and will run out at the present rate the first of November. The outdoor relief appropriation will last only until the middle of November under the present system, whereby the monthly average is \$167.75 too

high. The first of December will end the appropriation for mothers with dependent children depleted at the present rate of spending, which has raised the monthly average \$63.63 above the maximum.

According to the budget commission's figures the isolation hospital is spending \$831.36 too much each month and the appropriation therefor will last only until November 1. The average expenditures in the state aid department have been exceeded by \$1216.31 each month, which would terminate that appropriation in the middle of November.

A general letter, embracing all the above instances of over-spending, has been forwarded to Mayor George H. Brown.

It will pay you to get The Sun classified adv. habit.

BIG CONSOLIDATION

Sale!

Some time ago we were told by the owners of our Boston building that our rent would be more than triple to continue our lease. To carry on our economic principles of the HARRISON SYSTEM OF CUSTOMER ALWAYS we could not even listen to this unwarranted demand—we figured the big plus to the landlord would have to be borne in part by our customers—so WE DECIDED TO QUIT and WE DID QUIT.

Our tremendous stocks of new, fresh merchandise kept on arriving—goods we had contracted for and WE WERE FORCED TO RECEIVE before we had time to sell a fair portion of this gigantic stock—TIME TO LEAVE ARRIVED and we've moved THIS GIGANTIC STOCK OF SUITS, COATS, PANTS, FURNISHINGS, SHOES, HATS, PALM BEACH SUITS and in fact everything to LOWELL.

merged make it entirely too heavy to carry and therefore we are forced to unload—and unload we must. We have no choice, we must sell it at some price. This stock consists of High Grade Clothing for Men and Young Men, Boys' and Children's Clothing, Men's Furnishing Goods and Shoes. We offer these combined large stocks to the people of Lowell and vicinity at less than ONE-HALF PRICE. 29 years at one stand in Boston backs up our statement.

SALE STARTS FRIDAY 9 A. M.

ONE OF THE BIGGEST CLOTHING TREATS EVER OFFERED HERE AT YOUR MERCY

REMEMBER

All goods are new—bought for now—contracted for by us before we knew we would have to vacate the store where we had successfully and economically served the people of Boston for 29 years. These goods MUST BE SOLD—"It's up to you"—It's a chance to stock up. Don't miss it.

READ EVERY ITEM CAREFULLY—DON'T WAIT TO COMPARE AS COMPARISONS ARE OUT OF THE QUESTION—THERE ARE, NONE

FRECKLES AND HIS FRIENDS

WANT FAIR DEAL FOR FORMER POLICEMEN

Copies of the following resolutions dealing with the status of the former police officers of Boston on civil service, have been received by the local Trades and Labor council and are being circulated for signatures among the members of the various labor crafts of the city. When filled out the resolutions are to be sent to Michael Lynch in Dorchester:

"We, the undersigned citizens and voters of the commonwealth of Massachusetts, hereby certify our protest against the injustice now being done to the former police officers of the city of Boston. They are discriminated against by the civil service of the commonwealth and in many cases, are prevented from earning a living. Whether or not they acted wisely is not now a issue. They have been cruelly punished. They should now occupy the same place accorded every citizen. Their years of faithful service and upright conduct deserves consideration. In the interest of fair play we pledge our support and ask you in behalf of the governor who will give them fair consideration and render to these police officers equity and justice."

PRICE OF FOOD INCREASES IN U. S.

WASHINGTON, July 20.—Retail cost of food to the average family in the United States increased one per cent. from May 15 to June 15, according to a report today by the bureau of labor statistics of the department of labor. Of 43 articles computed in the average, increases in 21 ranged from 20 per cent. for potatoes, to one-half of one per cent. for bananas. Decreases

RECOVER JEWELS THOUGHT STOLEN

SYRACUSE, N. Y., July 20.—Old Prof. Absent Mindedness is the prize crook, you can take it from the Syracuse police following an investigation of the reported theft of \$1500 worth of diamonds from Mrs. Kendrick A. Luther of Westcott, Mass., formerly of this city and now visiting at the home of Mrs. C. Russell Churchill of 120 Rugby road.

Missing her jewels, which she believed she had left on a tray on the dresser in her room, when she went to dress for the afternoon, Mrs. Luther searched in vain for them, finally calling in her hostess, who likewise engaged in a futile search. Police headquarters was notified, and detectives detailed on the case, when their investigation showed no evidence that burglars had tampered with doors or windows, suggested that perhaps the previous search of the room had not been as thorough as supposed. Casually, they picked up a case with hollow bottom on the dresser, disclosing the missing diamonds and branding Prof. Absent Mindedness as the thief.

AMUSEMENT NOTES

THE STRAND
A fascinating story of treasure that unfolded in "The Golden Gift," the latest Allee Lake starring vehicle. It's the adventure of an opera singer, who with young child to support, finds herself thrown upon her own resources through the desertion of her husband. She goes to a border dance hall and leaving the child behind, becomes a famous opera star. At the

height of her success she discovers that the man she loves has become guardian of her child and finds the treasure she seeks is really a golden girl. Marie Williams in "Lucky Carson" is the story of fame and fortune, and the rise of a down-and-out, bordered with unusual twists and intense dramatic moments. Followers of this star have really never seen this actor at his best unless they have seen him in "Lucky Carson." Don't miss it.

MERRIMACK SQUARE THEATRE

The big features for today, Friday and Saturday at the Merrimack Square theatre are "Two Minutes to Go," a stirring story of the football field, starring popular Charles Ray, and "The Sleep Walker" with Constance Binney in the leading role. The feature booked for Monday, Tuesday and Wednesday is "Borderland," a dramatic masterpiece with Agnes Ayres.

"KITTY" BRINGS IN RATTLESNAKE

WAREHAM, July 20.—"Kitty," a slim and fragile house cat, saved her onlino family from violent death yesterday, but nearly frightened to death Mr. and Mrs. George H. Stinson, whose pet she is, when, to prove her prowess she deposited on the back steps a wriggling rattlesnake which measured 34 inches, not counting seven inches of tail amputated by Kitty. Mr. Stinson decapitated the reptile with a shovel and Kitty returned to her numerous family, the members of which are three days old and doing well. Until yesterday old times thought that rattlesnakes here had gone to join the dodos.

If you want to buy, sell, rent or exchange anything, try a Sun classified adv.

WOMAN WAS MURDERED SAYS EXAMINER

BOSTON, July 20.—Mrs. Alice J. Jones, whose body was found last night in a lodging house on Tremont street was beaten and then strangled to death four days ago, Medical Examiner Leary said today, following an autopsy.

George H. Mansfield in whose room Daniel Turslow said he found Mrs. Jones' body, is being held by the police, pending a further investigation. Turslow told the police he had been sent as a messenger from Mansfield to Mrs. Jones. Failing to find her in her own room, he said he went to Mansfield's apartment where he found the body. A revolver lay on a blood-stained bed couch, Turslow said. Mansfield had vacated the room several days ago. Medical Examiner Leary said there was no bullet wound in the body. It was his belief the revolver was left to create the impression that the woman had committed suicide.

Mrs. Jones was separated five years ago from her husband, Percy N. Jones of Haverhill, the police reported.

CONCERT HERE BY FALL RIVER BAND

Through the efforts of Adjutant Arnold of the Salvation Army branch here, a 20-piece band of the Fall River post was brought to Lowell and gave an entertaining concert last night at the junction of Paige and Bridge streets. The band is under the direction of Joseph O. Bloomhead, while the itinerary of the trip is in charge of Ernest Charles F. Walker.

There are 20 in the band, including six young boys, and the instruments of the band is made up of a battery of cornets, alto horns, saxophones, trombones, French horns, bass horns and the drums. The band travels from city to city in its automobile, to help out the small towns that have no bands, and to create interest in the Salvation Army. Adjutant Arnold, knowing that Lowell was in neither category, invited the band because of its enviable reputation. The men and boys of the band, there are six young boys from the junior band of the organization have taken a 10 days' vacation from their work, and have given their services free. The only compensation the band receives is the running expenses for each day's trip. The next appointment, on the schedule of the trip is Albany, and from there the band will journey to Leominster to spend the weekend. During the intervening time they will make several stops en route. The band will return to Fall River next Monday.

C. M. A. C. BUILDING COMMITTEE MEETING

The first meeting of the building committee of the C.M.A.C. recently appointed by President J. A. N. Chretien will be held next Monday night in the rooms of the organization in Pawtucket street. At that meeting the committee will consider the advisability of calling for plans at this time for the remodeling of the club building and going along with the work of erecting another story to the present structure.

The committee is composed as follows: Arthur L. Bno, chairman; Joseph A. Legare, Albert Bergeron, Joseph A. Desrosiers, Dr. G. O. Lavallee and J. A. N. Chretien. The committee was given full power to act and it is hoped the improvements on the building will be started and completed before the cold weather sets in. The association may spend about \$40,000 on improvements, which when completed will make the building one of the finest of its kind in the city.

A particular coffee drinker in Vermont writes:

"That good old Mocha and Java flavor I find only in Far-East, is the pleasure of my life. It is good to know the day of excellent coffee is still with us."

GOVERNOR CLEARS UP MOTOR TANGLE

AUGUSTA, Me., July 20.—Governor Baxter stated yesterday that there has been some misunderstanding in connection with passenger cars coming into Maine from other states. "Maine's laws are liberal and any passenger car can come to the state and remain for a period of 30 days without being registered in Maine," said the governor. "Operators from other states are not required to be licensed here, no matter how long they remain in the state."

"On account of this misunderstanding the matter has been thoroughly gone into by a committee appointed by this committee having conferred in an entirely friendly manner with the Massachusetts authorities."

WILL DECIDE LATER ON CODMAN'S BILL

BOSTON, July 20.—Judge Crosby in the supreme court yesterday heard and took under advisement a motion for a preliminary injunction on a bill in equity brought by Edmund C. Codman, on behalf of minority stockholders of the Boston & Maine railroad company to enjoin the counting of votes at the road's annual meeting on blocks of stocks secured by proxies. The votes, the bill alleges, are to be pooled in a voting trust to favor the election of President Arthur Smith of the New York Central as chairman of the board of directors of the Boston & Maine.

CENTRALVILLE SOCIAL CLUB

At a recent meeting of members of the Centralville Social club the following officers were elected and inducted into office for the ensuing term: Albert Brannan, president; Ferdinand Lussier, vice president; Ernest Denault, corresponding secretary; Narcisse Gadbois, treasurer; Virgil Levy, Donat Champagne, Lucien Perreault and Henri Chamberlain, directors; Ernest Pelletier, sentinel. A committee headed by Virgil Levy was appointed to make arrangements for an outing to Salisbury beach for the members and friends in the latter part of this month.

Four-Hour Battle With Fish

BOSTON, July 20.—A four-hour battle with a 350-pound swordfish, off the Georges bank, was described today by the crew of the fishing schooner Nyoda, which arrived with the fish and a hole in her planking as exhibits in support of the tale. Captain Charles Nelson said the monster tore a three-inch gash in the schooner's planking a foot above the water line.

"Shoot to Kill" is Order

BUFFALO, N. Y., July 20.—Policemen armed with riot guns and under orders to shoot to kill, if rioting develops, rode the 71 street cars which started out from the car barns this morning. Two hand grenades were exploded on the roof of the Cold Spring car barns last night, tearing holes in the building, but injuring none of the 750 strike breakers who are said to be living in the barn.

Athletic Field Fund

that affects their welfare is an immediate concern to all citizens.

Mr. Harris is vitally interested, of course, in the campaign and earnestly hopes that it will be instrumental in providing an athletic field for the school that will well match up with the new building to be used this fall. The High School Alumni association is giving the people of Lowell an opportunity to do a great service to the young folks of the city in this campaign for a high school athletic field," he said today. "Over two thousand homes in Lowell are directly connected with the high school through some member attending the school, and many more thousands have heard and will in the future be thus connected. Therefore anything directly affecting the welfare of the young people of the city is an immediate concern to all citizens."

"The boys and girls of the high school have never had a fair chance for outdoor games. The statutes of the commonwealth require the school to give instruction in indoor and outdoor games and athletic exercises, but outdoor games for high school pupils have been carried on at a disadvantage and under difficulties. On a hired field with no toilet or bathing facilities, no dressing rooms or other conveniences, it is not surprising that for years baseball and football have been carried on at a financial loss and have been made possible only by the weekly penny contributions of the pupils. Teams from other cities have been unwilling to come to Lowell to play reciprocal games, in some cases preferring to pay Lowell a handsome sum to play in Lowell. It is a fact that it has been better for Lowell financially to play in other cities rather than to play in the home city. The result upon school spirit has been, of course, unfortunate, and has resulted in a much smaller number participating in sports than would take part under favorable conditions. The ideal conditions would induce all pupils physically able to take part in some outdoor sport. Not all could participate in football, not all could be first class ball players, but track and field games, tennis, volleyball, basketball, basketball, and the variety of other outdoor games would give practically every pupil a chance to do what he best likes and is best adapted for."

"The projected high school athletic field," he continued, "will give to the young people of Lowell these long-desired opportunities. Owned and controlled by the High School Alumni association for the benefit of the high school, it will also be available for elementary school pupils, and for others when not wanted by the high school. It is an enterprise that asks and should have the enthusiastic support of all who are interested in the welfare of the young people of the city."

Although the campaign officially was launched yesterday, it will be several days before definite reports of progress will be available. At present clerks in the campaign office in the Fairbank building are busy compiling names of graduates by classes and class captains are forming teams of solicitors.

Benjamin Silverblatt, general chairman, has put a great deal of effort into the arrangements for the drive and anticipates that they will begin to bear fruit early next week. In the meantime, contributions gladly will be received by the treasurer, Edward W. Trull, and elsewhere in this paper today is a subscription blank that may be filled out and sent in.

MAINE WOMAN IS KILLED IN CRASH

LEWISTON, Me., July 20.—Mrs. W. E. Knowlton, 45, of Farmington, Me., was instantly killed when an east-bound passenger train struck the automobile in which she, with her husband, Walter E. Knowlton, and daughter, Emma, were coming to Lewiston on the main street crossing of the Maine Central railroad in this city, at 10:45 this morning. The daughter was seriously injured, and the husband slightly bruised. The automobile was wrecked. Mrs. Knowlton was thrown a distance of 75 feet.

FALL OF DE FACTA CAUSES COMMENT

ROME, July 20.—(By the Associated Press.) The fall of the ministry of Enrico De Facta, which resigned yesterday, appears to have been precipitated by the Catholic party, which, although it had eight members in the cabinet, passed over to the opposition. Enrico de Nicola, president of the chamber of deputies and former Premier Orlando were mentioned in parliamentary circles as the most probable choice for the premiership.

FOR-WEAR PAYMENTS

WASHINGTON, July 20.—Creation of an "enemy property claims commission" of six members to adjudicate and pay from German property if necessary, claims of American citizens against Germany growing out of the war was proposed in a bill introduced today by Senator Underwood of Alabama, democratic leader.

If you want to buy, sell, rent or exchange anything, try a Sun classified ad.

INSANE MAN BATTLES FIREFIGHTERS

NEW YORK, July 20.—While thousands of tons of smoldering paper, rice, toys and rubber goods still glowed a dull red, four firemen risked their lives on the third floor of the tottering ruins of the fire-swept Jane street warehouse early today, battling with an insane man who tried to hurt himself from one of the blackened windows.

All the firefighters had been ordered away from the building. Suddenly, with a yell of "They're after me," a man burst past the policemen and ran into the building. He soon appeared at a window on the third floor. The firemen crept up along the staircase and, while one fireman attracted the man's attention, the other three made a flying leap and pulled the man from his position on the window ledge. He put up such a struggle that his rescuers were forced to hold his hands and feet and lower him to the street.

The man was employed in a garage near the warehouse. Ambulance surgeons said he had been made temporarily insane from the excitement of the fire. He was taken to a hospital.

Elects 30 Substitutes

Continued

of the first twenty-five, as the examiners awarded it to some who did not have this experience, and did not give it to some who had experience. Chairman Riley called the meeting to order at 8:15, with Mr. Lambert making a motion that the board proceed to the election of the teachers. Mr. Delaney made a motion to the motion that a ten-minute recess be taken to talk things over. The motion was passed and the recess declared. During the recess it was discovered that the examiners had given the ten per cent, to some who did not have experience and had not given it to some who deserved it.

When the meeting was resumed, it was necessary to check off the list and rearrange the ranks. The average attained by each young woman was not altered, as the board had no jurisdiction over that, but the removal or addition of the ten per cent, made quite a difference in some of the ranks.

Mr. Lambert asked if the correction should be made by the board and Supt. Molloy replied that this additional rank was entirely separate from the examinations. He had asked the examiners to add it, simply to facilitate making this meeting. He pointed out that the marks were not changed, but this percentage added for teaching experience.

Dr. Meahan made a motion that thirty be elected instead of twenty-five, as there were nine papers within one-quarter of a point of each other. The motion was passed and the board proceeded to choose the first thirty of the fifty-three who took the examination.

Mr. Lambert asked what benefit would accrue from such a move, as the board had previously voted to elect twenty-five. He was informed that, as the ranks were so close and as it would remove the necessity of some of the girls taking the examination again, it was an advantageous move. A vote was taken on this question and the eight members present, Mrs. Pearson being absent, voted to elect thirty new teachers as permanent substitutes. Mr. Delaney explained to the board that the ten per cent, could be added at any time, as the records of the girls' experience was in his hands. He said that he had asked this to be done by the examiners to facilitate matters. One of the members made a motion that the examiners be asked why the papers were returned in that state, but Chairman Riley said that it was not necessary because of Mr. Molloy's statement. He brought out the fact clearly that the averages had not been changed, but additional credit given for work already completed.

The papers of each applicant bore a serial number and there was a separate sheet with the names corresponding to the serial number. Supt. Molloy read the number and name and Chairman Riley read off the ranks carefully, adding the extra percentage in some places and taking it off in others.

When the correct list was tabulated, the following young women were found to be the first thirty: Berice R. Sherrill, Lucy Desmond, Helen Thissell, Elsie Richter, Bridget V. O'Connell, Bridie M. Sheridan, Grace V. Reed, Berice K. Sullivan, Helena C. McGowan, Helen M. Brady, Dorothy McGuire, Rose Duffin, Eleanor S. White, Florence Brown, Ethel Label, Margaret Murphy, Catharine Mulligan, Mary M. Kelley, Nelda Cross, Helen A. McLean, Marguerite McFadden, Madeline Farrell, Jessie I. Stanley, Mary M. Farrell, Madeline Gillick, Marguerite McGuinnis, Alice W. Higgins, Helen M. Coughlin, Mary O'Donoghue, and Martha Shaber.

At Delaney then moved that these young women be duly elected permanent substitutes and be registered as teachers in the Lowell schools. On the roll call all the members voted yes and the new teachers were officially elected.

EUGENE DEBS IN SANITARIUM

Eugene Debs, socialist leader, is a patient at a Chicago sanitarium where he is undergoing treatment for insomnia. "I am not ill, but for the first time in my life I feel tired and worn," he says. Shown with him are Drs. Boerma Daniels and Matthiescu Yunkers.

done by Lowell labor. "We are doing business in Lowell," he said, "and it is our intention to employ Lowell labor."

Relative to the leasing of the Cook, Taylor & Co., building in Merrimack street and the quarters of the Elks in Middle street, Mr. Fidler said that the enormous business at the store calls for expansion. The Cook, Taylor & Co. building, which is now a two-and-a-half story building, will be raised to four stories and the interior partitions will be torn down in order to make the two buildings one large place of business. As soon as the Elks have secured a desirable home, and Mr. Fidler said he would not rush them, their quarters will be transformed into an up-to-date store. Elevators will be installed in the two buildings. The changes and improvements proposed by Messrs. Fidler will cost over \$100,000.

As there was no further business and as the rechecking and rearrangement of the order of the list had taken so much time, the meeting was adjourned at 10:55.

Will Employ 300 Women

Continued

Co. building two more stories in order to enlarge their present store and as soon as the Elks have found a suitable home, they will convert their rooms into an up-to-date store, also.

The Lee street property purchased consists of two small buildings, one of cement construction and the other a frame building, and 6700 square feet of land. The property was owned by Mrs. Mary E. O'Dowd and its assessed valuation is in the vicinity of \$15,000. Charles S. Fidler stated today that plans are now under way for the tearing down of the old buildings and the erection of a \$75,000 four-story brick or cement building.

The plans call for three or four stories on the street floor, the other three stories to be utilized as a factory for women's cloaks and suits and gowns. "We are conducting a factory in Boston at present," said Mr. Fidler, "but our plan is to remove our machinery to this city and to all our manufacturing here. We are now employing about 150 women in our factory, but if the proposed plans are carried out we will double our working force and Lowell help will be hired exclusively. Inasmuch as we manufacture for our store only, we feel that our factory should be as close as possible to our store and hence the proposed changes."

The plans for the new building, according to Mr. Fidler, will be drafted by a local architect, and the contracts will be given to Lowell contractors with the stipulation that the work be

WINNER IN DOUBT

Race for Republican Gubernatorial Nomination in Nebraska is Very Close

OMAHA, Neb., July 20.—(By the Associated Press)—One of the four principal races in the Nebraska primary election—that for republican gubernatorial nomination was in doubt early today after returns from 1701 of the state's 1913 precincts had been tabulated by the Associated Press.

Adam McMullen of Beatrice was leading Charles H. Randall of Randolph by 317 votes, gained on late returns last night, on returns from his home district. The vote stood: McMullen 45,375; Randall 46,058.

Returns from 1688 precincts gave Charles A. Bryan of Lincoln, brother of William Jennings Bryan, a comfortable lead over Dan B. Butler of Omaha, for the democratic gubernatorial nomination. The vote stood: Bryan 25,478; Butler 23,053.

Returns increased the big lead of R. B. Howell of Omaha, republican national committeeman for the United States republican gubernatorial nomination. Mr. Howell who ran on a progressive business platform, commanded a lead of more than 15,000 votes over Congressman Alfred W. Jeffers, his nearest opponent, who campaigned as a conservative republican. Attorney General Clarence A. Davis, who also campaigned as a progressive republican, was running third. The vote gave Howell 37,330; Jeffers 24,290; Davis, 23,671.

Mr. Howell in a statement to The Associated Press said the result of the primary was largely an economic expression. He said the people of Nebraska were opposed to the idea of elimination of competition in railroad rates act, and are as opposed to a radical tariff as they are to free trade.

Senator Gilbert M. Hitchcock of Omaha, had an overwhelming majority over his two democratic opponents.

Perfect New Landing Device

WASHINGTON, July 20.—Perfection of a device to enable an airplane going 60 miles an hour to land on the deck of a ship, was announced today by the navy department. For the past few months the naval air service has been experimenting secretly at Hampton Roads with the device on a dummy ship's deck. In one of the experiments a small plane was brought to a stop within 38 feet.

ons. A. T. Mahanah of Omaha, and J. O. Shroyer of Humboldt on returns from 1683 precincts. The vote was: Hitchcock 16,294; Shroyer 14,831; Mahanah 9,690.

MAKE LONG TRIP FROM FAR WEST

BOSTON, July 20.—Out of the Golden West two youths have motored all the way to Boston in 23 days. They are Robert W. Carlquist and Kenneth M. Monroe, both of Los Angeles, and recently graduated from the University of Southern California.

Setting out from their home on June 16, they followed no special itinerary or schedule route, but planned to stop at such places as might be of interest to them. Accordingly, they stopped over at the Grand Canyon of the Colorado, Des Moines, Bloomington, Ill., Washington, Philadelphia, New York city, Worcester, New Bedford and arrived in Boston Tuesday afternoon.

Along the way they have been on the alert for any positions they might secure as teachers of chemistry or philosophy.

In the 4000 miles they covered from coast to coast they had only four punctures and two blowouts, with no engine trouble. When night came they would camp along the way. When they were sleeping, or were off sightseeing they would hang on the side of their car a sign bearing the legend "Measles, Keep Out." This apparently served to keep undesirable visitors away and they had no unpleasant experiences on their journey.

After a short stay in Boston and vicinity, during which they have thoroughly inspected Harvard and other great seats of learning, they will leave today for home, carrying with them very favorable impressions of the capital of the Bay State. They will leave

NEARLY CAUSED PANIC

Increase in Prices in Vienna Results in Uneasiness by Population

VIENNA, July 20.—(By the Associated Press).—Yesterday's demonstration against the cost of living appears to have been largely of spontaneous origin.

When groups of women went to the markets and found enormous increases in food prices overnight, the news quickly spread over the city. Within three days the price of lard and pork had risen 33 per cent; that of rice and sugar 100 per cent and bread 20 per cent.

Hundreds of housewives rushed into factories and told the men. There was a general movement to lay down tools, but cooler counsel generally prevailed.

Many deputations of workmen's councils started for the parliament building and were joined on the way by hundreds of men and women. The deputations presented a demand that the old government bread allowance be immediately restored and that measures be taken to check the advancing food prices.

The cabinet went into session late last night to discuss the situation. While the day passed without serious disorder, general nervousness was betrayed by the failure of shops and restaurants to reopen.

The general belief is that the Soviet government has been seriously shaken by developments of the past few days.

FOR THIN BLOOD

There are people who have a tendency to thin blood. They are what doctors call anemic and it is only by careful diet, moderate exercise, sunlight and the use of a tonic at times that they can keep their blood in a condition to ward off more serious disease and keep the organs of the body functioning.

Mrs. Nora Hogan of No. 1175 Cambridge street, Cambridge, Mass., says: "Dr. Williams' Pink Pills always build up my blood and strengthen me as nothing else has ever done. I have given them to my children when their faces grew pale and whenever they have shown signs of needing a tonic."

"At one time I had dizzy spells and was so weak that I was afraid to walk around. I had no appetite, suffered from attacks of indigestion, was pale and sallow and did not sleep well. I thought that if I could eat well I could get my strength back but for days and days I could not bear the sight of food. Three boxes of Dr. Williams' Pink Pills corrected all this. I know of no safer or surer medicine and I am glad to tell what the pills have done for me."

A valuable booklet, "Building Up the Blood," will be sent free upon request. Dr. Williams' Pink Pills are sold by all druggists or will be sent, postpaid, on receipt of price, 60 cents per box, by the Dr. Williams Medicine Co., Schenectady, N. Y.—Adv.

KAREFUL KANNER KLAN The Kareful Kanner Klan of Chelmsford held a meeting at the town hall yesterday afternoon. Miss Marie J. McPherson presiding. During the session, string beans, rhubarb and beet, which were brought by the members, were prepared and canned, and the rules for canning explained by Miss McPherson. The latter will make visits to the homes of the girls during the week. Two classes of Kanners have been formed, the younger group being known as "The Up and Doing Circle," which met this afternoon at the town hall.

It will pay you to get The Sun classified adv. habit.

REFUSES AMNESTY

President Harding Will Consider War Prisoners' Cases Separately.

WASHINGTON, July 20.—President Harding was quoted yesterday by members of a delegation which presented to him a petition for the release of all persons still imprisoned for violation of war-time law as having said, during a 40-minute interview, that he still adhered to his opposition to a policy of general amnesty, and that each case would be considered separately.

All cases, he is understood to have said, would be reviewed within the next 60 days.

Gives Reasons
Nearly 100 persons are still in prison for war law violations. In explaining his opposition, the president is said to have taken the position that all cases were not on an equal footing as some of the persons convicted were charged with advocacy of violence.

Mr. Harding was quoted as having remarked that he was deeply sympathetic with those still serving sentences and their families, but could not permit his heart to dictate a policy that would result in liberation of all prisoners at one time.

While the delegation waited on the president a number of women picketed the west entrance of the White House with banners calling on the president to take action.

Million Names
Approximately 1,000,000 signatures were said to be attached to the petition asking a grant of amnesty to the remaining 37 "war opinion" prisoners, which was brought here by a delegation today. The petition was circulated by the general defence committee of Chicago.

Members of the delegation included Morris Hillquit of New York, Mrs. Robert M. La Follette, wife of the senator from Wisconsin, J. A. H. Hopkins, national chairman of the committee of 18, and James H. Maurer, president of the Pennsylvania State Federation of Labor, issued the following statement on the visit of the delegation seeking amnesty:

"In replying to a delegation seeking general amnesty for all political prisoners the president stated that he could not bring himself to grant general amnesty until he knew that all prisoners held under the war act had only committed strictly war offenses; that he was giving consideration to the cases; that he had instructed the department of justice to expedite reports in all these cases; but that he would never as long as he was president, pardon any criminal who was guilty of preaching the destruction of the government by force."

FINDS BROTHER BY UNIQUE METHOD

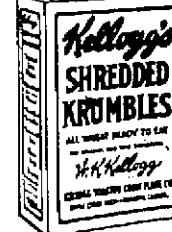

PORTLAND Me., July 20.—The number of the Maine registration plate on the automobile of Edwin A. Winslow of Westbrook was the only means of identification by which his brother, Charles E. Winslow of Tacoma, Wash., recognized the Westbrook man when they met at Union station a few days ago, as the brothers had not seen each other in over 40 years.

Owing to the death of the father, the family was scattered when the boys were very small, and Charles went to the Pacific coast, where he has since resided.

While on a business trip to the east he decided to look up his brother in Westbrook, and, by correspondence, the novel scheme for identification was decided upon.

Charles has been passing several days as his brother's home. They left today by auto for a visit with relatives in Augusta, their former home.

Kellogg's SHREDDED KRUMBLES

Abundant red-blooded health!

Robust, rugged-built women and men get everything out of life! They started their health-growth in childhood because they were given food that nourished; that built bone and muscle and brain!

Children brought up on a diet of denatured foods that flood the American table, must become puny and stunted individuals! Food robbed of its life-sustaining elements cannot produce health and strong bodies!

Every child in America should eat Kellogg's whole-wheat Krumbles at least once daily. Krumbles put into the body ALL the vital elements subtracted from the daily foods we eat! Krumbles are life-sustaining, body-building, health-assuring! And Krumbles are delicious—because they are whole-wheat, flavored for the first time in history!

Your entire family—children, the workers and the aged, will thrive wonderfully on Krumbles!

The only whole-wheat food with a delicious flavor!

Vitamin Food

Delicious and Energizing

If you eat white bread, lean meat, cooked fruits and vegetables, or drink tea, coffee, or pasteurized milk, add a cup or two of Vegex daily to balance your meals. Our modern foods lack vitamins. Vegex is a certified vitamin food which brings health and power.

Used by British in the War

The British Government used a product identical with Vegex to energize the soldiers during the War. Ask your druggist or grocer for a box, 50c or \$1.00 per box. Vegex is our common sense food. Write to Kellogg's Company, Oakland National Bank Building, New York.

BELIEVED MURDER SUSPECT HIS LOST BRIDE

TULSA, Okla., July 20.—That Mrs. Clara Phillips, held in Los Angeles for the murder of Mrs. Albert Meadows, is his missing bride, is the firm belief of Joe McGuire, a carpenter living here. Descriptions of Mrs. Phillips, carried in press despatches, McGuire Phillips the woman who deserted him four days after their marriage in Cannon City, Ohio, on April 20, 1921.

Believed Him Mistaken.

LOS ANGELES, July 20.—Officials here after a careful check of Mrs. Phillips' previous life, said they believed Joe McGuire of Tulsa, Okla., who telegraphed them he thought Mrs. Phillips the woman who deserted him four days after he married her in April, 1921, was mistaken.

Railroad Strike Continued

from the water other shots were fired from the bushes on the opposite bank of the river.

Two Patrolmen Shot

MONONGAHELA, Pa., July 20.—Two Pennsylvania railroad patrolmen, a car inspector and a constable were shot early today after their gasoline speedster had been wrecked on the Ellsworth branch, south of Bentleyville, Pennsylvania. Three of the men were seriously wounded while the other was hit by a number of buckshot. The officers were on railroad strike patrol duty.

Requests Troops

CONCORD, N. H., July 20.—Governor Albert O. Brown had under advisement today the request of Mayor Henry B. Chamberlain for state troops in keeping order among railroad workers and strikers here. The mayor's request for protection followed the action of five masked men in driving 16 Boston & Maine workers from their sleeping quarters late Tuesday night. Persons close to the governor said

that it seemed hardly probable that the troops would be called out. Two sergeants and six patrolmen of the Manchester force were here today to assist the local police. There was no evidence of trouble in the railroad yards this morning.

The police said today that they believed they knew the identity of two of the masked men who participated in Tuesday night's disturbance. The publicity committee of the railroad strikers declared in a statement that the disturbance Tuesday night was "entirely foreign" to its members.

"This framed-up rioting, we claim," the statement said, "is simply gotten up to try and blacken the strikers in the eyes of the public. We wish to say that this strike is being conducted in a clean manner by conservative citizens and we ask that the public do not believe this nefarious propaganda."

Peace Prospects Gone
CHICAGO, July 20.—With immediate prospects for peace in the railway strike gone, strikers and railroads today settled down to a test of strength. The statement of Chairman Mooper of

the railroad labor board that the board was no longer engaged in peace negotiations left the situation open to direct negotiation between strike leaders and railroad chiefs, or attempts from other sources.

Union officials remained firm in their demand that full seniority rights be restored to the 300,000 shopmen now on strike, that being the rock on which peace efforts were broken. Rail heads were equally firm in their insistence that seniority rights of men now at

work be recognized. There was no indication from either side of a weakening of the determination to carry the point at issue.

In all 247 trains have been cancelled or are about to be cancelled, said reports from railroad centers in the west. The southwestern lines apparently have been heaviest hit. Reports were that the strike is being felt by the iron and steel industry, that coal mines in parts of West Virginia are without coal cars and that a portion of the fruit crop of the Pacific coast is endangered by lack of transportation.

Reports of violence fell off somewhat but troops were called out in two more

strikes, and isolated shootings and whippings continued.

A conference between union heads and road officials in Chicago, was expected to avert a walkout of 7300 clerks on the Chicago & Northwestern railroad.

Railroad repair shops in the east are manned at nearly 60 per cent. of normal, Secretary Walker of the bureau of information of eastern railways said in a statement issued at New York.

As far as the western district is concerned "the strike is just about over," the statement added.

Restraint orders and injunctions looking to the protection of railroad property and operations were granted in a dozen or more cities.

The appeal of President of Labor, to workers everywhere, to support the shopmen's strike, was received quietly.

As far as the western district is concerned "the strike is just about over," the statement added.

FUTURE OF THE MOVIES

Evidently Will H. Hays, head of the moving picture producers of America, is watching closely everything the newspapers say relative to the development of motion pictures and their more general application in the communication of knowledge. The Sun is in receipt of the following note from Mr. Hays:

522 Fifth Ave., New York,

July 17, 1922.

Editor Lowell Sun:

I have read with interest the editorial "Movies in Schools" in The Sun of July 8th. This will be helpful in our efforts to improve the situation and to secure greater co-operation from the public.

Enclosed is a copy of some remarks made in Boston the other evening. I hate to "wish" this on you but would be really grateful if you would read some of them. I tried to state just what we are doing and no more.

With kindest regards and best wishes, I am

Sincerely yours,

WILL H. HAYS.

We quote one passage from Mr. Hays' address before the National Education convention in Boston:

"I wonder if you realize what it means for the general good of these men who are pioneers in this industry, who had the vision, industry, initiative and nerve, if you will, to make this thing what it is in twenty years? I wonder if you realize what it means that these men now have been united to make it their first business to do everything in their power to establish and maintain the highest possible moral and artistic standards of the motion picture?"

"I wonder, too, if you realize, you teachers and all those who have at heart the general welfare—I wonder if you realize just what their action means, and what the motion picture means to the youth of this country?"

"I approach this subject not merely from the viewpoint of men who have millions of dollars invested in the business, but from the viewpoint of fathers and mothers who have millions of children invested in the business. Ten to twenty millions of people a day see motion pictures. Millions of these are children, and they go with the same open mind. Above everything else, perhaps, is our duty to the youth in the situation. To teachers I do not have to say that this industry must have toward that sacred thing, the mind of a child, toward that clean, virgin thing, that unmarked slate, the same sense of responsibility, the same care about the impressions made upon it, that the best clergyman or the most inspired teacher of youth would have."

If Mr. Hays and his co-workers will put the high ideals and aims he has thus expressed into practical operation, he will have rendered a priceless service to the country and incidentally will have well earned the high salary of which he is the recipient.

The editorial referred to by Mr. Hays had reference to the great value of moving pictures in illustrating the graphic arts, and especially as an aid in teaching geography, a branch of instruction that is too often treated as a mere matter of memorizing lists of capitals, rivers, lakes and mountains. The possibilities of visual education through the movies are unlimited and so far as the communication of geographical knowledge is concerned, we can become familiar with the conditions of life, the customs and habits of the peoples, and even the scenery of all nations, whereas not many of us can ever visit more than a few foreign countries. But unfortunately a vast majority of Americans have but a poor idea of their own country, and hence it rests almost entirely with the movies to give us a realistic idea of the grandeur and great variety of its scenery, the picturesqueness of its lakes and rivers and the sublimity of its mountains. As an unsurpassed vehicle of instruction in varied lines, the moving picture industry is only in its infancy.

THE PRESIDENT'S PROCLAMATION

President Harding has issued a proclamation calling upon the mine operators to open their mines for the resumption of operations, promising full protection alike to those who decline employment and those who seek it at the mines. This action followed the refusal of the president's request that the strikers return to work at the old wage scale and submit the issues involved to arbitration by a national coal commission. The mine workers declined as a body; and while the Bituminous operators accepted without reserve, the anthracite people offered to accept only on conditions that would change the whole program and that were, therefore, unacceptable. This plan of settlement called for voluntary acceptance, which was not given. In that decision we believe the mine workers made a grave mistake.

Now the president acts to end the trouble so far as he can, and whether his course will be successful will depend upon the action of the coal strikers. The gravity of the situation and the necessity of protecting the public welfare has moved the president to offer the aid of the federal troops in protecting the mines where the states may require such aid; and the presumption is that if any of the states fail in offering such protection, as might be expected in Illinois, the federal government will feel justified in intervening in order to protect those who wish to work against possible opposition or attack by the strikers. The tragic occurrence at Ferris, Ill., followed by one somewhat similar in West Virginia, has moved the government to take drastic action. It is to be hoped that nothing will occur to cause bloodshed, or to justify the use of military force for any other purpose.

CHINA'S RESOURCES

John Hays Hammond, famous mining engineer, said to get the biggest salary in the world, returns from the Orient.

He is excited about China's undeveloped natural wealth, which he describes as "incalculable." Despite this wealth, China is a nation of poverty, congested, no system, a coiled and his family living on 16 cents a day.

What keeps China poor? Hammond answers, lack of transportation. It is the same in our country, everywhere is properly shackled to the railroads. You realize this when a strike disrupts freight service.

LOSE YOUR FAT, KEEP YOUR HEALTH

Superfluous flesh is not healthy neither is it healthy to diet or exercise too much for its removal. The simplest method known for reducing the overweight body easily and steadily is the Marmola Method, tried and endorsed by the Marmola Prescription and are sold by druggists all over the world.

It is refreshing to meet an aged person who doesn't need any old age pension. Harding had luck, the average person with common sense should be self-supporting as long as he lives. For those out of luck or imprudent in youth and middle age, outside help is necessary.

What will you be doing when you are 60 or even 75? Are you taking any plans for it?

Street lamp trimmers, milkmen and many others, perhaps, are responsible for so much broken glass being scattered about the streets. The police punctures auto tires and thus causes a loss of time and money. The police officers on their various beats should be able to find who is responsible for the broken glass strewn about the streets.

Sherman Whipple's connection with the proceedings of the H. V. Greene company will not help his candidacy, although his duty, like that of P. P. Sullivan, was only to protect the interests of the stockholders.

Lawrence has just had a most successful "Dollar Day" sale, conducted on the plan carried out in Lowell. The people of Lawrence know a good thing when they see it.

SEEN AND HEARD

Days are getting shorter. Don't waste any.

"American Doped by French Antique"—Headline. Sounds like another high-sounding marbling nobility.

Gregon candidate spent one cent for campaign expenses, but what he got wasn't worth it.

London psychic claims he can find a needle in a haystack. That's easy. Sit on the haystack.

See and Saw

In spite of the fact that there was a notice on the gate, "No admittance except on business," a youth entered the timber yard and stood looking around him. The foreman approached him, and asked what he was doing there. "I'm just looking around," replied the youth. "But," said the foreman, "there's nothing to see." "No," replied the youth, "but there's a lot to saw."

A Thought

The sources of artificial strength and artificial weakness are being dried up. Governors and governed, employers and employed, are coming to be co-workers for the same ends. Not the old merces repeated, but new merces going vastly deeper than the old—these the what men are beginning to see that the world is needing and that God is giving to the world. He loves.—Phillips Brooks.

Today's Word

Today's word is precarious. It's pronounced pre-ka-ri-us, the e as the first e in event, the l as the l in l and u short. Account falls on the second syllable. It means—depending on the will of another; unsettled; or doubtful of continuance. It comes from the Latin "precaris," obtained by begging or prayer (from precor, I pray). It's used in the Bible with the security he maintained his precarious foothold.

Sandy Still Nutsy

Two inmates of an insane asylum in Scotland, working in the garden, decided to attempt to escape. They were graphing their opportunity when the keeper was absent, they approached a wall. "Now ye bend down, Sandy," said one, "and I'll climb up your shoulder to the top, and then I'll give ye a hand up." Sandy, accordingly, bent as low as he could, and Jack, mounting his back, gained the top of the wall. As he dropped over on the other side and was preparing to make off, he shouted to his companion: "I'm thinking, Sandy, you'll be better in a little another fortnight, for you're no near right yet."

Too Many Words

The editor of a local paper received the following letter, apparently from a subscriber: "Don't send us your paper any more. We ain't taking any more of it. We want to take yours. But you ain't want none of it. Present time. The Blankton Blankton. An awful good paper, but we can't take no paper now, so please stop your paper. We'll take your paper again when we can take paper. Don't send it no more. The substance the editor made out of the foregoing was that the man evidently wanted his paper discontinued.

Draws Line on Canary Walk

Visitors to Central park the other day saw a new angle of the family pet out for an airing. A young woman was walking with her dog, a small white bird, and a small white dog. The bird sat on the dog's back, and the dog sat on the woman's back. The woman was walking, and the dog was walking, and the bird was sitting on the dog's back, and the dog was sitting on the woman's back. The woman was walking, and the dog was walking, and the bird was sitting on the dog's back, and the dog was sitting on the woman's back.

FLYING

Col. J. C. Vincent, one of the designers of the Liberty motor, believes that families touring by airplane soon may be a common sight.

Touring planes, he predicts, will be unlike ones developed by the war. They will be built primarily for comfort and safety, rather than terrific speed and heavy weight.

This is interesting to contemplate. Touring in the air may eliminate road troubles and tire bills. In place of them will be uncertain weather troubles. One thing about a bad road, it doesn't cave in and drop you half a mile. Then there will be air speedsters making the highways unsafe even for the most cautious.

A Conversation

Says parson to Farmer Jack in the lane:

"Hullo, then, farmer, to work again? You're sixty-seven now, if you're a day."

"With a day bit put by, I'll lay. You've done your share, and you've got to leave off and take your pleasure."

"Other folk do it. Why shouldn't you?"

"Ah, parson," says farmer, "and so I do. My pleasure be this, for to work and to live all for me wife and datter's sake."

"If they gets so much pleasure to take as 'tis to me for to make and tend it, they'm pleased, and I'm pleased, and we'm all content."

"Good-day to ee, parson."

—L. A. G. STONE, from the Chap-book, London.

Statistics from Babson's sales forecast, showing favorable, fair and least favorable regions for sales, indicate that the city of Lowell is in the "fair" class. For May, 1922, there were \$20,236,000 worth of purchases as against \$19,102,000 for May 1921. With more business looming up on the horizon, I wonder what the next statistics will reveal.

Passing city hall Monday night about 6 o'clock, I was astonished to see a full grown man, who was standing on the curb, raise a bottle to his lips and drain the contents. Not being with this unusual act, he deliberately threw the bottle into the middle of the road, where it broke in many places. There might be some excuse for a child doing such a thing, but for a man of 60 or more years, as this person appeared to be, there is no excuse. It might be well to mention that in recent years the two men have been fined in district court for breaking bottles on public highways. Men who own autos have troubles enough in paying for tires, worn out from ordinary travel over bad streets, without being forced to hand over money for tires to replace those chewed up by broken glass. The direct result of careless and lawless acts. A fitting penalty for this man would be a sentence requiring him to get down on his knees and pick up every particle of the bottle he had thrown, and then to clean up the drinking, leads us to think otherwise.

THE MAN ABOUT TOWN

Somehow it seems that various hot spells have come our way rather out of season and thus they have caused all the weather trouble, resulting in the vast downpour of rain that followed. When a very hot spell comes while the surface of the earth is still filled with moisture, the evaporation is above the normal, and when this vapor strikes a cold current of air, it is condensed and falls in rain. The nimbus or rain-cloud is the result and this, owing to its weight and the friction with other clouds, becomes electrified and by induction electrifies the earth beneath, causing thunder storms and the further condensation of the dense vapor in the atmosphere in the form of rain. When there is a sudden cooling at any particular point or a change in the weight of the clouds, as when lightened by condensation into rain, then the winds are set in motion in accordance with the nature's ever constant vigilance in guarding against a vacuum. For this purpose she is ever setting currents, cold and hot, in motion to regulate the specific gravity and preserve the equilibrium of the air. Sometimes she has to act very quickly and strenuously and we are the result in such elemental exhibitions as that of Tuesday afternoon.

After seeing the new giant traffic beacons in position about the city, I have reached the conclusion that they have ameliorated the lot of many a weary traffic officer. Standing beside one of the imposing, contrasting the average traffic officer seems dwarfed, and in regarding the new "monuments," pedestrians and motorists alike, becoming absorbed, fall to heed the officers' signals and drift along in dreamy sequence. At night, however, the beacons are useful indeed. No traffic officers are on duty and the ever-flashing rays from the beacons serve as a very helpful guide. Some positions on the main thoroughfares now guarded by traffic officers do not afford the space required for the installation of the new beacons; therefore the officers have nothing to support them during the day and traffic runs at random at night on the first come, first served principle. In places where they are stationed, however, it behooves the drivers of motor cars to keep their eyes open, for a collision with one of these impressive pillars means a journey to the nearest repair station with the aid of a tow rope, and perhaps the junkman will reap the benefit in the end.

With about three-quarters of the summer baseball season, as concerns the local big leaguers, passed into history, the South common has seen some record crops. The weather has been about the worst conceivable, far surpassing in discomfort and general disagreeable features that of other years. Money, too, has been tight, with the existing state of unemployment added to labor trouble. Thus the contributions have shown a decided shrinkage. The players, however, have been about the best ever seen in this city, and it is a tribute to the athletic skill of the city's youth that six teams of good semi-professional caliber can be assembled in a city of moderate size, whereas in other and larger cities the situation is very different, one or two teams far surpassing all others. The young men of the teams are unique. The Y.M.C.A. organization, for example, has turned out an amateur team, confined in a great part to members of the high school nine of this spring, and is in a position near the top of the heap. Altogether, the accomplishments of the entire league show the results obtained from a real baseball league conducted in a proper manner.

Anthony Pichonari, an old friend, aspirant for school committee honors in two or three years just passed, and now candidate for representative to the legislature from the 16th Middlesex district, paid me a visit the other day, and, strange to say, his mission had nothing whatever to do with politics. He had just received a letter from a friend in Italy, and wanted to recount various stories of exciting events in his home country, Italy, to his friends. It seems that the black hand is still "carrying on" on Tony's native coast, and he is a multi-millionaire of his section left the small city of Cigliano for the province of Torino, with the object of selling mules. He reached there in due time and did a fairly good business, but on his return he was trapped on the road by robbers, who forced him to take some sort of which he had received during the sale and finally divested him of all his money. After he had encountered a friendly farmer, who gave him some clothing, he went home. Shortly after he arrived there he went out again and has not been seen since. The respondent believes that he was the victim of foul play. Another man known to Tony is now in Lawrence, having suffered similar treatment. Sicily! Everything considered, Anthony relates his stories in the style, and indicates his progress at the Suffolk county law school from which he will emerge in two years with a degree of at least L. L. B.

Statistics from Babson's sales forecast, showing favorable, fair and least favorable regions for sales, indicate that the city of Lowell is in the "fair" class. For May, 1922, there were \$20,236,000 worth of purchases as against \$19,102,000 for May 1921. With more business looming up on the horizon, I wonder what the next statistics will reveal.

Passing city hall Monday night about 6 o'clock, I was astonished to see a full grown man, who was standing on the curb, raise a bottle to his lips and drain the contents. PROBE UNKNOWN BURIAL

District Attorney Gives Orders to Exhume Body Buried in Golden Dome

WOBURN, July 20.—Investigation into the discovery of an unrecorded casket in the Golden Dome cemetery proceeded today when Medical Examiner Vernon C. Sawyer received the order from Assistant District Attorney R. H. Beaudreau to exhume the coffin.

The order for exhumation was issued following the report made to the district attorney's office that the "unknown burial" was discovered for the plot of ground reserved for directors of the cemetery association was being opened recently for another burial. When officials of the cemetery questioned Harry Kritzer, aged 66, who had been caretaker for fifteen years, Kritzer explained that the body had been brought to the cemetery very last February by Morris Gold, an employee for a Boston undertaker, who called to have a permit for the burial but promised Kritzer he would mail it. At this juncture in Kritzer's story Gold called at the house. The caretaker pointed his finger at the assistant and then dropped unconscious on the floor. Kritzer died within an hour.

Denies Story

Gold denied the story as told by Kritzer. Attorney Miller, counsel for the cemetery association, reported the facts to the authorities. Miller said today that the average depth at which a body was buried in the cemetery was four feet. This casket, he said, was buried six and one half feet deep. Further, he said: "The fact that no permit was issued for its burial is most suspicious and worthy of investigation. We want to see the body, because on the question of whether it is that of a Jew it hinges the theory of foul play. If the body is that of a Jew it is possible it was buried deep so that another body might later occupy the same lot, although this practice is contrary to Jewish custom."

On the other hand, if the body is that of a Gentile, the theory of foul play will be strengthened, because a body would be buried in a Jewish cemetery only under most unusual and extraordinary circumstances and for some particular reason."

The wife of the dead caretaker in a statement to the mayor said that her husband had been in terror for months before the burial, and that some time ago he was summoned to a conference with trustees of the cemetery. On returning home, Mrs. Kritzer said her husband told of having been threatened with the penalty of having to pay \$4000 for having placed the body in the reserved section.

LAWHORN IS FREED

Middlesex Grand Jury Absolves Marine in Connection With Murder

BOSTON, July 20.—Evidence presented before the grand jury in the case of Private John D. Lawhorn, United States Marine Corps, who has been held in connection with the murder of Ralph Brewster, B. & M. R. ticket agent at Winchester, was not found sufficient to incriminate Lawhorn and a no bill was returned yesterday afternoon at 3:15.

The case was first brought to the attention of the special Middlesex county grand jury, sitting in the court house at East Cambridge, Tuesday. Yesterday morning at 10 o'clock the hearing was resumed, and the witnesses called. The witnesses were accused at 1:10 p. m. and the grand jury began deliberations immediately afterward, returning the no bill at 3:15.

Charles Lindall of Quincy, alleged photographer thief, who is held at East Cambridge jail, whose story to the police first involved Lawhorn in the case, was the first witness. He was followed by Lawhorn.

Sergeant Edward Trainer of the Marine Corps, who was duty sergeant of the guard at the Charlestown navy yard the night the murder, the next witness. First Lieut. Edward Shaw of the Marine Corps, who was in charge of the guard records on the night of the murder, and Col. Arthur P. Marx, marine commandant at the navy yard, were next examined in regard to the claim that Lawhorn was on guard duty on the night the murder was committed. Privates Leo Ballman, Benjamin Merritt, Albert Caputo and Murray Durbin, also testified for the defendant.

After the grand jury had reported, District Attorney R. Ballou, addressing the court, stated that the evidence was insufficient to incriminate the non-soldier and that as a result of the finding he had written to the authorities at the navy yard informing them that his office has no further interest in holding Lawhorn.

Berton Brakley's Daily Poem

WHY, BROTHER?

Life is too short to spend in harboring
The memory of every slur and sting;
Of little woes that irk us every day;
There's hardly time enough to work and play,
To laugh and love, and now and then to grieve.

Before we know it we are getting gray;
To store up rancor truly doesn't pay.
It wastes the time—and time is on the wing—
Life is too short.

We need the moments when we can be gay.
Why should we burn them up with thoughts that stray
To anger over every little thing?
Much worry over fancied cares will bring
Nothing but lines and wrinkles! Anyway,
Life is too short.

MILL HAZARDS AND
HOW TO AVOID THEMIssued by the
Massachusetts Safety CouncilBY H. W. DONALD,
Safety Engineer

Scientists who have delved deeply into the subject of the sub-conscious mind tell us that the dream of falling or places, just as we go to sleep, is inherited from the time when ancestors dreamed and slept in the tree-tops, and occasionally slipped loose—foot, hand or tail—and fell bumping down perhaps to the mirth and chatter of their companions.

Life still has its ups and downs, but ingenious mechanism has reinforced taller and less hardy anatomy, and falls today are not so amusing to our companions as in the days of yore. Modern city life would be a flat affair had we not progressed beyond the point of ladders and stairs. Modern industry would never have gone above the second floor without the freight elevator. The Scriptures warned us to honor our father and mother. If we tested our days to be long in the land, safety men go even further than this, and urge us to respect the stranger that is within the elevator gates, and pay heed to the sign that reads: "Freight Only."

Just why should we have so many elevator accidents in the course of every year, when they are guarded not only by safety devices, but by signs of warning?

The records show that workmen fall into them, fall out of them, fall between them, leave feet and ankles, yea, and even heads, hanging limply over the edges of them.

The greatest danger of all is at the elevator entrance. Sixty to eighty of every one hundred elevator accidents happen at the elevator entrance. We might almost shroud it in crepe and put flowers on the push button, and skull and cross-bones over the floor dial. If it would but warn the unwary to approach elevator entrances with caution and deliberation.

And such a mussy, painful, racking departure from the sunlight and certainty of this world! If one is so unfortunate as to be officially hanged, the drop falls and the victim's consciousness departs simultaneously. The elevator, on the contrary, like the steel trap, pins the unfortunate and death is slow. Or, if a falling accident occurs, there are inevitably two brain-racking tortures—the horrible consciousness of helpless falling blending instantly with the obliterating crash at the bottom.

What, then, must we do about elevators, if they are so necessary and yet so dangerous?

On passenger elevators, enter deliberately and alertly, rather than reading a newspaper, talking to a companion, or lighting a cigar. Make sure that the operator is on the job before you attempt to get in or out.

If you work about a freight elevator, there are six points to remember: If obliged to operate a car, take your time about it. Ring the bell to warn others. Call out and wait until all is clear before pulling the cable. When the car stops, lock the cable before leaving. If you intend to return, do not enter or cross the shaftway for any purpose. On an open freight elevator, keep away from the edges.

Pile your freight securely. Don't overload. Leave room to stand on the car. Keep off hatch covers for they move quickly. Use the stairs or only when your work requires. Use the stairs at other times.

There are certain facts to remember concerning the repairs of your elevator. You should of course report elevators that are out of place. Gates and doors should be tested frequently. Do the gates fall easily? Do the door catches hold? Do the safeties not quickly, and are they clean? Are the cables worn, the strands cracked, jammed or kinked? Are the shaves cracked? Is the mechanism oiled and regularly inspected?

If you are the man who repairs the elevator, work deliberately. Think of the safety of others before starting the car. Think of the counterweight. Keep alive to the entire equipment.

Much can be done by ordinary observation and common sense to prevent accidents.

Above all, don't monkey with the elevator. Trick monkeys die young.

WALLOP TURNKEY
AND EFFECT ESCAPE

HOULTON, Me., July 20.—Turnkey George Hall is in a hospital suffering from a severe scalp wound and two inmates of the Aroostook county jail, Wiley Michaud and Herbert Martin of Van Buren, are enjoying their liberty as a result of an attack upon the turnkey yesterday.

The Van Buren boys, who were being held for action by the grand jury on larceny charges, hit Hall over the head, according to reports by deputy sheriffs as he brought them their food, and escaped by the use of his keys. Sheriff Grant offered a reward of \$25 for their capture.

Gunpowder is said to have been discovered by Roger Bacon.

You Can Do It Better With Gas

You Can Do It Better With Gas

Announcing the Glenwood Grey
Enamel Gas Ranges

318 MRO. All Enamel (Right Oven), with Glenwood Thermolator, (Heat Control). Light Grey Porcelain Enamel, with White Trimmings.

It will be a treat for you to see the latest improvement in this nationally known product.

This is the first time that a full line of Glenwood Gas Ranges has been shown in Lowell. So many Lowell people have inquired

Fashions change in Gas Ranges as in every other commodity in general use. Such a change is now taking place and the Lowell Gas Light Co. is ready to meet the popular demand by showing a complete line of

Modern
Glenwood
Gas Ranges
They "make cooking easy"

With the Exquisite Pearl Grey Enamel Finish

about the Glenwood that we have decided to add it to our already complete stock of Gas Appliances.

To those people who have antiquated Gas Ranges, or have no Gas Range at all, we particularly aim this announcement.

The Modern Glenwood Gas Range Lightens the Housewife's Burden

There are several outstanding reasons why no home should be without a Gas Range—and, by the way, those who have gas equipped kitchens will have little to worry them should the coal situation become acute this fall and winter.

Clean—no smoke, ashes or dust; surface is easily kept polished and spotless; no soot can soil utensils.

Labor-saving—a turn of the lever starts, stops or regulates the heat instantly. Burners, ovens and shelves are conveniently placed.

Beautiful—especially the new Ranges finished in white or grey porcelain enamel.

Economical—improved design in burners, ovens, broilers and heat passage helps you get the right heat with minimum fuel.

The Gas Range Is the Chief Article in the Kitchen

Gas used in any range, no matter how old, gives better home cooking than any other fuel.

But to get the full satisfaction from the best fuel on earth, a modern Gas Range is necessary. You can put one in your present home, and move it when you build.

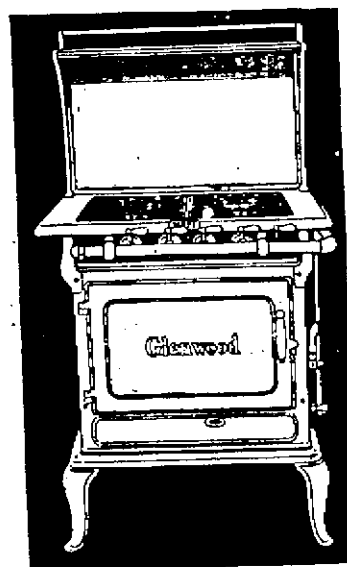

If the stove you are using is a relic of earlier days, your household duties can be lightened by such equipment as the economical, beautiful, convenient

Modern
Glenwood
Gas Ranges

The superb workmanship and finish, and many modern improvements, are found on no other ranges. It will be a pleasure to us to have you drop in at our appliance store, and see the new developments in cooking progress. You will not be under the slightest obligation to buy.

The Glenwood Ranges are equipped with the famous Glenwood Oven Thermolator, which makes the baking easy. It is an automatic mechanical device by which any desired temperature between 250 and 550 degrees can be maintained in the oven, for any length of time, by simply turning the pointer on the dial to the temperature mark desired. The Thermolator really does make baking easy, and is coming into general use by discriminating housewives.

One man who recently bought a Glenwood Range with the Thermolator equipment has written the following commendation: "My

Glenwood Ranges weigh more and are put together better than any other gas range on the market today. The castings are smooth and easy to keep clean.

Glenwood Ranges
Come in Light Grey
Porcelain Enamel.

Semi-Enamel, and Black Japan Finish,
with White Trimmings.

The linings of the Glenwood Oven are made of White Aluminized Metal Sheets which are Rust-proof and have excellent wearing qualities. They are handsome, convenient, and mechanically right.

wife stated today that the range worked way beyond her expectations, and I want to add that the Thermolator not only works to perfection, but is a very attractive addition to the range. We have decided that we would not have in our house a range without Heat Control, after the short experience we have had with this unit. We have done regular baking with the best of results, and I also find that the small oven bakes beans at 250 degrees better than anything we have come in contact with. I believe that Heat Thermolators on your ranges are not only very handy, easy to operate, and gas savers, but also produce better results in baking."

OUT OUR WAY

GIRL UNHURT IN FALL OF 125 FEET

PLYMOUTH, July 20.—Miss Clara Litchfield of this town went off a cliff, 125 feet high, near Hotel Pilgrim, in a large automobile about 9.30 last evening and miraculously escaped with a few minor injuries. The automobile, which landed against the breakwater at the foot of the cliff, was not much damaged.

Miss Litchfield, who has been in ill-health for some time, started yesterday afternoon for a ride in the auto but would not allow anyone to go with her.

Last night, when she had not returned, the people at her home became suspicious that some accident had happened and telephoned Chief of Po-

lice John Armstrong, asking him if he would look her up.

Chief Armstrong found Miss Litchfield at the Mayflower Inn in Atlantic City and told her that they wanted her at home and said he would ride back with her.

She would not consent to this, so he with the other officers followed close behind her in their machine. When she arrived near Hotel Pilgrim, she turned her car quickly to the right. She put on all the speed and went down through the field over the ditch which is used to prevent water from washing down the hill, through the big fence and down the cliff, 125 feet high.

The police reached Miss Litchfield as quickly as they could and got her out of the car at the foot of the cliff against the breakwater.

They immediately removed her to

the Jordan hospital and summoned the doctor. Miss Litchfield refused to talk or give any reason for her act. The only injuries she received were a cut and a scratch.

INCREASE IN MILK PRICE UNJUSTIFIED

BOSTON, July 20.—The "drying up of pasture" this year does not justify the recent increase of one cent a quart which the New England Milk Producers' association made in the price of milk. Eugene C. Hullman, chairman of the commission on necessities of life, informed District Attorney Thomas C. O'Brien of Suffolk county yesterday. "This year the rains in June—20 days being rainy—have provided excellent pasturage," Mr. Hullman told the district attorney who is investigating the price of milk here.

Tom Sims Says

A nickel isn't as good as a dime, but it goes to church more often.

One day last week a man understood what a train caller said.

After mixing business and pleasure, business never looks the same.

Another society crook has been caught. Some people are not known by the company they keep.

You seldom see a fly going out through a hole in a screen.

Many family trees have some cracked branches.

No matter what happens somebody always knew it would.

The honeymoon ends when the furniture store collector begins.

In Africa, the native girls want American clothes. Somebody is going to get sunburned.

Women are vain, but every barber's mirror sees some funny things.

Maybe these reformers could stop the fish from biting on Sunday.

No matter what a man believes he can't do, he is right.

Lots of aviators fall down on the job because they don't learn the business from the ground up.

So many women are shooting their husbands the men are getting afraid to take out insurance.

Why is it that nearly all rich men look like 20 cents?

All you have to do to get a crowd to follow you is find out which way the crowd is going.

People with the biggest houses don't need them the most.

It takes all kinds of people to make a world, but only one kind to ruin it.

Some people enjoy a vacation; others spend the time writing home.

Our ambition is to be so rich we don't have to pay our bills.

Watching the sunset is fine; but watching the sunrise is better.

MAJOR MORGAN AFTER BIG PRIZE

LONDON, July 20.—(By Associated Press.) Maj. C. W. P. Morgan, the British aviator, has cabled to the United States an announcement of his decision to attempt a trans-Pacific flight from San Francisco to Sydney, New South Wales, for a prize of £10,000 offered by Thomas H. Ince of Los Angeles.

Maj. Morgan says he hopes to leave San Francisco at 1 o'clock on the evening of October 2 next, and arrive in Sydney at 2 o'clock on the afternoon of Oct. 7, proceeding across the Pacific by way of Honolulu, Samoa and the Fiji Islands.

Maj. Morgan was associated with Capt. F. B. Rynham in the ill-fated attempt to fly across the Atlantic from Newfoundland to Ireland in May, 1919. Their plane was wrecked soon after it started. Morgan suffered severe injuries.

According to the conditions laid down by Mr. Ince in offering a prize of \$50,000 for trans-Pacific flight, the start could be made from either side of the Pacific. It was stipulated if it was made westward, Venice, Cal., must be the starting point, and the landing made on the mainland of Australia, the Japanese Islands or the Continent of Asia. The announcement in June, 1919, said the contest would be open until February, 1920, and the flight must be completed within 12 days after the start.

FRECKLES

Now, Is the Time to Get Rid of These Ugly Spots

There is no longer the slightest need of feeling ashamed of your freckles, as Othine—double strength—is guaranteed to remove these homely spots.

Simply get an ounce of Othine—double strength—from any druggist and apply a little of it night and morning and you should soon see that even the worst freckles have begun to disappear, while the lighter ones have vanished entirely. It is seldom that more than an ounce is needed to completely clear the skin and gain a beautiful clear complexion.

Be sure to ask for the double strength Othine as this is sold under guarantee of money back if it fails to remove freckles.—Ad.

HOW TO REDUCE VARICOSE VEINS

Many people have become despondent because they have been led to believe that there is no remedy that will reduce swollen veins and bunches.

If you will get a two-ounce original bottle of Moore's Emerald Oil (full strength) at any first class drug store and apply it at home, an improvement which will continue until the veins and bunches are reduced to normal.

Moore's Emerald Oil is very concentrated and a bottle lasts a long time—that's why it is a most inexpensive treatment. It has brought much comfort to worried people all over the country and is one of the wonderful discoveries of recent years and always bear in mind that anyone who is disappointed with its use can have their money refunded. Fred Howard, your druggist, can supply you.—Ad.

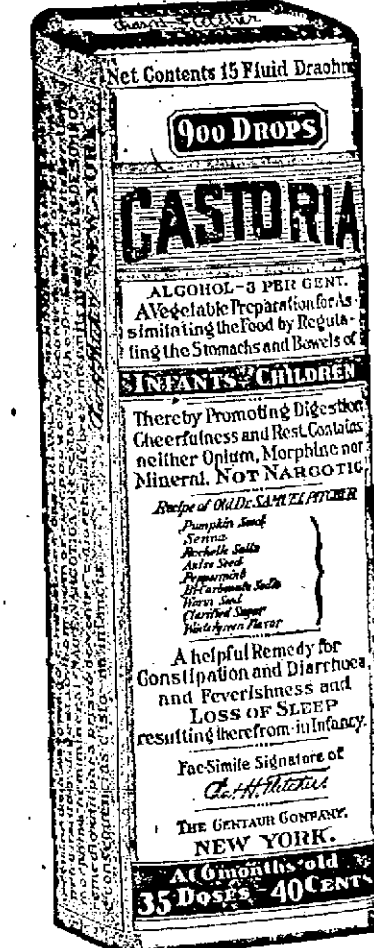

Ladies Keep Your Skin Clear, Sweet, Healthy With Cuticura Soap and Cuticura Talcum

TRY A SUN CLASSIFIED AD

Making History.

INFANT MORTALITY in past ages has been something frightful, something almost beyond belief, and even today it occupies the time and the mind of leading physicians in all countries. The death rate among infants is being gradually reduced through new methods of hygiene, new preventatives and new remedies for infants. This reduction in the death rate has NOT been accomplished by adapting the precautions taken and remedies used by adults. Rather has it been to keep clear of the old methods, and choose after long research the precautions and remedies specifically applicable to infants.

This being so, is it necessary for us to caution mothers against trying to give her baby relief with a remedy that she would use for herself? Will she remember that Fletcher's Castoria is strictly a remedy for infants and children?

Exact Copy of Wrapper.

Children Cry For Fletcher's CASTORIA

Of Course You Love Your Baby.

You love it because of its very helplessness, because it can't tell you what is the matter when it feels bad. It can only cry and look to you for help. But the more you love baby, the more you want to help baby, the more you ought to realize what a wonderful remedy Fletcher's Castoria is. It has been used for babies' ailments for over thirty years.

An experienced doctor discovered Fletcher's Castoria especially for babies' use. It is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. Doctors who know what is safe and best for babies have only good to say of it.

Don't neglect your baby. Get a bottle of Fletcher's Castoria and give baby a few doses of it. See how the little one smiles at you as if trying to thank you for helping it. Soon you will learn to depend on Fletcher's Castoria, made just for Infants and Children, and of course you would not think of using anything for them that was not prepared especially for Infants and Children. So keep it in the house.

MAY HAVE BEEN WORTH MILLIONS

NEW YORK, July 20.—(By Associated Press.)—The body of an eccentric old night watchman and odd job man, lying unclaimed on a marble slab in King's County morgue last night, locked a secret of heritage that authorities of two continents were seeking to solve.

Was Edward Euston, as he was known in the little Brooklyn lodging house where the body was found, a lineal descendant of Charles II and the Duke of Grafton—entitled to the vast estates and all the hereditaments now enjoyed by the second son of the late duke? Was he a member, at all, of the ancient family of Fitz Roy? Or was it merely coincidence that the man of mystery should have selected clippings dealing with the affairs of the Fitz Roes to cherish among his dearest possessions?

Euston, who was night watchman for a steamship company and erstwhile applicant for odd jobs at Salvation Army headquarters, died several days ago.

HAVERHILL GIRL IS DISAPPOINTED

HAVERHILL, July 20.—Gladya Littlefield, 13 years old, daughter of Mr. and Mrs. Abram Littlefield, 25 John street, who ran away from home last Monday morning, is back again. She says she was disappointed in Boston, the city to which she journeyed. She was brought back to Haverhill by her father and mother, who were notified by a representative of the Truvelors Aid society, that they had the child in their charge.

"I expected to find a great place," said the girl; "I expected to find nothing but styles and swell clothes, but I didn't see anything and I am more than glad to get back home."

It was in the Atlantic avenue section of Boston that the girl decided that home was a pretty good place, despite the fact that her mother scolded her group.

because she fussed because her brother would not help in the work, which was the reason why she departed from home.

GLORIA'S MOTHER LOSES IN FIGHT

The contest was brought by Burns' blood relatives.

Russian boots for women are the fad in London.

There are 14 islands in the Samoan

Mother Why Do You Scold Us All The Time?

Read This Terrible Confession By a Mother Who Was Ruining the Lives of Her Children

For some time I had noticed that my two children, a boy of seven and a girl of ten, were becoming highly nervous, irritable and very disobedient. I tried various punishments, even whipping, but they kept growing worse. My own nerves were all "on edge" the least thing would put me into a rage.

I was too weak to work or enjoy life, and too nervous and irritable to go about my duties. I could not sleep at night; I had an almost constant dull aching pain in the back of my neck and head, and frequent severe headaches. I often had severe pains across my back which made me think I had kidney trouble. I could not bear to receive little trifles and trifles which I endured. Finally I went to a doctor and told him my story. After studying my case he told me I was in the grip of a nervous condition. He told me how the system only manufactured so much nerve force and that this vital fluid of life was stored in the nerve cells much like electricity is stored in a storage battery and that it was quickly exhausted.

He said my own highly nervous condition had been a constant nervous strain to which I had subjected them. I had heard that their highly sensitive nervous organization later all this I found out to be true because after I received my own personal pills, I noticed my own worn out, exhausted nerve centers, and the same was done for my children. I found them to be the direct effect of the nerve force in the world—their whole disposition entirely changed.

The above is a hypothetical case, which a physician says may well illustrate thousands who exist today. Homes are wrecked, children ruined, although exhausted nerve force. Very few people realize that the physical and mental tortures often caused by a depletion of the nerve-vital fluid.

In such cases, what you need is to get more nerve force into your nerves, and more iron into your blood. This is best accomplished by the use of Nuxated Iron. This valuable product contains the ethereal benzoated iron which is the nerve force in a form which most readily re-

FOR ANOTHER TRIAL

Counsel for Sacco and Vanzetti Claim One Witness Was Felon

BOSTON, July 20.—Counsel for Nicola Sacco and Bartolomeo Vanzetti, convicted a year ago of the murder of a paymaster and his guard in South Braintree in 1920, announced today that they had prepared a third supplementary motion for a new trial, which would be filed soon in Norfolk county superior court.

The motion, the attorneys said, was based on the contention that Carlos E. Goodridge, one of the four leading identification witnesses at the trial of the defendants, was a felon and that he committed perjury in testifying as Goodridge, when his correct name was Erasmus C. Whitney. At the time of his testimony, the motion alleged, Whitney was on probation following a plea of guilty to a larceny charge in South Braintree.

The motion contends that Whitney is known under five aliases in New England and New York. The document comprises 12 affidavits, police photographs of Whitney and records of court convictions, counsel said. Whitney is said to have disappeared from Cambridge since the Sacco-Vanzetti trial.

Miss Mary E. Spaine and Miss Frances Devlin are now the only remaining identification witnesses whose testimony has not been declared incredible by the defense.

Whitney, the new motion will allege, has used the aliases of Edward C. Willie, Edward C. Whitney, Carlos E. Goodridge, C. E. Willis and Carlos E. Whitney. He is declared to have served sentences for grand larceny in the New York state reformatory and the Auburn state prison and is said to be wanted now by the New York courts for larceny in Livingston county, New York.

TO LECTURE IN SEVEN SCHOOLS

NEW YORK, July 20.—Calvin W. Rice, secretary of the American Society of Mechanical Engineers, announced today that Dr. M. E. DeMargerie, director of the geological service of France, had been appointed French exchange professor to America in applied science and engineering.

Dr. DeMargerie will lecture on applied geology, especially as applied to topography, in seven American universities during 1922-23, opening at Columbia. Other institutions participating in this exchange plan are Cornell, Harvard, Johns Hopkins, Yale, University of Pennsylvania and Massachusetts Institute of Technology.

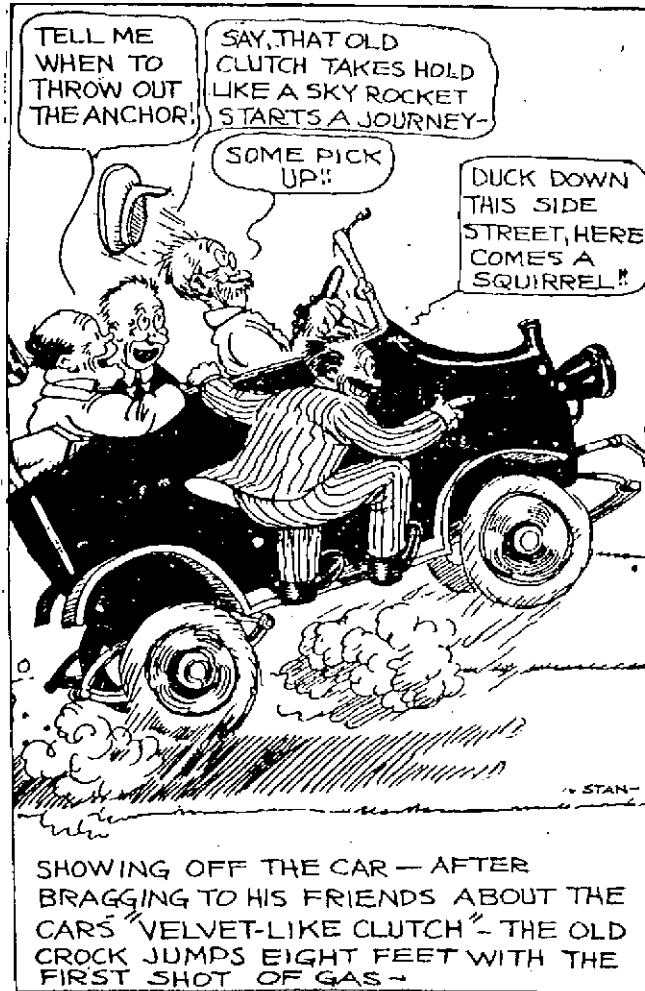

ANNOUNCES CANDIDACY
BOSTON, July 20.—Warren L. Bishop of Wayland, an attorney, announced today that he would be a candidate for the republican nomination for district attorney of Middlesex county.

LAD CHAINED TO FIRE ESCAPE

Aroused by the wailing of Andrew Caro, 9, neighbors called New York police. They found the lad chained to a fire escape and secured by a padlock. John Caro, the father, was arrested.

Doctor at 82 Finds Mothers Prefer His Formula to New-Fangled Salts And Coal Tar Remedies for Babies

Judgment of 1892 vindicated by world's approval of Dr. Caldwell's Syrup Pepsin, a simple vegetable compound for constipation—So safe thousands give it to babes in arms—Now has largest sale in the world.

WHEN a man is in the 83rd year of his age, as I am, there are certain things he has learned that only time can teach him. The basis of treating sickness has not changed since I left Medical College in 1875, nor since I placed on the market the laxative prescription I had used in my practice, known to druggists and the public since 1892, as 'Dr. Caldwell's Syrup Pepsin.'

Then the treatment of constipation, biliousness, headaches, mental depression, indigestion, sour stomach and other indispositions that result from constipation was entirely by means of simple vegetable laxatives, herbs and roots. These are still the basis of my Dr. Caldwell's Syrup Pepsin, which is a combination of Egyptian Senna and other mild laxative herbs with pepsin.

Recently new medicines have been brought out for constipation that contain calomel, which is mercury, salts of various kinds, minerals, and coal tar. These are all drastic purges, many of them dangerous, and the medical profession

From a recent portrait of DR. W. B. CALDWELL, Founder of Dr. Caldwell's Syrup Pepsin, Born Shelbyville, Mo., 1839

is warning the public against them. Certain coal tar products will depress the heart; certain salts give rise to intestinal poisoning, impaction and rupture of the intestines. If grown peo-

ple want to use them no one can deny them the privilege, but they should never be given to children.

The simpler the remedy for constipation, the safer for the child and for you, and the better for the general health of all. And as you can get results in a mild and safe way by using Dr. Caldwell's Syrup Pepsin, why take chances with pills and powders and strong drugs, even if disguised in candy? My remedy, too, costs less than most others, only about a cent a dose. A bottle such as you can find in any drug store, will last a family several months, and all can use it. It is good for the babe in arms because pleasant to the taste, gentle in action, and free from narcotics. In the proper dose, given in the directions, it is equally effective at all ages. Elderly people will find it especially ideal.

The formula of Dr. Caldwell's Syrup Pepsin is on the cover of every bottle, and the ingredients have the endorsement of the U. S. Pharmacopoeia.

\$10,000 Worth of Syrup Pepsin Free

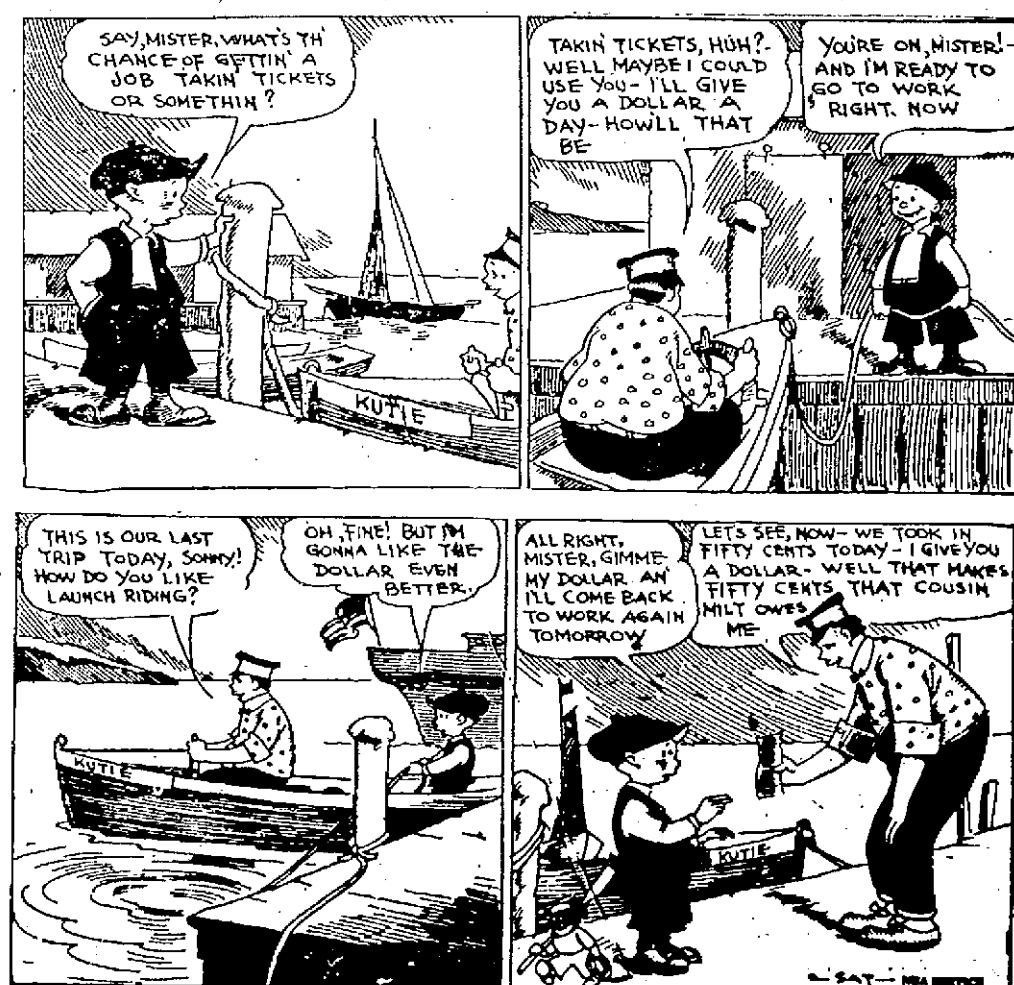

In remembrance of my 83rd birthday I have set aside the sum of Ten Thousand Dollars to be given away in half-ounce bottles of my Syrup Pepsin. Only one Free Trial bottle to a family. All are constipated now and then, and here is an opportunity for you and others to try Dr. Caldwell's Syrup Pepsin FREE OF CHARGE. Ask for your free bottle today, simply sending name and address to Dr. W. B. Caldwell, 514 Washington St., Monticello, Ill. Do not postpone this.

MORTGAGEE'S SALE

By virtue of the power of sale con-
tained in a certain mortgage deed giv-
en by Elizabeth G. Rice, of Brookline,
in the County of Norfolk and Common-
wealth of Massachusetts, to the Lowell
Mortgagee, a corporation duly estab-
lished under the laws of the Com-
monwealth of Massachusetts, as
shown in the County of Middlesex and
Lowell, in the County of Middlesex and
Commonwealth of Massachusetts, dated May 11,
1897, and recorded with Middlesex
North District Registry of Deeds Book
286, Page 55, and for breach of con-
dition therein contained and for the
purpose of foreclosing the same, will
be sold at public auction at the office
of William P. Storrey, 226 Central
Block, 62 Central Street, in said Low-
ell, on Saturday, July 29, 1922, at ten
o'clock in the forenoon, all and singu-
lar premises, namely:—A certain lot
of land containing forty two hundred
square feet, more or less, with the
buildings thereon, situated on the
southerly side of East Merrimack
Street and the Westerly side of High
Street, in said Lowell, bounded and
described as follows:—To the North-
easterly corner of the intersection of said
streets; thence running Southerly on
said High Street five feet and four
eighths of a foot to land formerly of
L. E. Shepard; thence Westerly on said
Shepard land seventy five feet and four
tenths of a foot to other land formerly
of said Shepard; thence Northerly on
said named land and land now or for-
merly of W. A. Ingham, seventy seven
feet and four tenths of a foot to East Merri-
mack street; thence Easterly on said
East Merrimack street fifty-nine feet,
more or less, to the point of beginning.
Said premises will be conveyed subject
to a mortgage of Eight Thousand Dol-
lars, and subject to any and all unpaid
taxes and other municipal assessments
any there be. Five Hundred Dollars
must be paid to the Auctioneer at the
time and place of sale.

HAROLD ESMAIL

Assignee of said Mortgage.
J. E. 13-20.

Commonwealth of Massachusetts—
Middlesex ss.
At the District Court of Lowell, hold-
ing in the County of Middlesex, on the
fifth day of July, A. D. 1922, Grace
Seelye, of Bend, in the State of Tre-
gan, plaintiff, vs. John F. Porter, of
Walden, Vermont, defendant, and Wil-
liam H. Saunders, of said Lowell, in
said County of Middlesex, as he is ad-
ministratrix of the estate of Calvin E.
Porter, late of said Lowell, deceased,
Intestate, Petitioner.

This is an action of Contract to re-
cover Four Hundred and Forty-two dol-
lars and nineteen cents, with interest
thereon from January 5, 1918, alleged
to be due to the Plaintiff from the De-
fendant on the ninth day of January,
A. D. 1918, as set forth in the Plaintiff's
bill of that date.

And it appearing to the Court by the
suggestion of the Plaintiff and on in-
spection of the officer's return on the
Plaintiff's writ, that the Defendant was
not an inhabitant of this Common-
wealth, nor a resident therein at the
time of the service of said writ, that
he has no last and usual place of abode,
tenant, agent or attorney in this Com-
monwealth known to the Plaintiff or
said officer; and that no personal service
of said writ has been made upon the
Defendant.

It is ordered by the Court, here, that
the Plaintiff give notice to the Defen-
dant of the pendency of this action,
and to appear before said Court, on
the fifth Saturday of July, A. D. 1922,
to answer to the same, by causing an at-
tested copy of this order to be pub-
lished in The Lowell Sun, a newspaper
printed in said Lowell, once in a week,
three weeks successively; and that this
action be continued to the fifth Sat-
urday of said July, or until notice
shall be given to the Defendant agree-
ably to this order.

EDWARD W. TRULL, Clerk.

YOU CAN MOVE RIGHT IN

We have some unusual offerings at THE BOULDERS, Lowell's
smartest and most wholly restricted suburb. These houses are built
under our direct supervision and planned for real home comfort. For
example, 7 and 8-room houses, with large living room, dining room, en-
closed sun parlor, butler's pantry and kitchen on first floor. Four to
five bedrooms and bathroom. Deep lots, containing 7500 feet of land
with plenty of room for garage. If you act now you can be all set
by August. Let us show them to you. The coupon is for your
convenience.

MISSISSIPPI RIVER

MARDI GRAS AT KASINO

Opening Night of Carnival
by St. Anthony's Church
Draws Big Crowd

A large and patronizing crowd was present at the Kasino last night, the opening night of the big Mardi Gras and carnival in aid of St. Anthony's church. Among those present were Rev. Bishop Da Silva of St. Anthony's and Jose S. Trigos, Portuguese vice-consul in charge of affairs in this city. Last night's entertainment consisted of a dancing exhibition by Miss Doris Conley, followed by general dancing until midnight. Several side-show and midway attractions enlivened the affair, including a ferocious wild man from the recesses of the African jungles and a few African dancers. The hall was prettily decorated with colored streamers of every description.

The carnival will hold away again tonight and tomorrow night, the attraction for tonight being the Misses Lillian and Ethel McLoughlin in dancing specialties and Fred Savard in various buck and wing dances. Friday night the entertainers will be Jack and Lottie Devine, local favorites.

The large and assorted array of tables containing many novelties and the salesmen's bellowing struck a responsive chord in the generous hearts of those in attendance. The various tables were in charge of the following: Candy, William Kelly; refreshments, Harry Leblanc; "Kiko, the wild man," Emil Lesard; roly polly, Arthur Blen; ice cream, Jennie Bettencourt; refreshments, Mrs. Elizabeth Lambers; refreshments, Peter Wells and James Wells; dolls, O. M. Kelly; Indian arrow game, Miss Edna Cleveland.

The committee on arrangements and conduct of the affair is: General manager, Manuel da Silva; treasurer, Thomas J. Cunha; secretary, Dominick Velja; chairman of the reception committee, John Sousa; door, Maria Mello; Margaret Bettencourt, Jennie Bettencourt; Mary Cavel, Tilda Cavel, John Avilla, Joseph Mello, W. H. Barbour, Thomas Gallagher and Manuel Silveira.

WILL FURNISH SOFT COAL FOR CITY

As the result of bids opened yesterday by the city purchasing agent, the Horne Coal Co. will furnish 100 tons of coal for the city hall consumption next winter at a price of \$2.52 per ton. The Thorndike Coal Co. will furnish 100 tons of coal for the water works department, for \$2.30 per ton, delivery to be made this summer.

FUNERALS

CAMPBELL.—After solemn and impressive services at St. Patrick's church, the remains of John R. Campbell, who died Sunday morning, were respectfully consigned to earth in St. Patrick's cemetery, this morning. The cortege left the home of the deceased at 8:30 o'clock and proceeded to St. Peter's church where at 9 o'clock a solemn high mass of requiem was sung by Rev. Daniel J. Keleher, Ph.D., with the choir and organ. The Rev. John M. Manion as sub-deacon. Rev. Peter Linahan was master of ceremonies. Present at the funeral was the Rev. John J. Keleher, Ph.D., and the Rev. John M. Manion as sub-deacon. The Rev. Peter Linahan was master of ceremonies. Present at the funeral was the Rev. John J. Keleher, Ph.D., and the Rev. John M. Manion as sub-deacon.

CLARK.—The funeral services of Mrs. Anna E. Clark were held at her home, 235 Mammoth road, yesterday afternoon. The services were conducted by Rev. Arthur G. Lyon, pastor of the Pawtucket Congregational church. The Rev. Arthur G. Lyon, pastor of the Pawtucket Congregational church. The Rev. Arthur G. Lyon, pastor of the Pawtucket Congregational church.

FRANK.—The funeral services of Mrs. Anna E. Frank were held at her home, 235 Mammoth road, yesterday afternoon. The services were conducted by Rev. Arthur G. Lyon, pastor of the Pawtucket Congregational church. The Rev. Arthur G. Lyon, pastor of the Pawtucket Congregational church. The Rev. Arthur G. Lyon, pastor of the Pawtucket Congregational church.

PATTEN.—The funeral of Mrs. Nellie Patten took place from her home, 235 Mammoth road, yesterday afternoon. The services were conducted by Rev. Arthur G. Lyon, pastor of the Pawtucket Congregational church. The Rev. Arthur G. Lyon, pastor of the Pawtucket Congregational church. The Rev. Arthur G. Lyon, pastor of the Pawtucket Congregational church.

WALTON.—The funeral of Elizabeth Walton took place this morning at 8:30 o'clock from the home of the parents, John J. and Mary Kenney Walton, 13 Lenox street, and proceeded to the Sacred Heart church, where at 9 o'clock a funeral mass was celebrated by the Rev. James E. McDermott, O.M.I. The choir rendered the Gregorian chant "Solene" during the mass by Miss Kathleen Jennings assisted by the sanctuary choir. Mr. John J. Kelly presided at the organ. There were several beautiful and appropriate floral offerings showing the esteem in which the little girl was held by her friends and relatives. The funeral took place in St. Patrick's cemetery, the committal prayers being read at the grave by the Rev. John P. Flynn, O.M.I. The funeral was largely attended and under the direction of Undertakers Higgins Bros.

REQUIEM MASSES

OUTING AT CANOBIE LAKE

Lowell Life Insurance Underwriters Take Day Away From Busy City

The debts and collections of the Lowell Life Insurance Underwriters were forsaken today and about 50 members of the association journeyed to Canobie lake park to enjoy the pleasures of an honest-to-goodness picnic. The men left in special cars chartered for the occasion at 9:30 this morning and the return trip was made at the end of a day's fun. Members of the Boston association were the guests of the local men for the day.

The feature of the morning program of sports was the ball game between the agents of the John Hancock Co. and the Metropolitan Co. During the rest of the morning impromptu sports were indulged in by different groups of picnicers. At noon all answered the mess call with a gusto and a hearty and appetizing meal was served. The excursions of the morning had whetted the appetites of the men for all sorts of food. In the afternoon a list of sporting events was run off and prizes were awarded to the winners of the foot races and swimming races.

The outing was voted a great success and the invited guests were impressed with the fine showing made by the local underwriters. The committee in charge was as follows: Chairman, P. F. Quinn; P. J. Chamberlain, president of the association; H. J. Greig, Thomas Beane, Leo Kozanek, William Brown, John P. Collins, Harry Pascal, Robert Mulvey and Alphonse Fortier.

Among the guests were Franklin W. Gantz, president, and Charles Gilman, Lloyd Allen, Clinton Forsythe and Merle W. Summers of the Boston association.

SUN BREVITIES

Ileat printing. Tobin's, Associate bldg. J. P. Donohoe, 222-223 Hildreth bldg. real estate and insurance. Telephone P. A. Hayes and R. J. Lavelle, lawyers, 401 Appleton Bank bldg.

Hot Point electric irons \$2.83. Electric stove, 52 Central st.

Miss Mary McShea, assistant secretary of the Social Service league, is enjoying a two weeks' vacation.

Mrs. P. H. Monahan and son, James, of 170 Crawford street, are spending the month of July at the home of her sister, J. P. McKenna of Crestwood, N. Y.

Miss Irma C. Simard, cashier at the D. L. Page Co. left today on a ten-day trip to New York city, where she will be the guest of her brother, Mr. Arthur J. Simard, formerly of this city.

Harold Ragolsky, son of Mr. and Mrs. Louis Ragolsky of Pleasant street, is now on an extended automobile tour through New York state. He plans to visit many friends throughout the state and spend several days in Rochester, N. Y.

A feature of tomorrow evening's meeting of Wampanoag lodge, 25, K. of L., will be a free whist party for members and friends.

An entertainment will be provided by the committee headed by F. A. Whipple and it is expected all members will be in attendance.

Miss Ella Rivers of 110 Lincoln st. has arrived from Portsmouth, Ohio, where she accompanied her sister, Mrs. Mae Dwyer Stuart, who is to make her home there, her husband being manager of the S. S. Kresge store in that city. Mr. Stuart was formerly assistant manager of the local Kresge store.

MATRIMONIAL

The marriage of Mr. Aurel Camel and Mrs. Josephine Hebert took place July 16 at St. Louis' church. The couple were attended by Messrs. Rosario and Charles Hebert. The ceremony was held at 21 Lily avenue and later the couple left on an extended honeymoon trip to Concord, Manchester and Canada.

FUNERAL NOTICES

HENNAN.—Died July 19, John P. Hennan at his home, 48 Sixth st. Funeral will take place on Friday morning at 9 o'clock from his late home, 48 Sixth street. Solemn high mass of requiem will be sung at St. Nicholas church at 10 o'clock. Burial will take place in St. Patrick's cemetery. The funeral arrangements will be in charge of Undertakers Higgins Bros.

NOONAN.—Died July 19, Michael J. Noonan at his late home, 61 Andover street. Funeral will take place on Saturday morning at 9 o'clock from his late home, 61 Andover street. Solemn high mass of requiem will be sung at the Immaculate Conception church at 10 o'clock. Burial will take place in St. Patrick's cemetery. Undertakers M. H. McDonough Sons in charge.

ROACHE.—The funeral of Mrs. Della Roache will take place Friday morning from the home of her daughter, Mrs. Catherine J. Dean, 978 Middlesex street, at 8 o'clock. A funeral mass will be celebrated. Burial will be in the family lot in St. Patrick's cemetery. Funeral arrangements in charge of Undertakers O'Connell & Fay.

REQUIEM MASSES

JOHAN.—Saturday, July 22, 8 o'clock, at St. Margaret's church for the late Thomas P. Johan.

O'CONNELL.—There will be an anniversary mass of requiem at the Immaculate Conception church, Saturday morning at 8 o'clock, for the repose of the souls of David and Isabella O'Connell.

Jan. 19, 1912, July 23, 1920.

CARD OF THANKS

To our many kind friends and neighbors who took this means of expressing our sincere thanks for the many acts of kindness and words of condolence extended to us in the loss of our beloved wife and sister and also to those who sent floral tributes and spiritual comfort. To all the aid and sympathy rendered and promise that their kindness shall never be forgotten by us.

THE EDITOR OF THE WEEKLY CLARION SLIPPED, IN HIS GREAT HASTE TO GET DOWN TO THE DEPOT TO SEE IF ANY STRANGERS CAME IN ON THE NOON TRAIN.

NOTHING NEW IN LOCAL TEXTILE STRIKE

Ready Response to Appeal for Memorial to Cyrus Wendall Irish

Spontaneous and generous indeed has been the response to the appeal sent out by Henry H. Harris of the high school to the graduates, for funds by which a memorial to Cyrus Wendall Irish will be hung in the new school building. Each mail brings contributions and expressions of pleasure in being able to have a part in the memorial and all letters are being carefully preserved by Mr. Harris.

By vote of the alumni association it was decided that the auditorium in the new school building should be known as Cyrus W. Irish auditorium and that the assembly hall in the old building should bear the name of Frank F. Coburn, headmaster just before the days of Mr. Irish. Also, it was felt that a suitable memorial to Mr. Irish should be secured and that the alumni should make it possible.

It was decided that an oil painting of the former headmaster would be most appropriate. An appeal subsequently was sent out in letter form by Mr. Harris, with one dollar named as the individual contribution. While this has been the amount sent in the vast majority of instances, a number of graduates voluntarily have doubled it and one or two persons have contributed \$5.

Today Mr. Harris has received \$246 from approximately 240 graduates. It is felt that a suitable painting cannot be obtained for much less than \$750 and therefore this is the amount tentatively set.

LABOR IS SCARCE IN CONNECTICUT

NEW HAVEN, Conn., July 20.—An industrial survey of the state being made indicates that common labor is becoming so scarce that many large projects may be greatly delayed. The state highway department has already felt this scarcity and contractors in several cities have been searching for laborers. Cities in other states have been combed for common labor, and the wage offered has been increased from 30 to 40 cents an hour without any apparent effect.

Contractors for a new state highway which will open up the upper Housatonic valley from New Milford to the Massachusetts state line say that failure to obtain men to do the grading will delay completion of the highway several months.

HIGH SCHOOL MEMORIAL CAR SHOP STRIKERS HOLD MASS MEETING

Members of the various crafts of the Boston & Maine carshops in Billerica, who are on strike, held a mass meeting in their quarters in Odd Fellows building, Middlesex street, this afternoon at 2 o'clock, the principal speaker being Charles E. Anderson, president of the Trades and Labor council.

It was stated at headquarters this morning that there was no new development in the strike, only that the strikers have been able to secure names and addresses of some of the strikebreakers and these will be posted in the Colonial theatre in Middlesex street, where strikers hold their mass meetings.

Statement from Railroad

The management of the Boston & Maine railroad issues the following statement under date of July 19:

"There is a serious condition existing at Concord, N. H. A week ago several shots were fired through the building in which workmen were sleeping. Threats of violence have been made repeatedly against loyal men in the service of the road. On Monday night a fall boy, on his rounds to call on train service men, was seriously assaulted. His assailant was arrested and appeared in the Concord court this morning."

"The disturbances reached their climax, however, last night. At about 11:20 seven masked men, armed with revolvers, shotguns and rifles, worked their way to the building in which some 50 workmen were sleeping. There was shooting and fighting. The sleepers were driven out into the rain without being given time to dress and an attempt was made to drive them out of town. If any of the men felt or lagged behind they were clubbed."

TRAIN HITS AUTO KILLING SIX

New Hampshire Troops Ordered Out

Governor Brown Accedes to Request of Concord Mayor—Will Station Troops in Rail Yards

ACTION RESULTS FROM ATTACKS

Governor and Military Advisors in Lengthy Conference Over Troubles

Serious Riots in Worcester Yards—Police Draw Guns and Charge Crowd

East Deerfield Worker is Shot While Swimming in Connecticut River

MANCHESTER, N. H., July 20.—Governor Albert O. Brown, acting upon the request of Mayor Chamberlain of Concord, this afternoon issued orders to Adjutant General Howard to mobilize a provisional battalion of troops for duty in the railroad yards at Concord. The adjutant general was not prepared today to indicate just what troops would be employed for strike duty. It is unlikely that the state guard at Concord will be summoned as this would be contrary to the general policy followed under such circumstances. The troops when assembled will be quartered in the Boston & Maine yards.

The governor's action followed a conference with Adjutant General Howard of the national guard. The executive came here this morning following receipt of a letter from Mayor Chamberlain of Concord requesting that protection be afforded railway workers there. Five masked men last Tuesday night ordered 15 new employees of the road from their sleeping quarters in the railroad yard.

WORCESTER, July 20.—Rioting and violence in the railroad yards in Worcester developed to such an extent during the night that extra police guards were detailed to the various railroad properties here. Men hired to take the places of striking shopmen, stationary engineers and oilers on the Boston & Maine were stoned and freight trains held up for hours by the slashing of airbrake hoses. Four men, employed by the New York, New Haven & Hartford R. R. to take the places of strikers, were attacked by seven men in the Cambridge street yards. Two of the workers were bruised and cut. At the Boston & Maine yards a gang of strike sympathizers showered stones, coal and iron nuts and bolts from an embankment on those working in the yards. A police guard immediately charged the attackers with drawn revolvers and the band dispersed. Two inspectors in the New Haven yards were routed with showers of stones and iron bolts. The police made a futile effort to capture the assailants. Extra police guards will be ordered on duty tonight at all the yards.

NEW HAVEN, Conn., July 20.—Heads of the crafts represented in the system federation composed of striking shopmen of the N.Y.N.H. & H.R.R. awaited notice this morning of the

President of Six Federated Shopp*Crafts Claims Roads Will Settle Within Two Weeks—Executive Board Meets Today

CHICAGO, July 20.—B. M. Jewell, president of the Six Federated Shop*Crafts, predicted today that the railroads will capitulate and settle the strike within two weeks. The strike is becoming more effective daily, he said, "and the roads will yield as soon as we bring them to their knees."

SCENE SHIFTS IN COAL STRIKE

Interest Now Centered at Mines Which Are Trying to Be Worked

White House Officials Express Pleasure Over Governors' Responses

WASHINGTON, July 20. (By the Associated Press).—The centre of developments in the coal strike was shifted today from Washington into the coal fields where the policy of government involving reopening of the mines under state or federal protection would be tested.

Responses were yet to come from several governors to President Harding's appeal for co-operation in insuring the nation's fuel supply, but White House officials expressed gratification over the responses thus far received. Only Gov. Morrison of North Carolina, of the 19 governors who had replied up to noon today, refused absolutely the co-operation the president asked, it was pointed out by officials.

John L. Lewis, chief of the United temporary restraining order issued by Judge Edwin S. Thomas of the United States district court at his home in Norfolk last night. Hearing on the application for the order will be in this city July 29. John C. Ready, chairman of the system federation, said he was astonished at the allegations of the company that reports made to him indicated that everywhere on the system the striking shopmen had refrained from interference with business and had endeavored to preserve a peaceful attitude towards those at work.

WILL BECOME MISSIONER

Rev. Bro. Joseph N. Leclerc Will Do Missionary Work in China

Rev. Bro. Joseph N. Leclerc, son of Mr. and Mrs. Jean Leclerc of 547 Moody street, will leave tomorrow evening for Montreal, Que., en route to Vancouver, B. C., whence he will sail for Shanghai, China. The young man, who is connected with the order of Foreign Missionaries of Milan, an Italian order, will complete his studies in China, after which he will do missionary work there.

The young clergyman was born at Cap Sante, Que., 25 years ago and came to this city at the age of five years. He received his early education at St. Joseph's college and later attended the Holy Angels college at

REV. BRO. JOSEPH N. LECLERC

Buffalo, N. Y. He has just completed his theological studies at St. Victor seminary, St. Victor, Que.

It will be two or three weeks before he sails from Vancouver and after landing at Shanghai, he is going directly to Kailash City, Honan Province, China, where he will take up philosophy at a college conducted by the order of Foreign Missionaries of Milan. During his spare time he will teach theology to younger students. He expects to be ordained in five years.

Rev. Bro. Leclerc is well known in Lowell and has many friends here who wish him safe passage to his new field of endeavor and success in his undertaking. For the past four years during the vacation season, he has been employed as a drug clerk at the Lowell pharmacy in Merrimack street. Both his parents are living and are making their home at 547 Moody st. He also has five brothers and three sisters in this city, namely, Alfred, Ovide, Arthur, Emanuel and Jean, Jr., Mrs. Frank Cayer, Mrs. Alfred Papillon and Miss Hermine Leclerc.

ATHLETIC FIELD FUND

High School Principal Says Public Should Assist the Alumni Association

Speaking in the interests of the drive of the Lowell High School Alumni association to raise \$25,000 for the establishment of an athletic field for the school at Spaulding park and adjacent land to be acquired, Henry H. Harris, headmaster of the school, today said that it is an enterprise that should have the enthusiastic support of all who are interested in the welfare of the young people of the city.

"The boys and girls of the high never have had a fair chance for outdoor games," he said, "and any project

Train Hits Auto, Killing Entire Colorado Family

BUFFALO, N. Y., July 20.—Six persons were killed and one seriously injured this afternoon at Stevensville, six miles from Bridgeburg, Ont., when a Toronto, Hamilton & Buffalo railroad train struck an automobile at a grade crossing. The automobile bore a Colorado license. The dead are reported to be Daniel Fritz, his wife, two sons, and one daughter, and the 10-year-old son of Mrs. James Baker of Stevensville. The Fritz family come from Colorado but their home city has not been learned.

MAYOR WILL SEND NOMINATIONS TO CITY COUNCIL TONIGHT

Four Nominations Already on the Table—School Department to Present Recommendation for \$250,000 Appropriation for New School in South End District—Order for \$50,000 to Motorize Fire Department

Mayor George H. Brown said today that he contemplates sending to the city council tonight the permanent nominations of Owen Monahan, city messenger, and Francis A. Connor, superintendent of public buildings. Both of these city officials are serving as holdovers from last year and as such have no definite tenure of office. The mayor announced some time ago that he would not molest either of these two officials, as he had become convinced that each was efficiently doing his work. Also, he included Chief Edward F. Saunders of the fire department, but when asked today whether he would also send his name as a permanent nominee, the mayor replied that he desired to give it a little more thought.

The council tonight faces a busy session. There are four nominations already on the table, three of which will automatically expire unless acted upon this evening. They are those of Frank J. Hahn, to succeed John H. Dwyer on the board of assessors; Edwin T. Shaw, to succeed Daniel E. Hogan, chairman of the board, and Dr. William P. Ryan, for city physician.

NATIONAL ARMY WORKERS FORCING FIGHT

Reports From Dublin Indicate Munster Province is Practically Cut Off

Belfast Despatches Say People Leaving Offaly County in Numbers

DUBLIN, July 20.—(By the Associated Press).—Reports from the fighting area received today indicate a pressure by the National Army forces on each extremity of the insurgent line extending from Limerick to Waterford, thereby cutting off practically the whole of Munster province.

An official statement issued today by the Irish Provisional government on the military situation says that at present the National Army forces are supreme in the whole of 12 counties. The statement which was issued in view of the reported suggestions for peace based on compromise with the "irregulars," concludes by saying: "The safety and future welfare of the nation depend on the power of the irregulars being broken. Peace built on compromise with forces that behave as the irregulars have behaved would be a peace too costly for the Irish nation."

Fear Starvation
BELFAST, July 20.—Alarming accounts of the situation in King's county, or Co. Offaly, as it is now known, reached Belfast in despatches received

Boston Ladies' Outfitters Have Big Expansion Plan

Two New Stores

Charles S. Fidler and his son, Cyrus Fidler, proprietors of the Boston Ladies' Outfitters in Merrimack and Middle streets, have purchased the property located at 43-53 Lee street, and are planning to tear down the old buildings and erect on the site a \$75,000 factory, which will employ about 300 women. Messrs. Fidler also have leased the building now occupied by Cook, Taylor & Co., adjoining their store in Merrimack street, as well as the upper portion of the building in which they conduct their Middle street store, which is now occupied by the Lowell Lodge of Elks. They are planning to raise the Cook, Taylor & Co. building to the level of the street.

MUST CUT EXPENDITURES

Budget and Audit Commission Suggests Radical Changes in Program

Recommendation of a radical change in the present program of expenditure is included in letters sent out today by the budget and audit commission to Daniel J. Murphy, chairman of the board of public charities, Martin P. Conley, superintendent of charities, Dr. Forster H. Smith, superintendent of the isolation hospital, and William A. Arnold, superintendent of state aid.

The letters show that unless strict curtailment is put into effect, at least some appropriations will exhaust the year out and one of them, street maintenance, will be exhausted by October 1 if the present average expenditure is continued. The letters are in the form of reports, based upon the departmental appropriations in each case and the total of the year. The departments whose average expenditures monthly have been excessive are ashes and waste collection, street maintenance, Chelsea street hospital, out-door relief, mothers with dependent children, relief benefits and isolation hospital. Aside from the figures quoted, which, of course, vary in the several departments the letters are identical and contain the following positive statement: "It would appear as though a radical change in the present program of expenditures would be in order, if appropriations as given for credit to the various departments are to be adhered to."

The letter to Chairman Murphy Continued to Page Four

CONVENTION ENDS
LOS ANGELES, July 20.—The National Association of Dental Examiners has concluded its convention here today by electing Dr. Harry C. Newman of Los Angeles, president, and Dr. E. A. Charbonnel of Providence, vice president, representing the east.

Wonders of Radio Only Beginning, Says Successful Inventor

(By N.E.A. Service)
NEW YORK, July 20.—Radio reception by merely plugging an electric light socket.
That's a new device which may revolutionize radio.
It is the invention of William D. Dubilier, an East Side electric wizard, who helped win the war by developing wireless submarine detector.
"It is not a 'wired' wireless," he explains, "but a simple arrangement which makes it possible to utilize indoor wires as aerials."
He got the idea when he started building a large outdoor aerial.
"It was hard work," he says, "I was about to give it up as a bad job when the idea struck me to use the wires in the house."
"I knew that any wire would receive the wireless waves. But I had to contend with the lightning current which went through these wires."
"After some experimenting with condensers I rigged up a little machine which allowed the high frequency radio waves to pass through without interference."
"Further work perfected the device so that now one need only screw this little 'Ducan' into an electric light socket, attach the receiving set and listen in!"

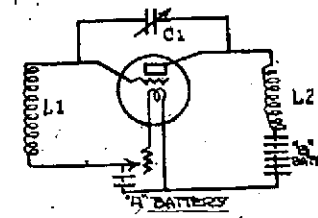

WILLIAM DUBILIER AND HIS IDEA OF THE TUNING KNOB OF THE FUTURE. MERELY TURN THE HANDLE FOR ANYTHING YOU WANT TO HEAR

to Europe. There I installed a wireless set in the palace of the czar, and a thing led to another. My business grew, but I never let up on my laboratory work.
"When the war came I concentrated on developing a means of airplane wireless installation for artillery fire and detecting submarines."
Dubilier now holds several hundred patents for electrical inventions. But he keeps right on experimenting.

Alternating Impulses Make Armstrong Receiver Amplify 700,000 Times

BY PAUL F. GODLEY
America's Foremost Radio Authority
In the regenerative receiver the greatest amplification is had when the amount of energy fed back into the grid circuit has reached a value sufficient to completely offset the energy lost in overcoming the resistance of the grid circuit.
This is an adjustment which can only be approached.
At the time when full realization of the regenerative method is expected, uncontrollable irregularities of operation of the vacuum tube render the adjustment extremely unstable. The plate circuit over-loads the grid circuit and the latter begins to act as a generator. The tone qualities are thus destroyed.
Super-regeneration is a method whereby advantage may be taken of the extremes of amplification, in which the regenerative receiver is capable without loss of tone.
This is accomplished by actually allowing the regenerative receiver to go into the oscillatory condition for a very short time—about 1-20,000 part of one second—and then stopping the oscillatory action, allowing it to continue again, and so on.
Tone qualities cannot be destroyed in so short a time.
During this short interval an impulse may have been fed around and around, through the tube circuits as many as half a dozen times.

The part of the super-regenerative circuit which acts to generate alternating positive and negative potentials.

radio enthusiast must understand how he can successfully build and operate his own super-regenerative receiver.
The Generator
Study the diagram. It shows the part of the circuit which acts to generate the alternating positive and negative potentials at the rate of 10,000 per second. While this is in the positive half of its cycle the regenerative receiver circuit cannot oscillate. When it is undergoing the negative half of the cycle the regenerative receiver circuit oscillates through about half a dozen cycles, thus accomplishing the great amplification.
L1, L2, and C1 all form a part of the grid circuit.
L2 alone is a part of the plate circuit. L2 being common to both, couples the circuits and makes them generate oscillations.
(Copyright, 1922, N.E.A. Service).

REPORT TO POINCARÉ Reparations Committee Will Give Opinion of Germany's Financial Status

PARIS, July 20 (by the Associated Press).—The reparations committee of the reparations commission was expected to report today on the results of its investigation of Germany's financial status to Premier Poincaré and to the commission. It has obtained, it is understood, enough material on which to establish the opinion that Germany's rulers alone were responsible for the financial crisis in which she is now struggling.
Premier Poincaré and Minister of Finance De Lasteyrie also have prepared an exhaustive study on the issue of paper money by Germany, designed to show that the fall in the value of the mark was a mathematical certainty under the policy that has been pursued by the German government and that she should not be entitled to ask for a moratorium on reparation payments.
The Parisian today makes the suggestion that France might consent to evacuate the left bank of the Rhine in order to ease the pressure of Germany's finances. If Germany would consent to form the Rhineland into an autonomous state, militarily neutralized, still forming a part of Germany but withdrawn from Prussian domination.
It is generally recognized that all these questions go far beyond the scope of the reparations commission and that a friendly talk between Premier Poincaré and Prime Minister Lloyd George is imperative.
Sun classified ads will be read in twenty thousand homes tonight.

BY WILLIAM DUBILIER
One of America's Foremost Radio Inventors
What's next? Radio places, just like "movie-dromes," Metropolitan opera in every small town.
The development of the imaginative brain.
Radio will improve the mental capacity of the nation.
Movies developed the imagination for sound. Radio will develop the imagination for sight.
Instead of the general store stove, we will soon have loud-speaking amplifiers in every hamlet in the country. Stock quotations, weather reports, news and all other broadcasts will penetrate every nook of the country.
This development is less than a year old. Give it a little time and see what it will do.
For the individual, tuning in and regulation of the receiving set will become automatic. A turn of the tuning dial and he will be listening to jazz. Another turn and he will hear opera.
It will be simple.
Space will be absolutely annihilated. Eskimos, Chinese, Chinese and Mexicans, Finns and Americans will all become next-door neighbors.

Radio Broadcasts

Below is given this afternoon and evening's radio broadcasting programs for the following stations: STATION WGT, MEDFORD HILLSIDE 3.30 p. m.—Music and talks as announced by radio.
7.30 p. m.—A story for the children.
7.45 p. m.—Baseball scores and news.
7.55 p. m.—Boston police reports.
8.10 p. m.—Mary Cunningham, 11-year-old dramatic reader, in "The Confessional."
8.25 p. m.—Concert by Emma Almslee, contralto.
Time—Daylight saving.
STATION WRZ, SPRINGFIELD 7.30 p. m.—Baseball scores and a story for the children.
7.45 p. m.—United States government and state market reports.
8 p. m.—Baseball scores; musical program by Nino J. Ferle, baritone; Ruth Dumond, soprano; Mary Roberts, contralto, and Pauline Gebrell, pianist.
Time—Daylight saving.
STATION WJZ, SCHENECTADY 7 p. m.—Stock and produce market quotations and reports; baseball results and news bulletin.
8 p. m.—Address, "Nutrition," by Dr. Henry L. K. Shaw.
8.45 p. m.—Concert program given by Irene Cody, pianist; Lucile Correll, cellist, and Sherman De Forest, baritone.
Time—Daylight saving.
STATION KDKA, PITTSBURGH 7 p. m.—Health talk by Harry Greb.
8 p. m.—Home-Furnishing—Modern and Practical, by Miss Harriett Webster.
8.15 p. m.—"What the Disappearing Forests Mean to America," by Mr. M. L. Davey.
9 p. m.—Concert by Miss Viola Karlson, soprano; Miss Marion Clark, pianist; Roy E. Shumaker, violinist, and Mrs. Roy E. Shumaker, accompanist; reading by Miss Martha E. Stockel.
10.45 p. m.—Arlington time signals.
Time—Daylight saving.
STATION WJZ, NEWARK 4 p. m.—Baseball scores of the American, National and International league teams; musical program.
5 p. m.—Official weather forecast, agricultural reports, shipping news and review of business conditions.
7.45 p. m.—Stories for children.
7.55 p. m.—Talk by Walter H. Eddy, Columbia University Teachers' college.
8 p. m.—Musical program by Florence H. Pratt, lyric soprano; Elmer Collier, pianist and accompanist.
9 p. m.—"Under the Evening Lamp," a literary hour.
10.45 p. m.—Arlington time signals.
11.01 p. m.—Official weather forecast.
Time—Daylight saving.

RADIO PRIMER
Compass Radio—A radio receiver by which the direction of a sending station may be determined. The aerial is a loop which can be turned until the maximum radio energy is received. The direction of the sending station is along the line of the loop.

BRITISH-AMERICAN CLUB
President W. Axon occupied the chair at last evening's meeting of the British American Social club. Committee reports were heard, the recent auditing committee was extended a vote of thanks and routine business was transacted. At the close of the meeting a social hour was enjoyed during which entertainment numbers were given and refreshments were served.

PAINS ACROSS SMALL OF BACK

Husband Helped in Housework.—
Lydia E. Pinkham's Vegetable Compound Made Her Strong
Foster, Oregon.—"I used Lydia E. Pinkham's Vegetable Compound for pains across the small of my back. They bothered me so badly that I could do my work only with the help of my husband. One day he saw the 'ad.' in our paper telling what Lydia E. Pinkham's Vegetable Compound is doing for women, so I began to take it. It has helped me wonderfully. I am feeling fine, do all my housework and washing for seven in the family. I have been irregular too, and now am all right. I am telling my friends what it has done for me and am sure it will do good for others. You can use this letter as a testimonial. I will stand up for Lydia E. Pinkham's Vegetable Compound any time."—Mrs. WM. JUBNER, Foster, Oregon.
Doing the housework for a family of seven is some task. If you, as a housewife, are troubled with backache, irregularities, are easily tired out and irritable, or have other disagreeable ailments caused by some weakness, give Lydia E. Pinkham's Vegetable Compound a trial. Let it help you.

Putnam Tablet Disappears

PUTNAM, Conn., July 20.—The bronze tablet at the entrance of Wolf Den, in Pomfret, commemorating the historic deed of Gen. Israel Putnam in entering the cave and killing a wolf, has disappeared. The tablet was the property of the local D. A. R. post and cost \$3000. The metal, it is said, would not bring more than \$50.

ICED "SALADA"

Tea is really a most refreshing, economical and harmless summer beverage - TRY IT.

MONTREAL EXPRESS IN NARROW ESCAPE

BOSTON, July 20.—The Montreal express on the Southern division of the Boston & Maine railroad narrowly escaped derailment late last night near Medford Hillside station when part of the locomotive's mechanism gave way. Quick appliance of the emergency brakes by the engineer. It was said, prevented a wreck although ties for a distance of about 300 yards were damaged.
Railroad officials said that a break occurred on the frame of the locomotive. They said that similar accidents often happen. The train was south bound.

SECOND FLOOR

O. M. I. Cadets Pitch Their Tents in Milligan's Grove, Near Silver Lake, for Their Sixteenth Annual Encampment

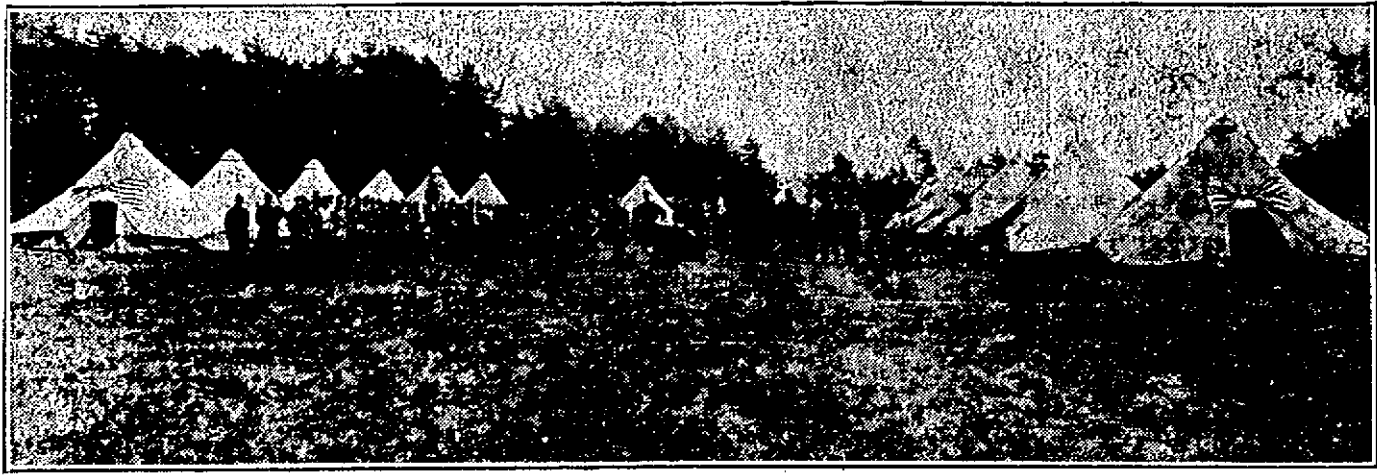

Photo by Will Rounds

COMPANY STREET AND REGIMENT

The pine-laden atmosphere of the spacious area of Milligan's Grove, Wilmington, is at present agog with excitement, engendered by the buoyant spirit of representative American youth, during this, the 16th annual encampment of the O. M. I. Cadets. They are tenting these balmy days and nights on old, familiar grounds.

Inhabitants of Wilmington, particularly those within the environs of the placid waters of Silver Lake, are once more enjoying the military maneuvers and play of Lowell's splendid "Army in Civilization."

Since the arrival last Monday afternoon, the encampment has been fairly bulging over with activity from reveille in the morning to taps in the evening, so much so that A.W.O.I.'s have thus far been conspicuous by their absence.

Upon entering the grounds, the visitor is immediately impressed with the all-around cleanliness, the devotion to duty and the gentlemanly conduct of the khaki-clad cadets. Twenty-five or more canvas tents with individual "bunks" are used for sleep and shelter purposes, added precautionary mea-

asures being taken to secure immunity from rain. In this connection it may be stated that the deluge of last Tuesday failed to make an impression on the interior of the tents.

The headquarters tent of Rev. Denis A. Sullivan, O.M.I. chaplain and organizer, is conspicuously situated on the company street. The amiable priest, friend of hundreds of former and present cadets, is ever ready to administer to the wants of the youngsters in his care and it is to his untiring efforts that the success of the yearly event is due.

The hospital tent, in charge of Miss Mary Curran, nurse at the U. S. Cavalry, is amply equipped for emergency cases and Mrs. Jeremiah Donley fulfills the duty of matron exceptionally well.

Another tent houses Military Instructor Francis Gargan and his competent assistant, Edward Tooley, both of whom work zealously for the welfare of the boys. Close by is the headquarters of Capt. William Horgan and officers of his staff, who are constantly on the go throughout the day.

One of the features of the canton-

ment and the objective of all sight-seers is the mess department in charge of Chef Sidney McKenzie and his able corps of food dispensers. The mess being served at tables of accommodating length. A rolling field kitchen, similar to those employed in the late overseas service, is the only equipment used for cooking, but it certainly meets the requirements and everything moves regularly under the scrutinizing eye of Chef "Sid."

Michael Rynno of the local police force has his attention arrested at all hours of the day in his capacity as athletic and swimming instructor. Under his guidance daily trips are made to the neighborhood waters of Silver Lake, where the swimming hole is located.

Today was official visiting day at the camp and many parents, friends and former cadets could not resist the opportunity of seeing the tented city and its inhabitants. A special program of military and athletic events had been prepared for the benefit of the large gathering. In the morning a swimming carnival was

held at the lake and in the afternoon, a baseball game between the Cadets and a local Twilight league team was played on the smooth diamond. The annual "red light" parade is scheduled for this evening as soon as the sun disappears over the western horizon. The parade will be announced by Regimental Bugler Johnny Finnegan, whose resounding blasts have signified every movement of the regiment at this year's camp.

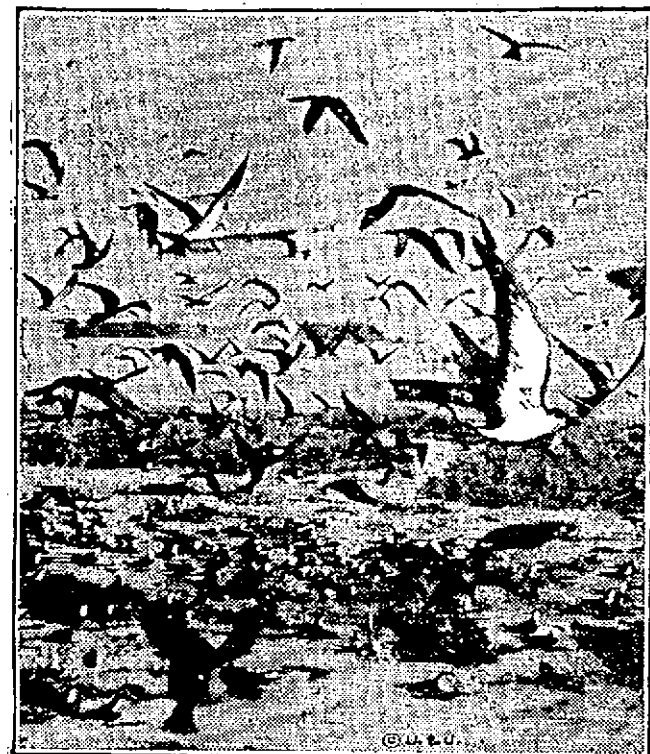

The following will give an idea of the daily routine: 6 a. m., reveille; 6.30, calisthenics and setting up exercises; 7, breakfast; 8, police duty; 8.30 to 10.30, drill; 10.30 to 11.30, swimming; 12 m., dinner; 1 to 6, sports; 6.30, recreation and evening prayer; 8, supper; 8.30 to 9.30, recreation; 10, lights out; 10.30, taps.

From the foregoing it can easily be seen that the day is void of dull moments, for business is combined with pleasure, and "happiness" is the counterfeits. Preparations for breaking camp will start late Friday afternoon, and the exodus of local as well as many out-of-town members of the organization will start Saturday.

Leah Silver and Ruth, her 18-month-old babe who was abandoned in a swamp near Coney Island. The mother, under arrest, was taken to the hospital to which the child was sent by New York police after mosquitoes had attacked it.

Five Injured in Georgia Wreck

ALBANY, Ga., July 20.—Five passengers were injured, one seriously, early today when five coaches of a Southern Railway limited train on route from Chicago to Jacksonville, Fla., overturned on the Central of Georgia line between Smithville and Leesburg, near here. The injured were brought here on the first three coaches of the train, which were not injured. The wreck was attributed to a broken rail.

Must Cut Expenditures

states that up to July 1 the average expenditures (figured on a 12 month basis) in the ashen division have been exceeded by \$118.35 and at the present rate the appropriation will be exhausted by Dec. 1. In the department of street maintenance the monthly average has been exceeded by \$2612.76 and unless strict curtailment is made this appropriation will be exhausted by Oct. 1.

The Chestnut street hospital's expenditures are \$1076.44 too high each month if the appropriation is to be adhered to and will run out at the present rate the first of November. The outdoor relief appropriation will last only until the middle of November under the present system, whereby the monthly average is \$767.75 too

high. The first of December will find the appropriation for mothers with dependent children depleted at the present rate of spending, which has raised the monthly average \$668.58 above the maximum.

According to the budget commission's figures the isolation hospital is spending \$81.35 too much each month and the appropriation therefor will last only until November 1. The average expenditures in the state aid department have been exceeded by \$1216.31 each month, which would terminate that appropriation in the middle of November.

A general letter, embracing all the above instances of over-spending, has been forwarded to Mayor George H. Brown.

It will pay you to get The Sun classified adv. habit.

BIG CONSOLIDATION

Sale!

Some time ago we were told by the owners of our Boston building that our rent would be more than triple to continue our lease. To carry on our economic principles of the HARRISON SYSTEM OF CUSTOMER ALWAYS we could not even listen to this unwarranted demand—we figured the big plus to the landlord would have to be borne in part by our customers—so WE DECIDED TO QUIT and WE DID QUIT.

Our tremendous stocks of new, fresh merchandise kept on arriving—goods we had contracted for and WE WERE FORCED TO RECEIVE before we had time to sell a fair portion of this gigantic stock—TIME TO LEAVE ARRIVED and we've moved THIS GIGANTIC STOCK OF SUITS, COATS, PANTS, FURNISHINGS, SHOES, HATS, PALM BEACH SUITS and in fact everything to LOWELL.

merged make it entirely too heavy to carry and therefore we are forced to unload—and unload we must. We have no choice, we must sell it at some price. This stock consists of High Grade Clothing for Men and Young Men, Boys' and Children's Clothing, Men's Furnishing Goods and Shoes. We offer these combined large stocks to the people of Lowell and vicinity at less than ONE-HALF PRICE. 29 years at one stand in Boston backs up our statement.

SALE STARTS FRIDAY 9 A. M.

ONE OF THE BIGGEST CLOTHING TREATS EVER OFFERED HERE AT YOUR MERCY

REMEMBER

All goods are new—bought for now—contracted for by us before we knew we would have to vacate the store where we had successfully and economically served the people of Boston for 29 years. These goods MUST BE SOLD—"It's up to you"—It's a chance to stock up. Don't miss it.

READ EVERY ITEM CAREFULLY—DON'T WAIT TO COMPARE AS COMPARISONS ARE OUT OF THE QUESTION—THERE ARE NONE

FRECKLES AND HIS FRIENDS

WANT FAIR DEAL FOR FORMER POLICEMEN

Copies of the following resolutions dealing with the status of the former police officers of Boston on civil service, have been received by the local Trades and Labor council and are being circulated for signatures among the members of the various labor crafts of the city. When filed with the resolutions are to be sent to Michael Lynch in Dorchester:

"We, the undersigned citizens and voters of the commonwealth of Massachusetts, hereby certify our protest against the injustice now being done to the former police officers of the city of Boston. They are discriminated against by the civil service of the commonwealth and in many cases, are prevented from earning a living. Whether or not they acted wisely is not now an issue. They have been cruelly punished. They should now occupy the same place recorded every citizen. Their years of faithful service and upright conduct deserve consideration. In the interest of fair play we pledge our support and ask yours in behalf of the governor who will give them fair consideration and render to these police officers equity and justice."

PRICE OF FOOD INCREASES IN U. S.

WASHINGTON, July 20.—Retail cost of food to the average family in the United States increased one per cent. from July 15 to July 20, according to a report today by the bureau of labor statistics of the department of labor. Of 43 articles computed in the average, increases in 21 ranged from 2 per cent. for potatoes, to one-half of one per cent. for bananas. Decreases

RECOVER JEWELS THOUGHT STOLEN

SYRACUSE, N. Y., July 20.—Old Prof. Absent Mindedness is the prize crook, you can take it from the Syracuse police following an investigation of the reported theft of \$1500 worth of diamonds from Mrs. Kendrick A. Luther of Wellesley, Mass., formerly of this city and now visiting at the home of Mrs. G. Russell Churchill of 120 Rugby road.

Missing her jewels, which she believed she had left on a tray on the dresser in her room, when she went to dress for the afternoon, Mrs. Luther searched in vain for them, finally calling in her hostess, who likewise engaged in a futile search.

Police headquarters was notified, and detectives detailed on the case, when their investigation showed no evidence that burglars had tampered with doors or windows, suggested that perhaps the previous search of the room had not been as thorough as supposed. Usually, they picked up a case with hollow bottom on the dresser, disclosing the missing diamonds and branding Prof. Absent Mindedness as the thief.

AMUSEMENT NOTES

THE STRAND
A fascinating story of treasure is that unfolded in "The Golden City," the latest Alice Lake starring vehicle. It's the adventure of an opera singer, who with a young child to support, finds herself thrown upon her own resources through the desertion of her husband. She goes to a border dance hall and leaving the child behind, becomes a famous opera star. At the

height of her success she discovers that the man she loves has become guardian of her child and finds the treasure she seeks is really a golden gift.

Earle Williams in "Lucky Carson" is the story of fame and fortune, and the rise of a down-and-out. Bordered with unusual twists and intense dramatic moments. Followers of this star have really never seen this actor at his best unless they have seen him in "Lucky Carson." Don't miss it.

MERRIMACK SQUARE THEATRE
The big features for today, Friday and Saturday at the Merrimack Square theatre are "Two Minutes to Go," a stirring story of the football field, starring popular Charles Ray, and "The Sleep Walker," with Constance Binney in the leading role. The feature booked for Monday, Tuesday and Wednesday is "Borderland," a dramatic masterpiece with Agnes Ayres.

"KITTY" BRINGS IN RATTLESNAKE

WAREHAM, July 20.—"KITTY," a slim and fragile house cat, saved her entire family from violent death yesterday, but nearly frightened to death Mr. and Mrs. George H. Stinson, whose pet she is, when, to prove her prowess she deposited on the back steps a wriggling rattlesnake which measured 34 inches, not counting seven inches of tail amputated by KITTY.

Mr. Stinson decapitated the reptile with a shovel and KITTY returned to her numerous family, the members of which are three days old and doing well. Until yesterday old timers thought that rattlesnakes here had gone to join the dodos.

If you want to buy, sell, rent or exchange anything, try a Sun classified ad.

WOMAN WAS MURDERED SAYS EXAMINER

BOSTON, July 20.—Mrs. Alice J. Jones, whose body was found last night in a lodging house on Tremont street was beaten and then strangled to death four days ago. Medical Examiner Leary said today, following an autopsy.

George H. Mansfield in whose room Daniel Turslow said he found Mrs. Jones' body, is being held by the police, pending a further investigation.

Turslow told the police he had been sent as a messenger from Mansfield to Mrs. Jones, failing to find her in her own room, he said he went to Mansfield's apartment where he found the body. A revolver lay on a blood-stained couch. Turslow said he had vacated the room several days ago. Medical Examiner Leary said there was no bullet wound in the body. It was his belief the revolver was left to create the impression that the woman had committed suicide.

Mrs. Jones was separated five years ago from her husband, Percy N. Jones of Haverhill, the police reported.

CONCERT HERE BY FALL RIVER BAND

Through the efforts of Adjutant Arnold of the Salvation Army branch here, the 20-piece band of the Fall River post was brought to Lowell and gave an entertaining concert last night at the junction of Paige and Bridge streets. The band is under the direction of Joseph O. Bloomfield, while the itinerary of the trip is in charge of Ensign Charles P. Walker.

There are 20 in the band, including six young boys, and the instrumentation of the band is made up of a battery of cornets, alto corns, saxophones, trombones, French horns, euphoniums and drums. The band travels from city to city in its automobile, to help out the small posts that have bands, and to create interest in the Salvation Army.

Adjutant Arnold, knowing the Lowell post is in neither category, invited the band because of its enviable reputation. The men and boys of the band, there are six young boys from the junior band of the organization, have taken a 10 days' vacation from their work, and have given their services free. The only compensation the band receives is the running expenses for each day's trip.

The next appointment on the schedule of the trip is Athol, and from there the band will journey to Leominster to spend the week-end. During the intervening time they will make several stops en route. The band will return to Fall River next Monday.

C. M. A. C. BUILDING COMMITTEE MEETING

The first meeting of the building committee of the C.M.A.C. recently appointed by President J. A. N. Chretien will be held next Monday night in the rooms of the organization in Pawtucket street. At that meeting the committee will consider the advisability of calling for plans at this time for the remodeling of the club building and going along with the work of erecting another story to the present structure.

The committee is composed as follows: Arthur L. Enos, chairman; Joseph A. Legare, Albert Bergeron, Joseph A. Legare, Dr. G. O. Lavalley and J. N. Chretien. The committee was given full power to act and it is hoped the improvements on the building will be started and completed before the cold weather sets in. The association may spend about \$40,000 on improvements, which when completed will make the building one of the finest of its kind in the city.

A particular coffee drinker in Vermont writes:

"That good old Mocha and Java flavor I find only in Far East, is the pleasure of my life. It is good to know the day of excellent coffee is still with us."

GOVERNOR CLEARS UP MOTOR TANGLE

AUGUSTA, Me., July 20.—Governor Baxter stated yesterday there has been some misunderstanding in connection with passenger cars coming into Maine from other states. "Maine's laws are liberal and any passenger car can come to the state and remain for a period of 30 days without being registered in Maine."

"Operators from other states are not required to be licensed here, no matter how long they remain in the state."

"On account of this misunderstanding the matter has been thoroughly gone into by a committee appointed by me, this committee having conferred in an entirely friendly manner with the Massachusetts authorities."

WILL DECIDE LATER ON CODMAN'S BILL

BOSTON, July 20.—Judge Crosby in the supreme court yesterday heard and took under advisement a motion for a preliminary injunction on a bill in equity brought by Edmund C. Codman, on behalf of minority stockholders of the Boston & Maine railroad company to enjoin the counting of votes at the road's annual meeting on blocks of stocks secured by proxies.

The votes, the bill alleges, are to be pooled in a voting trust to favor the election of President Arthur Smith of the New York Central as chairman of the board of directors of the Boston & Maine.

CENTRALVILLE SOCIAL CLUB

At a recent meeting of members of the Centralville Social club the following officers were elected and inducted into office for the ensuing term: Alberto Branchaud, president; Emile Gallenau, vice president; Ferdinand Lussier, financial secretary; Ernest Donault, corresponding secretary; Narcisse Gauthier, treasurer; Virgil Levy, Donat Champagne, Lucien Perreault and Henri Chamberlain, directors; Ernest Pelletier, sentinel. A committee headed by Virgil Levy was appointed to make arrangements for an outing to Salisbury beach for the members and friends in the latter part of this month.

Four-Hour Battle With Fish

BOSTON, July 20.—A four-hour battle with a 350-pound swordfish, off the Georges bank, was described today by the crew of the fishing schooner Nyoda, which arrived with the fish and a hole in her planking as exhibits in support of the tale. Captain Charles Nelson said the monster tore a three-inch gash in the schooner's planking a foot above the water line.

"Shoot to Kill" is Order

BUFFALO, N. Y., July 20.—Police armed with riot guns and under orders to shoot to kill, if rioting develops, rode the 71 street cars which started out from the car barns this morning. Two hand grenades were exploded on the roof of the Gold Spring car barns last night, tearing holes in the building, but injuring none of the 750 strike breakers who are said to be living in the barn.

Athletic Field Fund

Continued

that affects their welfare is an immediate concern to all citizens."

Mr. Harris is vitally interested, of course, in the campaign and earnestly hopes that it will be instrumental in providing an athletic field for the school that will match up with the new building to be used this fall.

"The High School Alumni association is giving the people of Lowell an opportunity to do a great service to the young folks of the city in this campaign for a high school athletic field," he said today. "Over two thousand homes in Lowell are directly connected with the high school through some members attending the school, and many more thousands have been and will in the future be thus connected. Therefore anything directly affecting the welfare of the young people of the city is an immediate concern to all citizens."

"The boys and girls of the high school have never had a fair chance for outdoor games. The statutes of the commonwealth require the school to give instruction in indoor and outdoor games and athletic exercises, but outdoor games for high school pupils have been carried on at a disadvantage and under difficult conditions, with no toilet or bathing facilities, no dressing rooms or other conveniences. It is not surprising that for years baseball and football have been carried on at a financial loss and have been made possible only by the weekly penny contributions of the pupils. Teams from other cities have been unwilling to come to Lowell to play reciprocal games, in some cases preferring to pay Lowell a handsome guarantee to go to other places rather than to play in Lowell. It is a fact that it has been better for Lowell financially to play in other cities rather than to play in the home city. The result upon school spirit has been, of course, unfortunate, and has resulted in a much smaller number participating in sports than would take part under favorable conditions. The ideal conditions would induce all pupils physically able to take part in some outdoor sport. Not all could participate in football, but all could be first class ball players, but track and field games, tennis, volley ball, basketball, basketball, and the variety of other outdoor games would give practically every pupil a chance to do what he best likes and is best adapted for."

"The projected high school athletic field," he continued, "will give to the young people of Lowell these long-desired opportunities. Owned and controlled by the High School Alumni association for the benefit of the high school, it will also be available for elementary school pupils and for others when not wanted by the high school. It is an enterprise that asks and should have the enthusiastic support of all who are interested in the welfare of the young people of the city."

Although the campaign officially was launched yesterday, it will be several days before definite reports of progress will be available. At present, the campaign office in the Fairburn building are busy compiling names of graduates by classes and class captains are forming teams of solicitors.

Bennett Silverblatt, general chairman, has put a great deal of effort into the arrangements for the drive and anticipates that they will begin to bear fruit early next week. In the meantime, contributions gladly will be received by the treasurer, Edward W. Hull, and elsewhere in this paper today in a subscription blank that may be filled out and sent in.

MAINE WOMAN IS KILLED IN CRASH

LEWISTON, Me., July 20.—Mrs. W. E. Knowlton, aged 45, of Farmington, Me., was instantly killed when a motor car in which she was traveling with her husband, Walter E. Knowlton, and daughter, Emma, were coming to Lewiston on the main street crossing of the Maine Central railroad in this city, at 10:45 this morning. The daughter was seriously injured, and the husband slightly bruised. The automobile was wrecked. Mrs. Knowlton was thrown a distance of 75 feet.

FALL OF DE FACTA CAUSES COMMENT

ROME, July 20.—(By the Associated Press.) The fall of the ministry of Premier De Facta, which resigned yesterday, appears to have been precipitated by the Catholic party, which, although it had eight members in the cabinet, passed over to the opposition. Enrico de Nicola, president of the chamber of deputies and former Premier Orlando were mentioned in parliamentary circles as the most probable choice for the premiership.

FOR WAR PAYMENTS

WASHINGTON, July 20.—Creation of an "enemy property claims commission" of six members to adjudicate and pay from German property if necessary, claims of American citizens against Germany growing out of the war was proposed in a bill introduced today by Senator Underwood of Alabama, democratic leader.

If you want to buy, sell, rent or exchange anything, try a Sun classified adv.

INSANE MAN BATTLES FIREFIGHTERS

NEW YORK, July 20.—While thousands of tons of smoldering paper, rice, toys and rubber goods still glowed and dulled, four firemen risked their lives on the third floor of the tottering ruins of the fire-swept June section warehouse early today, battling with an insane man who tried to hurl himself from one of the blackened windows.

All the firefighters had been ordered away from the building. Suddenly, with a yell of "They're after me," a man burst past the policemen and ran into the building. He soon appeared at a window on the third floor. The firemen crept up along the staircase and, while one fireman attracted the man's attention, the other three made a flying leap and pulled the man from his position on the window ledge. He put up such a struggle that his rescuers were forced to bind his hands and feet and lower him to the street.

The man was employed in a garage near the warehouse. Ambulance surgeons said he had been made temporarily insane from the excitement of the fire. He was taken to a hospital.

Elects 30 Substitutes

Continued

of the first twenty-five, as the examiners awarded it to some who did not have this experience, and did not give it to some who had experience.

Chairman Riley called the meeting to order at 8.15, with Mr. Lambert making a motion that the board proceed to the election of the teachers. Mr. Delaney made an amendment to the motion, that a ten-minute recess be taken to talk things over. The motion was passed and the recess declared. During the recess it was discovered that the examiners had given the ten per cent. to some who did not have experience and had not given it to some who had experience.

When the meeting was resumed, it was necessary to check off the list and rearrange the ranks. The average attained by each young woman was not altered, as the board had no jurisdiction over that, but the removal or addition of the ten per cent. made quite a difference in some of the ranks. Mr. Lambert asked if the correction should be made by the board and Supt. Molloy replied that this additional rank was entirely separate from the examinations. He had asked the examiners to add it simply to facilitate the motion for this meeting. He pointed out that the marks were not changed, but this percentage added for teaching experience.

Dr. Meehan made a motion that thirty be elected instead of twenty-five, as there were nine papers within one-quarter of a point of each other. The motion was passed and the board proceeded to choose the first thirty of the fifty-three who took the examination. Mr. Lambert asked what benefit would accrue from such a move, as the board had previously voted to elect twenty-five. He was informed that, as the ranks were so close and as it would remove the necessity of some of the girls taking the examination again, it was an advantageous move. A vote was taken on this question and the eight members present, Mrs. Pearson being absent, voted to elect thirty new teachers as permanent substitutes.

Mr. Molloy explained to the board that the ten per cent. could have been added at any time, as the records of the girls' experience was in his hands. He said that he had asked this to be done by the examiners to facilitate matters. One of the members made a motion that the examiners be asked to add the ten per cent. to the girls' experience. The motion was not carried, but additional credit given for work already completed.

The papers of each applicant bore a serial number and there was a separate sheet with the names corresponding to the serial number. Supt. Molloy read the number and name and Chairman Riley read off the ranks carefully, adding the extra percentage in some places and taking it off in others.

When the correct list was tabulated, the following young women were found to be the first thirty: Bernice R. Sherburne, Lucy Desmond, Helen Thissell, Elsie Richter, Bridget V. O'Connell, Bridie M. Sheridan, Grace V. Reed, Bernice K. Sullivan, Helena C. McGowan, Helen M. Brady, Dorothy McGee, Rose Griffin, Eleanor S. White, Florence Brogan, Ethel Label, Margaret Murphy, Catharine Mulligan, Mary M. Kelley, Nelda Cross, Helen A. McKean, Marguerite McQuay, Madeline Perrin, Jessie I. Stanley, Mary M. Farrell, Madeline Gillick, Marguerite McGuinnis, Alice W. Higgins, Helen M. Coughlin, Mary O'Donoghue, and Martha Shaber.

Mr. Delaney then moved that these young women be duly elected permanent substitutes and be registered as teachers in the Lowell schools. On the roll call all the members voted yes and the new teachers were officially elected.

EUGENE DEBS IN SANITARIUM

Eugene Debs, socialist leader, is a patient at a Chicago sanitarium where he is undergoing treatment for insomnia. "I am not ill, but for the first time in my life I feel tired and worn," he says. Shown with him are Drs. Boerna Daniels and Matthesen Yunkers.

done by Lowell labor. "We are doing business in Lowell," he said, "and it is our intention to employ Lowell labor."

Relative to the leasing of the Cook, Taylor & Co. building in Merrimack street and the quarters of the Elks in Middle street, Mr. Fidler said that the enormous business at the store calls for expansion. The Cook, Taylor & Co. building, which is now a two-and-a-half story building, will be raised to four stories and the interior partitions will be torn down in order to make the two buildings one large place of business. As soon as the Elks have secured a desirable home, Mr. Fidler said he would not rush them, their quarters will be transformed into an up-to-date store. Elevators will be installed in the two buildings. The changes and improvements proposed by Messrs. Fidler will cost over \$100,000.

As vacancies occur, either permanent or temporary, these teachers will fill these places in the order they appear on the list.

Mr. Riley made the suggestion that the summer school teachers be paid every two weeks or once a month. Mr. Sullivan embodied that suggestion in a motion and the members present voted yes.

As there was no further business and as the rechecking and rearrangement of the order of the list had taken so much time, the meeting was adjourned at 10:55.

Will Employ 300 Women

Continued

Co. building two more stories in order to enlarge their present store and as soon as the Elks have found a suitable home, they will convert their rooms into an up-to-date store, also.

The Lee Street property purchased consists of two small buildings, one of cement construction and the other a frame building, about 6700 square feet of land. The property was owned by Mrs. Mary P. O'Dowd and its assessed valuation is in the vicinity of \$15,000.

Charles S. Fidler stated today that plans are now under way for the tearing down of the old buildings and the erection of a \$75,000 four-story brick or cement building.

The plans call for three or four stories on the street floor, the other three stories to be utilized as a factory for women's cloaks and suits and gowns. "We are conducting a factory in Boston at present," said Mr. Fidler, "but our plan is to remove our manufacturing here. We are now employing about 150 women in our factory, but if the proposed plans are carried out we will double our working force and Lowell help will be hired exclusively. Inasmuch as we manufacture for our store only, we feel that our factory should be as close as possible to our store and hence the proposed changes."

The plans for the new building, according to Mr. Fidler, will be drafted by a local architect, and the contracts will be given to Lowell contractors with the stipulation that the work be

WINNER IN DOUBT

Race for Republican Gubernatorial Nomination in Nebraska is Very Close

OMAHA, Neb., July 20.—(By the Associated Press)—One of the four principal races in the Nebraska gubernatorial nomination was in doubt early today after returns from 1701 of the state's 1913 precincts had been tabulated by the Associated Press.

Adam McMullen of Beatrice was leading Charles H. Randall of Randolph by 317 votes, gained on late returns last night, on returns from his home district. The vote stood: McMullen 45,378; Randall 45,058.

Returns from 1658 precincts gave Charles A. Bryan of Lincoln, brother of William Jennings Bryan, a comfortable lead over Dan B. Butler of Omaha, for the democratic gubernatorial nomination. The vote stood: Bryan 25,478; Butler 23,053.

Returns increased the big lead of R. B. Howell of Omaha, republican national committeeman for the United States republican senatorial nomination. Mr. Howell who ran on a progressive business platform, commanded a lead of more than 15,000 votes over Congressman Alfred W. Jeffers, his nearest opponent, who campaigned as a conservative republican. Attorney General Clarence A. Davis, who also campaigned as a progressive republican, was running third. The vote gave Howell 37,330; Jeffers 21,290; Davis 23,671.

Mr. Howell in a statement to The Associated Press said the result of the primary was largely an economic expression. He said the people of Nebraska were opposed to the idea of elimination of competition in railroad rates as is provided in the Elmer-Cummings act, and are as opposed to a radical tariff as they are to free trade. Senator Gilbert M. Hitchcock of Omaha, had an overwhelming majority over his two democratic opponents.

Perfect New Landing Device

WASHINGTON, July 20.—Perfection of a device to enable an airplane going 60 miles an hour to land on the deck of a ship, was announced today by the navy department. For the past few months the naval air service has been experimenting secretly at Hampton Roads with the device on a dummy ship's deck. In one of the experiments a small plane was brought to a stop within 38 feet.

ons, A. T. Manahan of Omaha, and J. O. Shroyer of Humboldt on returns from 1658 precincts. The vote was: Hitchcock 16,294; Shroyer 14,331; Manahan 9,090.

MAKE LONG TRIP FROM FAR WEST

BOSTON, July 20.—Out of the Golden West two youths have motored all the way to Boston in 32 days. They are Robert W. Carlquist and Kenneth M. Menroe, both of Los Angeles, and recently graduated from the University of Southern California.

Setting out from their home on June 16, they followed no special itinerary or schedule route, but planned to stop at such places as might be of interest to them. Accordingly, they stopped over at the Grand Canyon of the Colorado, Des Moines, Bloomington, Ill., Washington, Philadelphia, New York city, Worcester, New Bedford and, arrived in Boston Tuesday afternoon. Along the way they have been on the alert for any positions they might secure as teachers of chemistry or philosophy.

In the 4000 miles they covered from coast to coast they had only four punctures and two blowouts, with no engine trouble. When night came they would camp along the way. When they were sleeping, or were off sightseeing they would hang on the side of their car a sign bearing the legend "Measles, Keep Out." This apparently served to keep undesirable visitors away and they had no unpleasant experiences on their journey.

After a short stay in Boston and vicinity, during which they have thoroughly inspected Harvard and other great seats of learning, they will leave today for home, carrying with them very favorable impressions of the capital of the Bay State. They will leave

NEARLY CAUSED PANIC

Increase in Prices in Vienna Results in Uneasiness by Population

VIENNA, July 20. (By the Associated Press).—Yesterday's demonstration against the cost of living appears to have been largely of spontaneous origin. When groups of women went to the markets and found enormous increases in food prices overnight, the news quickly spread over the city. Within three days the price of lard and pork had risen 33 per cent; that of fats and sugar 100 per cent and bread 20 per cent.

Hundreds of housewives rushed into factories and told the men. There was a general movement to lay down tools, but cooler counsel generally prevailed. Finally deputations of workmen's councils started for the parliament building and were joined on the way by hundreds of men and women. The deputations presented a demand that the old government bread allowance be immediately restored and that measures be taken to check the advancing food prices.

The cabinet went into session late last night to discuss the situation. While the day passed without serious disorder, general nervousness was betrayed by the failure of shops and restaurants to reopen.

The general belief is that the Selts government has been seriously shaken by developments of the past few days.

FOR THIN BLOOD

There are people who have a tendency to thin blood. They are what doctors call anemic and it is only by careful diet, moderate exercise, sunlight and the use of a tonic at times that they can keep their blood in a condition to ward off more serious disease and keep the organs of the body functioning.

Mrs. Nora Hogan of No. 1175 Cambridge street, Cambridge, Mass., says: "Dr. Williams' Pink Pills always build up my blood and strengthen me as nothing else has ever done. I have given them to my children when their faces grow pale and whenever they have shown signs of needing a tonic."

"At one time I had dizzy spells and was so weak that I was afraid to walk around. I had no appetite, suffered from attacks of indigestion, was pale and fellow. I could not sleep well. I thought that if I could eat well I could get my strength back but for days and days I could not bear the sight of food. Then boxes of Dr. Williams' Pink Pills corrected all this. I know of no safer or surer medicine and I am glad to tell what the pills have done for me."

A valuable booklet, "Building Up the Blood," will be sent free upon request. Dr. Williams' Pink Pills are sold by all druggists or will be sent, postpaid, on receipt of price, 60 cents per box, by the Dr. Williams Medicine Co., Schenectady, N. Y.—Adv.

KAREFUL KANNER KLAN

The Kareful Kanner Klan of Chelmsford held a meeting at the town hall yesterday afternoon. Miss Marie J. McPherson presiding. During the session, string beans, rhubarb and beets, which were brought by the members, were prepared and canned, and the rules for running explained by Miss McPherson. The latter will make visits to the homes of the girls during the week. Two classes of Kanners have been formed, the younger group being known as "The Up and Doing Circle," which met this afternoon at the town hall.

It will pay you to get "The Sun" classified adv. habit.

REFUSES AMNESTY

President Harding Will Consider War Prisoners' Cases Separately

WASHINGTON, July 20.—President Harding was quoted yesterday by members of a delegation which presented to him a petition for the release of all persons still imprisoned for violation of war-time law as having said, during a 40-minute interview, that he still adhered to his opposition to a policy of general amnesty, and that each case would be considered separately.

All cases, he is understood to have said, would be reviewed within the next 60 days.

Given Reasons

Nearly 100 persons are still in prison for war violations. In explaining his opposition, the president is said to have taken the position that all cases were not on an equal footing as some of the persons convicted were charged with advocacy of violence.

Mr. Harding was quoted as having remarked that he was deeply sympathetic with those still serving sentences and their families, but could not permit his heart to dictate a policy that would result in liberation of all prisoners at one time.

While the delegation waited on the president a number of women picketed the west entrance of the White House with banners calling on the president to take action.

Million Names

Approximately 1,000,000 signatures were said to be attached to the petition asking a grant of amnesty to the remaining 87 "war opinion" prisoners, which was brought here by a delegation today. The petition was circulated by the general defence committee of Chicago.

Members of the delegation included Morris Hittiquit of New York, Mrs. Robert M. La Follette, wife of the senator from Wisconsin; J. A. H. Hopkins, national chairman of the committee of 48, and James H. Maurer, president of the Pennsylvania State Federation of Labor, issued the following statement on the visit of the delegation seeking amnesty:

"In replying to a delegation seeking general amnesty for all political prisoners the president stated that he could not bring himself to grant general amnesty until he knew that all prisoners held under the war act had only committed strictly war offenses; that he was giving consideration to the cases; that he had instructed the department of justice to expedite reports in all these cases; but that he would never, as long as he was president, pardon any criminal who was guilty of preaching the destruction of the government by force."

FINDS BROTHER BY UNIQUE METHOD

PORTLAND Me. July 20.—The number of the Maine registration plate on the automobile of Edwin A. Winslow of Westbrook was the only means of identification by which his brother, Charles E. Winslow of Tacoma, Wash., recognized the Westbrook man when they met at Union station a few days ago.

TRY A SUN CLASSIFIED AD

ago, as the brothers had not seen each other in over 40 years. Owing to the death of the father, the family was scattered when the boys were very small, and Charles went to the Pacific coast, where he has since resided. While on a business trip to the east he decided to look up his brother in Westbrook, and, by correspondence, the novel scheme for identification was decided upon. Charles has been passing several days as his brother's home. They left today by auto for a visit with relatives in Augusta, their former home.

Kellogg's SHREDED KRUMBLER

deliciously flavored WHOLE-WHEAT

Abundant red-blooded health!

Robust, rugged-built women and men get everything out of life! They started their health-growth in childhood because they were given food that nourished; that built bone and muscle and brain!

Children brought up on a diet of denatured foods that flood the American table, must become puny and stunted individuals! Food robbed of its life-sustaining elements cannot produce health and strong bodies!

Every child in America should eat Kellogg's whole-wheat Krumbler at least once daily. Krumbler put into the body ALL the vital elements subtracted from the daily foods we eat! Krumbler is life-sustaining, body-building, health-assuring! And Krumbler is delicious—because they are whole-wheat, flavored for the first time in history!

Your entire family—children, the workers and the aged, will thrive wonderfully on Krumbler!

The only whole-wheat food with a delicious flavor!

Vitamin Food

Delicious and Energizing

If you eat white bread, lean meat, cooked fruits and vegetables, or drink tea, coffee, or pasteurized milk, add a cup or two of Vegex daily to balance your meals. Our modern foods lack vitamins. Vegex is a certified vitamin food which brings health and power.

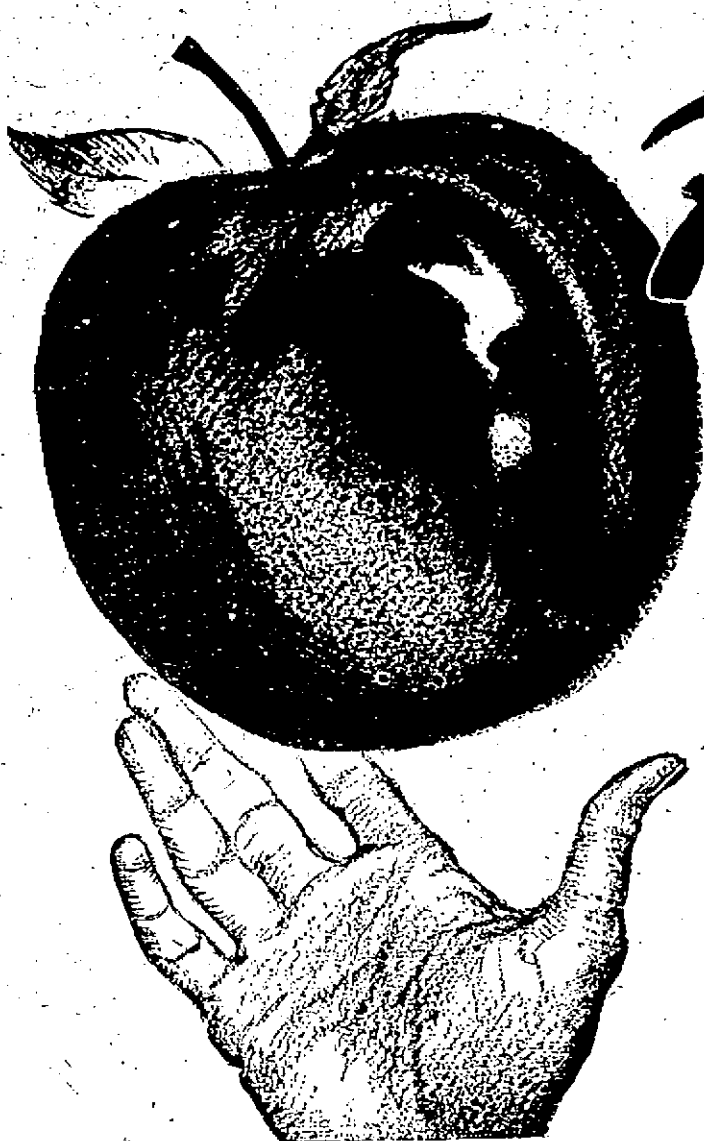

Used by British in the War

The British Government used a product identical with Vegex to energize its soldiers during the War. Add your demand or order for a 10c, 50c or \$1.00 jar of Vegex on our money-back guarantee. Vitamin Food Company, Gotham National Bank Building, New York.

BELIEVED MURDER SUSPECT HIS LOST BRIDE

TULSA, Okla., July 20.—That Mrs. Clara Phillips, held in Los Angeles for the murder of Mrs. Alberta Meadows, is his missing bride, is the firm belief of Joe McGuire, a carpenter living here. Descriptions of Mrs. Phillips carried in press despatches, McGuire Phillips the woman who deserted him four days after their marriage in Cannon City, Ohio, on April 20, 1921.

Believed Him Mistaken

LOS ANGELES, July 20.—Officials here after a careful check of Mrs. Phillips' previous life, said they believed Joe McGuire of Tulsa, Okla., who telegraphed them he thought Mrs. Phillips the woman who deserted him four days after he married her in April, 1921, was mistaken.

If you want to buy, sell, rent or exchange anything, try a Sun classified ad.

Railroad Strike Continued

from the water other shots were fired from the bushes on the opposite bank of the river.

Two Patrolmen Shot

MONONGAHELA, Pa., July 20.—Two Pennsylvania railroad patrolmen, a car inspector and a constable were shot early today after their gasoline speeder had been wrecked on the Elliptical branch, south of Bentleyville, Pennsylvania. Three of the men were seriously wounded while the other was hit by a number of buckshot. The officers were on railroad strike patrol duty.

Requests Troops

CONCORD, N. H., July 20.—Governor Albert O. Brown had under advisement today the request of Mayor Henry E. Chamberlain for state troops in keeping order among railroad workers and strikers here. The mayor's request for protection followed the action of five masked men in driving 16 Boston & Maine workers from their sleeping quarters late Tuesday night.

Persons close to the governor said

that it seemed hardly probable that the troops would be called out. Two sergeants and six patrolmen of the Manchester force were here today to assist the local police. There was no evidence of trouble in the railroad yards this morning.

The police said today that they believed they knew the identity of two of the masked men who participated in Tuesday night's disturbance. The publicity committee of the railroad strikers declared in a statement that the disturbance Tuesday night was "entirely foreign" to its members.

"This framed-up rioting, we claim," the statement said, "is simply gotten up to try and blacken the shopmen in the eyes of the public. We wish to say that this strike is being conducted in a clean manner by conservative citizens and we ask that the public do not believe this nefarious propaganda."

Peace Prospects Glimmer

CHICAGO, July 20.—With immediate prospects for peace in the railway strike gone, strikers and railroads today settled down to a test of strength. The statement of Chairman Hooper of

the railroad labor board that the board was no longer engaged in peace negotiations left the situation open to direct negotiation between strikers and railroad chiefs, or attempts from either source.

Union officials remained firm in their demand that full seniority rights be restored to the 300,000 shopmen now on strike, that being the rock on which peace efforts were broken. Rail heads were equally firm in their insistence that seniority rights of men now at

work be recognized. There was no indication from either side of a weakening of the determination to carry the point at last.

In all 247 trains have been cancelled or are about to be cancelled, said reports from railroad centers in the west. The southwestern lines apparently have been heaviest hit. Reports were that the strike is being felt by the iron and steel industry, that coal mines in parts of West Virginia are without coal cars and that a portion of the fruit crop of the Pacific coast is endangered by lack of transportation.

Reports of violence fell off somewhat but troops were called out in two more

states, and isolated shootings and whippings continued.

A conference between union heads and road officials in Chicago, was expected to avert a walkout of 7300 clerks on the Chicago & Northwestern railroad.

Railroad repair shops in the east are manned at nearly 50 per cent. of normal, Secretary Walker of the bureau of information of eastern railways said in a statement issued at New York.

As far as the western district is concerned "the strike is just about over," the statement added.

Restraining orders and injunctions looking to the protection of railroad property and operations were granted in a dozen or more cities.

The appeal of President Compton of the American Federation of Labor, to workers everywhere, to support the shopmen's strike, was received quietly.

WILL HAZARDS AND HOW TO AVOID THEM

Issued by the
Massachusetts Safety Council

BY H. W. DONALD,
Safety Engineer

Scientists who have delved deeply into the subject of the sub-conscious and tell us that the dream of falling places, just as we go to sleep, is projected from the time when ancestors frolicked and slept in the trees, and occasionally slipped loose—lost hand or tail—and fell bumping down perhaps to the mirth and chatter of their companions.

Life still has its ups and downs, but vicious mechanism, the enforced taller and less hardy anatomy, and the modern life are not so amusing to our progenitors as in the days of yore.

Modern city life would be a flat affair had we not progressed beyond the first of ladders and stairs. Modern industry would never have gone above a second floor without the freight elevator. The Scriptures warned us to honor our father and mother if we tired our days to be long in the land. Modern safety men go even further than this, and urge us to respect the elevator that is within the elevator shaft, and pay heed to the sign that reads: "Beleth Only."

Just why should we have so many elevator accidents in the course of every year, when they are guarded not only by safety devices, but by signs warning?

The records show that workmen fall to them, fall out of them, fall between them, leave feet and ankles, yea, and even heads, hanging limply over the edges of them.

The greatest danger of all is at the elevator entrance. Sixty to eighty of every one hundred elevator accidents happen at the elevator entrance. We fight almost around it in crepe and it flowers on the push button, and roll and cross-bones over the floor. If it would but warn the unwary approach, elevator entrances with caution and deliberation.

And such a messy, painful, racking departure from the sunlight and certainty of this world! If one is so unfortunate as to be officially hanged, to drop falls and the victim's consciousness departs simultaneously. The elevator, on the contrary, like the steel can, pins the unfortunate and death is slow. Or, if a falling accident occurs, there are inevitably two brain-racking tortures—the horrible consciousness of helplessness falling, bleeding instantly with the obliterating crash at the bottom.

What, then, must we do about elevators, if they are so necessary and yet so dangerous?

On passenger elevators, enter deliberately and alert, rather than reading a newspaper, talking to a companion, or lighting a cigar. Make sure that the operator is on the job before you attempt to get in or out.

If you work about a freight elevator, are are six points to remember: If obliged to operate a car, take your time about it. Ring the bell to warn others. Call out and wait until all is clear before pulling the cable. When the car stops, lock the cable before leaving. If you intend to return, do not enter or cross the shaftway for any purpose. On an open freight elevator, keep away from the edges.

Use your freight securely. Don't overload. Leave room to stand on the car. Keep off hatch covers, for they move quickly. Use the elevator only when your work requires it. Use the stairs at other times.

There are certain facts to remember concerning the repairs of your elevator. You should of course report elevators that are out of place. Gates and doors should be tested frequently. Do the gates fall easily? Do the door catches hold? Do the safeties act quickly, and are they clean? Are the cables worn, the strands cracked, jammed or kinked? Are the sheaves regularly inspected?

If you are the man who repairs the elevator, work deliberately. Think of the safety of others before starting the car. Think of the counterweight. Keep alive to the entire equipment. Much can be done by ordinary observation and common sense to prevent accidents.

Above all, don't monkey with the elevator. Trick monkeys die young.

WALLOP TURNKEY AND EFFECT ESCAPE

HOULTON, Me., July 20.—Turnkey George Hall is in a hospital suffering from a severe scalp wound and two inmates of the Aroostook county jail, Wiley Michaud and Herbert Martin of Van Buren, are enjoying their liberty as a result of an attack upon the turnkey yesterday.

The Van Buren boys, who were being held for action by the grand jury on charges of robbing Hall over the head, according to reports by deputy sheriffs as he brought them their food, and escaped by the use of his keys. Sheriff Grant offered a reward of \$25 for their capture.

Gunpowder is said to have been discovered by Roger Bacon.

You Can Do It Better With Gas

You Can Do It Better With Gas

Announcing the Glenwood Grey Enamel Gas Ranges

315 MRO. All Enamel, (Right Oven), with Glenwood Thermolator, (Heat Control). Light Grey Porcelain Enamel, with White Trimmings.

Fashions change in Gas Ranges as in every other commodity in general use. Such a change is now taking place and the Lowell Gas Light Co. is ready to meet the popular demand by showing a complete line of

Modern
Glenwood
Gas Ranges
They "make cooking easy"

With the Exquisite Pearl Grey Enamel Finish

It will be a treat for you to see the latest improvement in this nationally known product.

This is the first time that a full line of Glenwood Gas Ranges has been shown in Lowell. So many Lowell people have inquired

about the Glenwood that we have decided to add it to our already complete stock of Gas Appliances.

To those people who have antiquated Gas Ranges, or have no Gas Range at all, we particularly aim this announcement.

The Modern Glenwood Gas Range Lightens the Housewife's Burden

There are several outstanding reasons why no home should be without a Gas Range—and, by the way, those who have gas equipped kitchens will have little to worry them should the coal situation become acute this fall and winter.

Clean—no smoke, ashes or dust; surface is easily kept polished and spotless; no soot can soil utensils.

Labor-saving—a turn of the lever starts, stops or regulates the heat instantly. Burners, ovens and shelves are conveniently placed.

Beautiful—especially the new Ranges finished in white or grey porcelain enamel.

Economical—improved design in burners, ovens, broilers and heat passage helps you get the right heat with minimum fuel.

The Gas Range Is the Chief Article in the Kitchen

Gas used in any range, no matter how old, gives better home cooking than any other fuel.

But to get the full satisfaction from the best fuel on earth, a modern Gas Range is necessary. You can put one in your present home, and move it when you build.

If the stove you are using is a relic of earlier days, your household duties can be lightened by such equipment as the economical, beautiful, convenient

Modern
Glenwood
Gas Ranges

The superb workmanship and finish, and many modern improvements, are found on no other ranges. It will be a pleasure to us to have you drop in at our appliance store, and see the new developments in cooking progress. You will not be under the slightest obligation to buy.

The Glenwood Ranges are equipped with the famous Glenwood Oven Thermolator, which makes the baking easy. It is an automatic mechanical device by which any desired temperature between 250 and 550 degrees can be maintained in the oven, for any length of time, by simply turning the pointer on the dial to the temperature mark desired. The Thermolator really does make baking easy, and is coming into general use by discriminating housewives.

One man who recently bought a Glenwood Range with the Thermolator equipment has written the following commendation: "My

Glenwood Ranges weigh more and are put together better than any other gas range on the market today. The castings are smooth and easy to keep clean.

Glenwood Ranges
Come in Light Grey
Porcelain Enamel.

Semi-Enamel, and Black Japan Finish,
with White Trimmings.

The linings of the Glenwood Oven are made of White Aluminized Metal Sheets which are rust-proof and have excellent wearing qualities. They are handsome, convenient, and mechanically right.

wife stated today that the range worked way beyond her expectations, and I want to add that the Thermolator not only works to perfection, but is a very attractive addition to the range. We have decided that we would not have in our house a range without Heat Control, after the short experience we have had with this unit. We have done regular baking with the best of results, and I also find that the small oven bakes beans at 250 degrees better than anything we have come in contact with. I believe that Heat Thermolators on your ranges are not only very handy, easy to operate, and gas savers, but also produce better results in baking."

You Can Do It Better With Gas

OUT-OUR WAY

GIRL UNHURT IN FALL OF 125 FEET

PLYMOUTH, July 20.—Miss Clara Litchfield of this town went off a cliff, 125 feet high, near Hotel Pilgrim, in a large automobile about 9.30 last evening and miraculously escaped with a few minor injuries. The automobile, which landed against the breakwater at the foot of the cliff, was not much damaged.

Miss Litchfield, who has been in ill-health for some time, started yesterday afternoon for a ride in the auto but would not allow anyone to go with her.

Last night, when she had not returned, the people at her home became suspicious that some accident had happened and telephoned Chief of Po-

lice John Armstrong, asking him if he would look her up.

Chief Armstrong found Miss Litchfield at the Mayflower Inn in Manchester, and told her that they wanted her at home and said he would ride back with her.

She would not consent to this, so he with the other officers followed close behind her in their machine. When she arrived near Hotel Pilgrim she turned her car quickly to the right. She put on all the speed and went down through the field over the ditch which is used to prevent water from washing down the hill through the big fence and down the cliff, 125 feet high.

The police reached Miss Litchfield as quickly as they could and got her out of the car at the foot of the cliff against the breakwater.

They immediately removed her to

the Jordan hospital and summoned the doctor. Miss Litchfield refused to talk or give any reason for her act. The only injuries she received were a cut and a scratch.

INCREASE IN MILK PRICE UNJUSTIFIED

BOSTON, July 20.—The "drying up of pastures" this year does not justify the recent increase of one cent a quart which the New England Milk Producers' association made in the price of milk, Eugene C. Hultman, chairman of the commission on necessities of life, informed District Attorney Thomas C. O'Brien of Suffolk county yesterday.

"This year the rains in June—20 days being rainy—have provided excellent pastures," Mr. Hultman told the district attorney who is investigating the price of milk here.

Tom Sims Says

A nickel isn't as good as a dime, but it goes to church more often.

One day last week a man understood what a train caller said.

After mixing business and pleasure, business never looks the same.

Another society crook has been caught. Some people are not known by the company they keep.

You seldom see a fly going out through a hole in a screen.

Many family trees have some crooked branches.

No matter what happens somebody always knew it would.

The honeymoon ends when the furniture store collector begins.

In Africa, the native girls want American clothes. Somebody is going to get unburned.

Women are vain, but every barber's mirror sees some funny things.

Maybe these reformers could stop the fish from biting on Sunday.

No matter what a man believes he can't do, he is right.

Lots of aviators fall down on the job because they don't learn the business from the ground up.

So many women are shooting their husbands the men are getting afraid to take out insurance.

Why is it that nearly all rich men look like 30 cents?

All you have to do to get a crowd to follow you is find out which way the crowd is going.

People with the biggest houses don't need them the most.

It takes all kinds of people to make a world, but only one kind to ruin it.

Some people enjoy a vacation; others spend the time writing home.

Our ambition is to be so rich we don't have to pay our bills.

Watching the sunset is fine; but watching the sunrise is better.

MAJOR MORGAN

ATTEMPT TO WIN PRIZE

LONDON, July 20.—(By Associated Press)—Major C. W. P. Morgan, the British aviator, has agreed to the United States an announcement of his decision to attempt a trans-Pacific flight from San Francisco to Sydney, New South Wales, for a prize of £10,000 offered by Thomas H. Ince of Los Angeles.

Major Morgan says he hopes to leave San Francisco at 7 o'clock on the evening of October 2 next, and arrive in Sydney at 2 o'clock on the afternoon of Oct. 7, proceeding across the Pacific by way of Honolulu, Samoa and the Fiji Islands.

Major Morgan was associated with Capt. F. F. F. in the ill-starred attempt to fly across the Atlantic from Newfoundland to Ireland in May, 1919. Their plane was wrecked soon after it started. Morgan suffered severe injuries.

According to the conditions laid down by Mr. Ince in offering a prize of \$50,000 for a trans-Pacific flight, the start could be made from either side of the Pacific. It was stipulated if it was made westward, Venice, Cal., must be the starting point, and the landing made on the mainland of Australia, the Japanese islands or the Continent of Asia. The announcement in June, 1919, said the contest would be open until February, 1920, and the flight must be completed within 12 days after the start.

There is no longer the slightest need of feeling ashamed of your freckles, as Othine—double strength—is guaranteed to remove these homely spots.

Simply get an ounce of Othine—double strength—from any druggist and apply a little of it night and morning and you should soon see that even the worst freckles have begun to disappear, while the lighter ones have vanished entirely. It is seldom that more than an ounce is needed to completely clear the skin and gain a beautiful clear complexion.

Be sure to ask for the double strength Othine as this is sold under guarantee of money back if it fails to remove freckles.—Adv.

FRECKLES

Now Is the Time to Get Rid of These Ugly Spots

HOW TO REDUCE VARICOSE VEINS

Many people have become despondent because they have been led to believe that there is no remedy that will reduce swollen veins and blemishes.

If you will get a two-ounce original bottle of Moore's Emerald Oil (full strength) at any first class drug store and apply it at home as directed you will quickly notice an improvement which will continue until the veins and blemishes are reduced to normal.

Moore's Emerald Oil is very concentrated and a bottle lasts a long time—that's why it is most economical.

It has brought much comfort to worried people all over the country and is one of the wonderful discoveries of recent years.

Remember that anyone who is disappointed with its use can have their money refunded. Fred Howard, your druggist, can supply you.—Adv.

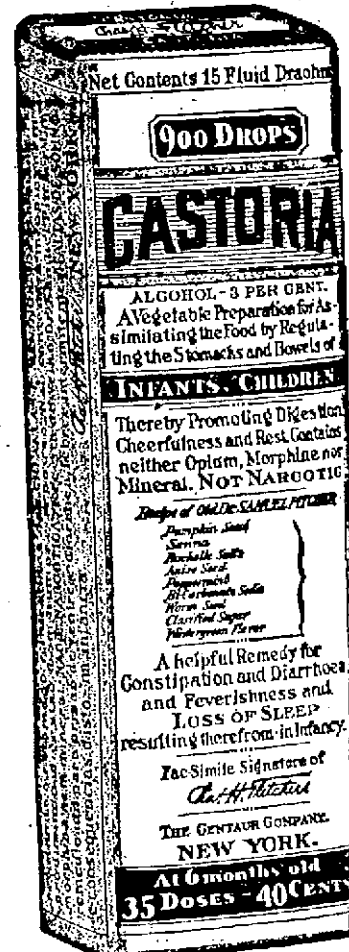

Ladies Keep Your Skin Clear, Sweet, Healthy With Cuticura Soap and Cuticura Talcum

TRY A SUN CLASSIFIED AD

Making History.

INFANT MORTALITY in past ages has been something frightful, something almost beyond belief, and even today it occupies the time and the mind of leading physicians in all countries. The death rate among infants is being gradually reduced through new methods of hygiene, new preventatives and new remedies for infants. This reduction in the death rate has NOT been accomplished by adapting the precautions taken and remedies used by adults. Rather has it been to keep clear of the old methods, and choose after long research the precautions and remedies specifically applicable to infants.

This being so, is it necessary for us to caution mothers against trying to give her baby relief with a remedy that she would use for herself? Will she remember that Fletcher's Castoria is strictly a remedy for infants and children?

Children Cry For

Fletcher's
CASTORIA

Of Course You Love Your Baby.

You love it because of its very helplessness, because it can't tell you what is the matter when it feels bad. It can only cry and look to you for help. But the more you love baby, the more you want to help baby, the more you ought to realize what a wonderful remedy Fletcher's Castoria is. It has been used for babies' ailments for over thirty years.

An experienced doctor discovered Fletcher's Castoria especially for babies' use. It is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. Doctors who know what is safe and best for babies have only good to say of it.

Don't neglect your baby. Get a bottle of Fletcher's Castoria and give baby a few doses of it. See how the little one smiles at you as if trying to thank you for helping it. Soon you will learn to depend on Fletcher's Castoria, made just for Infants and Children, and of course you would not think of using anything for them that was not prepared especially for Infants and Children. So keep it in the house.

GENUINE CASTORIA ALWAYS

Bears the Signature of

HAVERHILL GIRL IS DISAPPOINTED

HAVERHILL, July 20.—Gladys Littlefield, 13 years old, daughter of Mr. and Mrs. Abraham Littlefield, 26 John street, who ran away from home last Monday morning, is back again. She says she was disappointed in Boston, the city to which she journeyed. She was brought back to Haverhill by her father and mother, who were notified by a representative of the Travelers' Aid society that they had the child in their charge.

"I expected to find a grand place," said the girl; "I expected to find nothing but styles and swell clothes, but I didn't see anything and I am more than glad to get back home."

It was in the Atlantic Avenue section of Boston that the girl decided that home was a pretty good place, despite the fact that her mother scolded her group.

because she fussed because her brother would not help in the work, which was the reason why she departed from home.

GLORIA'S MOTHER LOSES IN FIGHT

LOS ANGELES, July 20.—The jury in the contest over the will of Matthew P. Swanson yesterday rendered a verdict that the shoe merchant was mentally incompetent when he made a will leaving the bulk of his \$100,000 estate to his widow and mother of Gloria Swanson, film actress.

The contest was brought by Burns' blood relatives.

Russian boots for women are the fad in London.

Mother Why Do You Scold Us All The Time?

Read This Terrible Confession By a Mother Who Was Ruining the Lives of Her Children

For some time I had noticed that my two children, a boy of seven and a girl of ten, were becoming highly nervous, irritable and very disobedient. I tried various punishments, even whipping, but they kept growing worse. My own nerves were all "on edge" the least thing would set me off and I was too nervous to be able to go anywhere. I often suffered from severe heart palpitation and indigestion. I could not sleep at night. I had an almost constant dull aching pain in the back of my neck and head, and frequently a very disagreeable sense of fullness in the front of my head. I often had severe pain across my back which made me think I had kidney trouble. I could not begin to describe all the tortures and terrible pains which I endured. Finally I went to a doctor and told him my story. A doctor told me that I was the cause of my children's condition. He told me how the system only manufactured so much nerve force and that this vital fluid of life was stored in the nerve cells, much like electricity is stored in a storage battery and just as quickly exhausted. He said my own highly nervous condition had been a constant drain on the nerve force of my children, and that the condition to which I had subjected them had been a constant drain on the nerve force of my children. Later I found out to be true because after I repaired my own nervous system and replaced my worn out exhausted nerve centers, and the same was done for my children, I found them to be the nicest, sweetest children in the world—their whole disposition entirely changed.

The above is a hypothetical case, which a physician says may well illustrate household troubles. It is a fact that the nervous system is the most delicate and most important part of the body. It is the source of all our thoughts, feelings and actions. If it is weakened, the whole body suffers. The nervous system is the most delicate and most important part of the body. It is the source of all our thoughts, feelings and actions. If it is weakened, the whole body suffers.

Over four million people are using Nervad Iron annually, and from the remarkable beneficial results which it has produced, the manufacturers feel so certain of its efficacy that they guarantee satisfactory results in every instance or they will refund your money. For sale in this city by

KANSAS EDITOR IN FIRM STAND

Newspaper Publisher in Topeka in Controversy With Attorney General

Places Placard in Window of Office Espousing Rail Strike

TOPEKA, Kas., July 20.—(By the Associated Press.) William Allen White, publisher of the Emporia Gazette, has posted in the window of his newspaper office a placard espousing the cause of the striking railway shopmen, and expressing sympathy for their announced stand for "living wages and fair working conditions." Mr. White had been told that the state attorney general had ruled that such displays were in violation of the industrial and anti-syndicate law.

"The order of the industrial court is an infamous infringement of the right of free press and free speech," Mr. White asserted. He proclaimed 49 per cent sympathy with the strikers and said he would add one per cent a day as long as the strike was in progress.

Richard J. Hopkins, attorney general, was emphatic in his statement, although he did not say that Mr. White would be arrested at once.

"One who encourages lawlessness in Kansas by advocating it, is himself violating the law and, therefore, is subject to arrest," said the attorney general.

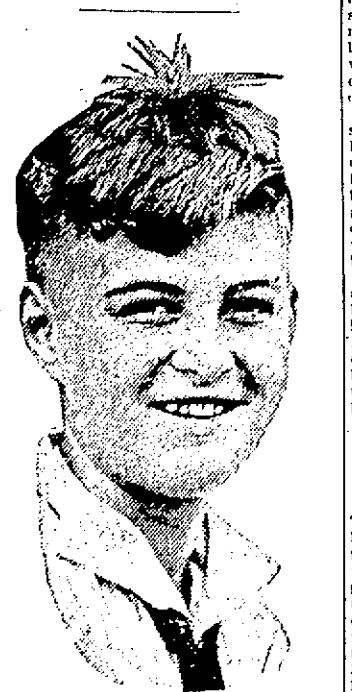

"Mr. White has jumped at a conclusion without realizing the fundamental principle involved," he added. "It is not a matter of free speech or free press. It is a question of obedience to law. Under the Kansas law, a railroad strike or a strike in any essential industry is more than a controversy between employers and employees. It is a strike against the state itself."

"Mr. White has always been very much in favor of the industrial relations law. A strike in an industry where the rights of the public are not directly involved is a matter for debate; but a railroad strike is not a matter for speeches or editorials which promote lawlessness. A railroad strike is an act of lawlessness."

TO LECTURE IN SEVEN SCHOOLS

NEW YORK, July 20.—Culvin W. Rice, secretary of the American Society of Mechanical Engineers, announced today that Dr. M. E. DeMorgan, director of the geological service of France, had been appointed French exchange professor to America in applied science and engineering.

Dr. DeMorgan will lecture on applied geology, especially as applied to topography, in seven American universities during 1922-23, opening at Columbia. Other institutions participating in this exchange plan are Cornell, Harvard, Johns Hopkins, Yale, University of Pennsylvania and Massachusetts Institute of Technology.

NEW YORK MEN FOR R. I. MILLS

Organizer Thomas Informed 200 Strikebreakers for Pawtucket Factories

PAWTUCKET, R. I., July 20.—Organizer John J. Thomas of the United Textile Workers of America stated today that he had been notified by officials in his New York headquarters that 200 strikebreakers are on their way from that city for Rhode Island textile mills.

Organizer Thomas was served with a warrant this morning, charging him with revelling while visiting Pawtucket recently. He was arraigned in the district court in Central Falls, today, and on pleading not guilty, the case was continued for one week.

The United Textile Co. has discontinued carrying working to its plant in auto trucks from East Providence. About 100 of the workers, because of this have joined the other strikers. Additional street cars have been provided to carry those employees who remain at work.

The Crown Manufacturing company is operating a night shift in its finishing department. A strike has been in effect at the mill for nearly six months, but the officials claim they are now able to operate practically all departments and the night shift is necessary to finish goods almost ready for the market.

STILL TO BE SHOWN

Mrs. Mallory Still Believes She is Better Tennis Player Than French Girl

NEW YORK, July 20.—Unconvinced that she is not a better tennis player than Mlle. Suzanne Lenglen, who defeated her recently at Wimbledon, Mrs. Mallory, American champion, came home today on the Homer, vowing that she will go back to England next year "if I am alive" in the hope of again meeting the French star.

Mrs. Mallory authorized the quotation: "The better player won."

She denied everything that has been published about the matter reported to have been exchanged between herself and Mlle. Lenglen after the match. Denouncing these reports as "lies, lies, lies," she exclaimed: "The newspapers are the vilest and dirtiest things in America and if they don't let me alone they will drive me out of tennis and back to Norway."

At the solicitation of Dean Mathey, American player who accompanied her, she withdrew her characterization of the American press and after he had dictated the phrase, "Mlle. Lenglen is the most marvelous woman tennis player in the world," Mrs. Mallory said she would not say anything more.

She added: "I swear it on the Bible. Is that what you want me to say?"

Mathey pleaded with the interviewers to "remember that Mrs. Mallory is a woman and not a temperamental child," and constantly kept putting phrases into her mouth, urging her to be "sportsmanlike," but it was plain that his views were not hers. Asked what she wanted to tell the public concerning her defeat, Mrs. Mallory frowned and said: "I have nothing to say."

She did not ask to meet her again. I didn't say anything about not being up to my real form. What is to be said? We did not quarrel. Nothing was said over the net. After the game I just congratulated her. Of course I want to play her again. I was beaten and that's all there was to it."

Mrs. Edith Signourney of Boston, who accompanied Mrs. Mallory over and back and also played at Wimbledon, lauded the treatment accorded the Americans in England and said: "I enjoyed myself very much indeed. I have seen Mrs. Mallory play much better than she did against Mlle. Lenglen."

THE C. M. A. C. AND BOSTON TIGERS

Saturday afternoon at 3 o'clock the textile campus will be the scene of a battle royal between the C. M. A. C. and the Boston Tigers, the colored team which created such a favorable impression against the hard-hitting Centralville at Spaulding park last Sunday. The C. M. A. C. will be led by the twelfth grade team, which will be again led by the rubber for the visitors, Billy Marcotte will present his unbranded lineup in this game, with Reagan or Haley on the mound. As there will be no twilight league game Saturday, the managers are preparing to handle a record crowd.

COLLIER EXONERATED

WASHINGTON, July 20.—The state department announced today that investigation of charges against the Collier, commissioner general of the United States in the Brazilian centennial exposition, disclosed no basis for any charge of dishonesty or of moral turpitude. Mr. Collier has been directed to return to Rio de Janeiro and take charge of the American participation in the exposition.

Scene Shifts in Coal Strike

Mine Workers and leader in the strike, who were to leave Washington during the day, said: "The mine workers' attitude is unchanged. Our people are determined to continue the strike until the principle of collective bargaining and past procedure in the industry are recognized."

Eastern coal consumers are placing some orders for coal from European coal dealers, according to a statement issued today by F. W. Washington, chief of the coal division of the commerce department, based on reports reaching the department. The largest single contract reported was an order for 50,000 tons from England.

Asks For Control

LANSING, Mich., July 20.—Governor Alex J. Groenbeck, in a telegram prepared for transmission to President Harding today, asked the sanction of the federal government for a plan to take over and operate Michigan coal mines under state control. The message asked whether the federal government would join with the state in taking over and directing resumption of operations in the mines.

STOCK MARKET

NEW YORK, July 20.—Although overnight advices regarding the railroad strike were no more encouraging, prices tended mainly upward again at the opening of today's stock market. Mexican Petroleum once more assumed leadership. Its initial gain of a fraction soon being increased to two points. Other oils were mixed, however. General Asphalt losing a point with further selling of Pacific Oil. Steels edged upward. Bacon and food shares were firm. Strong. Studebaker reflected renewed professional pressure, losing one point. Foreign exchange strengthened, excepting the Austrian rates in which more acute weakness was shown.

Mexican Petroleum increased its lead to six points, later but steel, equipments and shipbuilding edged upward. Taking and several of the motor and rail became heavy. The close was irregular.

CLAIMS HE TRIED TO SHOOT WIFE

QUINCY, July 20.—William Pitta of the First Quincy district was arrested early today after according to the police, he had attempted to shoot his wife, Alma.

Two shots fired at Mrs. Pitta went wild and a third, fired at Otto Johnson, who answered the woman's screams for help, passed through a fruit store window. Pitta fled and was captured in a wood. The shooting, which took place on the street, was said to have been the result of a quarrel. Pitta was arrested, charged with assault with intent to kill, and was held in \$5000 bonds.

ANNOUNCES CANDIDACY

BOSTON, July 20.—Warren L. Bishop of Wayland, an attorney, announced today that he would be a candidate for the republican nomination for district attorney of Middlesex county.

FOR ANOTHER TRIAL

Counsel for Sacco and Vanzetti Claim One Witness Was Felon

BOSTON, July 20.—Counsel for Nicola Sacco and Bartolomeo Vanzetti, convicted a year ago of the murder of a paymaster and his guard in South Braintree in 1920, announced today that they had prepared a third supplementary motion for a new trial, which would be filed soon in Norfolk county superior court.

The motion, the attorneys said, was based on the contention that Carlos E. Goodridge, one of the four leading witnesses at the trial of the defendants, was a felon and that he committed perjury in testifying against Sacco and Vanzetti.

The motion contends that Whitney is known under aliases in New England and New York. The document comprises 42 affidavits, police photographs of Whitney and records of court convictions, counsel said.

Whitney is said to have disappeared from Cambridge since the Sacco-Vanzetti trial.

Miss Mary E. Spaine and Miss Frances Devlin are now the only remaining identification witnesses whose testimony has not been declared inadmissible by the defense.

Whitney, the new motion will allege, has used the aliases of Edward C. Willis, Edward C. Whitney, Carlos E. Goodridge, C. E. Willis and Carlos E. Whitney.

DOCTOR AT 82 FINDS MOTHERS PREFER HIS FORMULA TO NEW-FANGLED SALTS

Judgment of 1892 vindicated by world's approval of Dr. Caldwell's Syrup Pepsin, a simple vegetable compound for constipation—So safe thousands give it to babies in arms—Now has largest sale in the world.

When a man is in the 83rd year of his age, as I am, there are certain things he has learned that only time can teach him. The basis of treating sickness has not changed since I left Medical College in 1876, nor since I placed on the market the laxative prescription I had used in my practice, known to druggists and the public since 1892, as Dr. Caldwell's Syrup Pepsin.

Then the treatment of constipation, biliousness, headaches, mental depression, indigestion, sour stomach and other indispositions that result from constipation was entirely by means of simple vegetable laxatives, herbs and roots.

These are still the basis of my Dr. Caldwell's Syrup Pepsin, which is a combination of Egyptian Senna and other mild laxative herbs with pepsin.

Recently new medicines have been brought out for constipation that contain calomel, which is mercury, salts of various kinds, minerals, and coal tar. These are all drastic purges, many of them dangerous, and the medical profession

is warning the public against them. Certain coal tar products will depress the heart; certain salts give rise to intestinal poisoning, impaction and rupture of the intestines. If grown peo-

ple want to use them no one can deny them the privilege, but they should never be given to children.

The simpler the remedy for constipation, the safer for the child and for you, and the better for the general health of all. And as you can get results in a mild and safe way by using Dr. Caldwell's Syrup Pepsin, why take chances with pills and powders and strong drugs, even if disguised in candy? My remedy, too, costs less than most others, only about a cent a dose. A bottle such as you can find in any drug store, will last a family several months, and all can use it. It is good for the babe in arms because pleasant to the taste, gentle in action, and free from narcotics. In the proper dose, given in the directions, it is equally effective at all ages. Elderly people will find it especially ideal.

The formula of Dr. Caldwell's Syrup Pepsin is on the cover of every bottle, and the ingredients have the endorsement of the U. S. Pharmacopoeia.

Is warning the public against them. Certain coal tar products will depress the heart; certain salts give rise to intestinal poisoning, impaction and rupture of the intestines. If grown peo-

ple want to use them no one can deny them the privilege, but they should never be given to children.

The simpler the remedy for constipation, the safer for the child and for you, and the better for the general health of all. And as you can get results in a mild and safe way by using Dr. Caldwell's Syrup Pepsin, why take chances with pills and powders and strong drugs, even if disguised in candy? My remedy, too, costs less than most others, only about a cent a dose. A bottle such as you can find in any drug store, will last a family several months, and all can use it. It is good for the babe in arms because pleasant to the taste, gentle in action, and free from narcotics. In the proper dose, given in the directions, it is equally effective at all ages. KANSAS EDITOR IN FIRM STAND

Newspaper Publisher in Topeka in Controversy With Attorney General

Places Placard in Window of Office Espousing Rail Strike

TOPEKA, Kas., July 20.—(By the Associated Press.)—William Allen White, publisher of the Emporia Gazette, has posted in the window of his newspaper office a placard espousing the cause of the striking railway shopmen, and expressing sympathy for their announced stand for "living wages and fair working conditions."

Mr. White had been told that the state attorney general had ruled that such displays were in violation of the industrial and anti-tyranny law.

"The order of the industrial court is an infamously false statement of the right of free press and free speech," Mr. White asserted. He proclaimed 40 per cent sympathy with the strikers and said he would add one per cent a day as long as the strike was continued.

Richard J. Hopkins, attorney general, was emphatic in his statement, although he did not say that Mr. White would be arrested at once.

"One who encourages lawlessness in Kansas by advocating it, is himself violating the law and, therefore, is subject to arrest," said the attorney general.

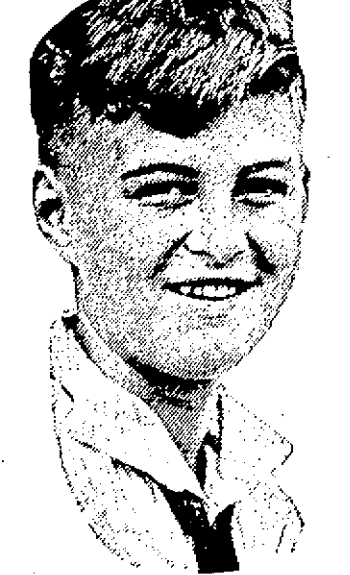

Mr. White has jumped at a conclusion without realizing the fundamental principle involved," he added. "It is not a matter of free speech or free press. It is a question of obedience to law. Under the Kansas law, a railroad strike or a strike in any essential industry is more than a controversy between employers and employees. A strike which would prevent the public from procuring food, fuel, clothing, transportation and like necessities, has been made unlawful in Kansas. It is a strike against the state itself."

Mr. White has always been very much in favor of the industrial relations law. A strike in an industry where the rights of the public are not directly involved is a matter for debate; but a railroad strike is not a matter for speeches or editorials which promote lawlessness. A railroad strike is an act of lawlessness.

TO LECTURE IN SEVEN SCHOOLS

NEW YORK, July 20.—Calvin W. Mace, secretary of the American Society of Mechanical Engineers, announced today that Dr. M. E. DeMorgan, director of the geological service of France, had been appointed French exchange professor to lecture in applied science and engineering.

Dr. DeMorgan will lecture on applied geology, especially as applied to topography, in seven American universities during 1922-23, opening at Columbia. Other institutions participating in this exchange plan are Cornell, Harvard, Johns Hopkins, Yale, University of Pennsylvania and Massachusetts Institute of Technology.

SAVES TWO LIVES
Shaw Blackstone, 13, is a boy hero of Washington, D. C. He saved his brother, Frank, 12, and Kenney Valentine, 10, from drowning.

Market Letter SERVICE

Every week we publish, for free distribution, a high grade Stock Market Review, which contains, among many other valuable features:

- (a) Analyses of at least Twenty Securities.
- (b) Valuable Feature Articles on prominent Industrial Leaders.
- (c) Comprehensive analytical and historical analyses of Securities in which the public is actively interested.

NEW YORK MEN FOR R. I. MILLS

Organizer Thomas Informed
200 Strikebreakers for
Pawtucket Factories

PAWTUCKET, R. I., July 20.—Organizer John J. Thomas of the United Textile Workers of America stated today that he had been notified by officials in his New York headquarters that 200 strikebreakers are on their way from that city for Rhode Island textile mills.

Organizer Thomas was served with a warrant this morning, charging him with revelling while visiting Pawtucket recently. He was arraigned in the district court in Central Falls, today, and on pleading not guilty, the case was continued for one week.

The United States Fidelity Co. has discontinued carrying workers to its plant in auto trucks from East Providence. About 100 of the workers, because of this have joined the other strikers. Additional street cars have been provided to carry those employees who remain at work.

The Crown Manufacturing company is operating a night shift in its finishing departments. A strike has been in effect at the mill for nearly six months, but the officials claim they are now able to operate practically all departments and the night shift is necessary to finish goods almost ready for the market.

STILL TO BE SHOWN

Mrs. Mallory Still Believes
She is Better Tennis Player
Than French Girl

NEW YORK, July 20.—Unconvinced that she is not a better tennis player than Suzanne Lenglen, who defeated her recently at Wimbledon, in straight sets, Mrs. Mollie Burdett Mallory, American champion, came home today on the Homeric, vowing that she will go back to England next year "if I am alive."

In the hope of again meeting the French star, Mrs. Mallory threatened the quotation: "The better player won."

She denied everything that has been published about the banter reported to have been exchanged between herself and Miss Lenglen after the match. Denouncing these reports as "lies, lies, lies," she exclaimed: "The newspapers are the vilest and dirtiest things in America and if they don't let me alone they will drive me out of tennis and back to Norway."

At the solicitation of Dean Mathey, American player who accompanied her, she withdrew her characterization of the American press and after he had played the phrase, "Miss Lenglen is the best player in the world," Mrs. Mallory said she could be quoted as saying: Clapping her hands in a prayerful attitude, she added: "I swear it on the Bible. Is that what you want me to say?"

Hot-tempered
Mrs. Mallory pleaded with the interviewers to "remember that Mrs. Mallory is a woman and hot-tempered," and constantly kept putting phrases into her mouth, urging her to be "sportmanlike," but it was plain that his views were not hers. Asked what she wanted to tell the public concerning her defeat, Mrs. Mallory frowned and said:

"I have nothing to say. What can I say? I did not ask to meet her again. I didn't say anything about not being up to my real form. What is to be said? We did not quarrel. Nothing was said over the net. After the game I just congratulated her. Of course I want to play her again. I was beaten and that's all there was to it."

Mrs. Edith Bigourney of Boston, who accompanied Mrs. Mallory over and back and also played at Wimbledon, lauded the treatment accorded the Americans in England and said: "I enjoyed myself very much indeed. I have seen Mrs. Mallory play much better than she did against Miss Lenglen."

THE C. M. A. C. AND BOSTON TIGERS

Saturday afternoon at 3 o'clock the textile campus will be the scene of a battle royal between the C. M. A. C. and the Boston Tigers, the colored team which created such a favorable impression against the hard-hitting Centralists in Springfield last Sunday.

Charles Collier, who held the twilight wrecking crew at his mercy will again be the rubber for the visitors. Billy Marcotte will present his unbeaten lineup in this game, with Reagan or Bailey on the mound. As there will be no "backlash" game this afternoon, the management is preparing to handle a record crowd.

COLLIER EXONERATED

WASHINGTON, July 20.—The state department announced today that investigation of charges against C. C. Collier, commissioner general of the United States to the Havana centennial exposition, had disclosed "no basis for any charge of dishonesty or of moral turpitude." Mr. Collier has been directed to return to his duties and take charge of the American participation in the exposition.

Scene Shifts in Coal Strike

Mine Workers and leader in the strike, was preparing to leave Washington during the day. He said: "The mine workers' attitude is unchanged. Our people are determined to continue the strike until the principle of collective bargaining and past procedure in the industry are abandoned."

Eastern coal consumers are placing some orders for coal from European coal dealers, according to a statement issued today by F. R. Wadleigh, chief of the coal division of the commerce department, based on reports reaching the department. The largest single contract reported was an order for 60,000 tons from England.

Asks For Control
LANSING, Mich., July 20.—Governor Alex J. Groesbeck, in a telegram prepared for transmittal to President Harding today, asked the sanction of the federal government for a plan to take over and operate Michigan coal mines under state control. The message asked whether the federal government would join with the state in taking over and directing resumption of operations in the mines.

STOCK MARKET

NEW YORK, July 20.—Although overnight advices regarding the railroad strike were no more encouraging, prices tended mainly upward again at the opening of today's stock market. Mexican Petroleum once more assumed leadership, its initial gain of a fraction soon being increased to two points. Other oil shares mixed, however. General Asphalt lost a point with the selling of Pacific Oil. Steels, coppers, tobaccos and food shares were firm to strong. Studebaker reflected renewed fractional pressure, holding the point. Foreign exchange strengthened, excepting the Austrian rates in which more acute weakness was shown.

Mexican Petroleum increased its lead to six points later but steel, equipment and shipbuilding eased under profit-taking and several of the motors and rails became heavy. The close was irregular.

Cotton Market
NEW YORK, July 20.—Cotton futures opened steady. July—Oct. 22.25; Nov. 22.20; Jan. 22.00; March 21.75; May 21.74.

Spot cotton quiet; middling 22.50. Cotton futures closed barely steady: July 22.25; Oct. 22.23; Dec. 22.33; Jan. 22.14; Mar. 21.94; May 21.95.

Legal Notices

MORTGAGEE'S SALE
By virtue of the power of sale contained in a certain mortgage deed given by Elizabeth O. Rice of Brookline, in the County of Norfolk and Commonwealth of Massachusetts, to the Lowell Institution for Savings, a corporation duly established under the laws of the Commonwealth of Massachusetts, at Lowell, in the County of Middlesex, and said Commonwealth, dated May 11, 1897, and recorded with Middlesex North District Registry of Deeds, Book 286, Page 81, and for breach of conditions therein contained and for purpose of foreclosing the same, will be sold at public auction at the office of William P. Morrissey, 225 Central Block, 33 Central Street, in said Lowell, on Saturday, July 29, 1922, at ten o'clock in the forenoon, all and singular, the premises by said mortgagee conveyed, namely:—a certain lot of land containing thirty-two hundred square feet more or less, with the buildings thereon situated on the Southern side of East Merrimack Street and the Western side of High Street, in said Lowell, bounded and described as follows, to wit: Beginning at the Northeastly corner of said premises at the intersection of said High Street and said Merrimack Street, thence running Southerly on said High Street sixty-five feet and four tenths of a foot to land formerly owned by E. Shepard, thence Westerly on said Shepard land seventy-five feet and four tenths of a foot to other land formerly owned by said Shepard, thence Northerly on said Shepard land and land now or formerly of W. A. Ingham, seventy-seven feet, more or less, to said East Merrimack Street, thence Easterly on said East Merrimack Street fifty-nine feet, more or less, to the point of beginning. Said premises will be conveyed subject to a mortgage of said Lowell Institution, and subject to any and all unpaid taxes and other municipal assessments, if any there be. Five Hundred Dollars must be paid to the auctioneer at the time and place of sale.

HAMAD ENMAIL
Assignee of said Mortgage.
J. 6-13-20.

Commonwealth of Massachusetts—Middlesex.
At the District Court of Lowell, holden at Lowell, in the District of Lowell, in the County of Middlesex, on the twelfth day of July, 1922, in Case No. 12,000 of said Court, the State of Oregon, Plaintiff, vs. John F. Porter of Walden, Vermont, defendant, and William H. Saunders of Lowell, alleged administrator of the estate of Calvin E. Porter, late of said Lowell, deceased, Intestate, Trustee.

This is an action of Contract to recover Four Hundred and Forty-two dollars and nineteen cents, with interest thereon from January 3, 1918, alleged to be due to the Plaintiff, from the Defendant on the ninth day of January, A. D. 1918, as set forth in the Plaintiff's writ of that date.

And it appearing to the Court by the suggestion of the Plaintiff and on inspection of the officer's return on the Plaintiff's writ, that the Defendant was not an inhabitant of this Commonwealth at the time of said writ, that he has no last and usual place of abode, tenant, agent or attorney in this Commonwealth known to the Plaintiff or to said officer; and that no personal service of said writ has been made upon the Defendant.

It is ordered by the Court, here, that the Plaintiff give notice to the Defendant of the pendency of this action, and to appear before said Court, on the fifth Saturday of July, A. D. 1922, to answer to the same, by causing an attested copy of this order to be published in said Lowell, once in a week, three weeks successively; and that this notice be continued to the said fifth Saturday of said July, or until notice shall be given to the Defendant agreeably to this order.

EDWARD W. TROLL, Clerk.

YOU CAN MOVE RIGHT IN

We have some unusual offerings at THE BOULDERS, Lowell's smartest and most wisely restricted suburb. These houses are built under our direct supervision and planned for comfort and convenience. For example, 7 and 8-room houses, with large living room, dining room, enclosed sun parlor, butler's pantry and kitchen on first floor. Four to five bedrooms and bathroom. Deep lots, containing 7500 feet of land with plenty of room for garage. If you see how you can be all set for convenience. Let us show them to you. The coupon is for your convenience.

WOOD-FOLK-PILOT TO KEEP MINK ILL

BUT MRS. BUNNY HAD TO TELL THEM A MILLION THINGS ABOUT HOW CUTE BUNNY JR. WAS GETTING

Dr. Snuffles and Nancy and Nick went off through the woods to the place where Marty Mink lived near Ripple Creek.

Marty had swallowed a fish bone and the fairy doctor-man was going to take it out.

The news had spread all through Whispering Forest and Bright Meadow and Old Orchard and over to the land of Bramble Squid and had been in the doctor's office and heard about it.

"We'll have to hurry," said Dr. Snuffles, "for poor Marty can't eat until I get the fish bone out."

But scarcely had he spoken when Mrs. Bunny called out of her front door (they were just passing the Ben Bunny house) and asked the doctor please to stop in and see how fat the baby was getting.

"It will only take a minute," said Dr. Snuffles, "and we can't afford to offend a good customer—I mean patient. Come along, children."

But Mrs. Bunny had to tell them a million things about how cute Bunny Jr. was getting—how he'd cut his cute

little teeth and how he'd learned to hop his ears and wiggle his nose and how soft his fur was and how his whiskers were growing and how he'd learned to chew plantain and everything.

Dr. Snuffles kept looking at his watch and saying yes, yes, what a fine boy Bunny was, but he'd really have to be going.

Nancy and Nick kept thinking of poor Marty Mink and his fish bone, and they really thought Mrs. Bunny would never get done talking.

But at last they got away.

Then a funny thing happened. Mrs. Bunny tore out of her back door and called out to Mrs. Woodchuck's. "St. St!" she called. "You there, Wilhelm! Say, here comes Mr. Snuffles and his helpers. I kept him as long as I could, and now it's your turn."

The longer we can keep him from getting that fish bone out of Marty's throat the longer he'll have to do without a meal and the longer our children will be safe."

To Be Continued
(Copyright, 1922, The Lowell Sun)

To Press Development Bill

WASHINGTON, July 20.—Announcement of plans to press the river and harbor development bill authorizing projects for government development was made in the senate yesterday by Chairman Jones of the commerce committee. Only two amendments, Senator Jones said, were likely to raise objections. These are the Cap Cod, Mass., and Dismal Swamp, Va., canal acquisition proposals.

GREATER EXTENSION OF

WOMEN'S RIGHTS

(Special to The Sun)
BOSTON, July 20.—Under a law, which goes into effect today, a married woman, who lives apart from her husband, will not be deprived of the privilege of voting. The new law reads: "A married woman dwelling, having her home separate and apart from her husband shall for the purposes of voting and registration therefor be deemed to reside at the place where she dwells or has her home."

The passage of the new law came about as the result of agitation before the committees of the legislature on the part of representatives of women's political organizations. They claimed that many women have been unable to vote because they had separated from their husbands. In some cases, and in others because their husbands had maintained a "voling" address separate from their homes. It was discussed at the hearings that a number of women were registered from the Boston City Club, which is a man's club.

It turned out that their husbands had given their club as their legal residence for the purpose of voting in Boston, in some cases.

MISS KENNEY SENT UP

FOR SEVEN YEARS

NORTHFIELD, July 20.—Elizabeth E. Kenney, assistant to Warren J. Wright, former town treasurer of Northfield, was taken to the superior court yesterday afternoon, charged with failing to plead guilty to indictments for larceny and forgery returned against her. She retraced former pleas of not guilty.

Dist. Atty. Hammond, in moving for sentence, asked that it be a substantial and severe one. Her counsel, Frank J. Lawler, urged the court to send her to the local house of correction rather than to Sherborn.

Judge Burns sentenced Miss Kenney to the prison for women at Sherborn for not less than six nor more than eight years for larceny, and two years for forgery. Miss Kenney made no statement to the court, and went back to the jail in the car with Mr. and Mrs. Herbert J. Cook, jailer and matron. She showed no signs of emotion.

LEAGUE COUNCIL WORKS

ON RELIEF PLAN

LONDON, July 20 (by the Associated Press). Means of succoring and evacuating thousands of Russian refugees in Constantinople occupied the attention of today's session of the Council of the League of Nations, meeting here since Monday.

The American Red Cross, the American relief administration and the T.M.C.A. all have made pledges of money or assistance in this work, which the council will use as a nucleus for contributions from other countries. It is believed the council will terminate its sittings by Saturday afternoon.

INVESTIGATE DEATHS
WILLIAMSPORT, Pa., July 20.—The county authorities today were investigating the mystery surrounding the death of a man and a woman believed to have been Mrs. and Mrs. H. J. Shear, of Buffalo, N. Y., whose bodies, with their throats cut, were found last night in a swimming creek, 20 miles north of this city.

FARM BUREAU PICTO
The Middlesex farm bureau, with headquarters at Concord Ave. 9 in observance of the tenth anniversary of the founding of the organization and it is expected the affair will be largely attended. Rural outfits will be held by the various counties of the state on the same date.

THE OLD HOME TOWN

MARDI GRAS AT KASINO

Opening Night of Carnival
by St. Anthony's Church
Draws Big Crowd

A large and patronizing crowd was present at the Kasino last night, the opening night of the Mardi Gras and carnival in aid of St. Anthony's church. Among those present as special guests of the evening were Rev. Bishop Da Silva of St. Anthony's and Jose S. Trigos, Portuguese vice-consul in charge of affairs in this city. Last night's entertainment consisted of a dancing exhibition by Miss Marie Conley, followed by general dancing until midnight. Several side-show and midway attractions enlivened the affair, including a ferocious wild man from the recesses of the African jungles and a few African dodgers. The hall was prettily decorated with colored streamers of every description.

The carnival will hold away again tonight and tomorrow night, the attraction for tonight being the Misses Lillian and Ethel McLoughlin in dancing specialties and Fred Savard in various buck and wing dances. Friday night the entertainers will be Jack and Lottie Devine, local favorites.

The large and assorted array of talents containing many novelties and the salacious bellowing struck a responsive chord in the generous hearts of those in attendance. The various tables were in charge of the following: Candy, William Kelly; refreshments, Harry Lobley; Kiklo, the wild man, Emil Lohndorf; rilly, polly, Arthur Brian; ice cream, Jennie Bettencourt; refreshments, Mrs. Elizabeth Lambert; frankfurters, Peter Pells and James Fells; dolls, O. M. Kelly; Indian arrow game, Miss Edna Cleveland.

WILL FURNISH SOFT COAL FOR CITY

As the result of bids opened yesterday by the city purchasing agent, the Home Coal Co. will furnish 100 tons of soft coal for city hall consumption next winter at a price of \$35.52 per ton. The Thorndike Coal Co. will furnish 1000 tons of coal at \$30.00 per ton, delivery to be made this summer.

FUNERALS

CAMPBELL—After solemn and impressive services at St. Peter's church, the remains of John J. Campbell, who was drowned Tuesday morning, were committed to earth in St. Patrick's cemetery, this morning. The cortege left the home of the deceased at 8:30 o'clock and proceeded to St. Peter's church where at 9 o'clock a solemn high mass of requiem was sung by Rev. Daniel J. Keleher, Ph.D., with Rev. Francis I. Shea as sub-deacon. Rev. Peter Linahan was master of ceremonies. Present at the funeral was a large number of altar boys; St. Patrick's church, where the funeral was held, was crowded to capacity.

Rev. Peter Linahan was master of ceremonies. Present at the funeral was a large number of altar boys; St. Patrick's church, where the funeral was held, was crowded to capacity.

MATRIMONIAL

The marriage of Mr. Aurel Camel and Mrs. Josephine Robert took place July 16 at St. Louis church. The couple were attended by Messrs. Rosario Lavallee and Onesime Fleete. At the close of the ceremony a wedding dinner was served at 27 Lily avenue and later the couple left on a honeymoon trip to Concord, Manchester and Canada.

FUNERAL NOTICES

BUENAN—Died July 19, John P. Buenan at his home, 48 Sixth st. Funeral will take place on Friday morning at 9 o'clock from his late home, 48 Sixth st. Solemn high mass of requiem will be sung at St. Michael's church at 10 o'clock. Burial will take place in St. Patrick's cemetery. The funeral arrangements will be in charge of Undertakers M. H. McDonough Sons.

ANNIVERSARY MASS

HOBAN—Saturday, July 22, 8 o'clock, at St. Margaret's church for the late Thomas F. Hoban.

ANNIVERSARY MASS

O'CONNELL—There will be an anniversary mass of requiem at the Immaculate Conception church, Saturday morning at 8 o'clock, for the repose of the soul of David and Isabella O'Connell.

CALL OF THANKS

To our many kind friends and neighbors we take this means of expressing our sincere thanks for the many acts of kindness and words of condolence extended to us in the loss of our beloved wife and sister and also to those who sent floral tributes and spiritual bouquets. To all we are deeply grateful and promise that their kindness shall never be forgotten by us.

OUTING AT CANOBIE LAKE

Lowell Life Insurance Underwriters Take Day Away From Busy City

The debts and collections of the Lowell Life Insurance Underwriters were forgotten today and about 30 members of the association journeyed to Canobie lake park to enjoy the pleasures of an honest-to-goodness picnic. The men left in special cars chartered for the occasion at 9:30 this morning and the return trip was made at the end of a day's fun. Members of the Boston association were the guests of the local men for the day.

The feature of the morning program of sports was the ball game between the agents of the John Hancock Co. and the Metropolitan Co. During the rest of the morning impromptu sports were indulged in by different groups of picnickers. At noon all answered the picnic call with a gusto and a hearty and appetizing meal was served. The exercises of the morning had whetted the appetites of the men and all set to. In the afternoon a list of sporting events was run off and prizes were awarded to the winners of the foot races and swimming races.

The outing was a great success and the invited guests were impressed with the fine showing made by the local underwriters. The committee in charge was as follows: Chairman, P. P. Quinn; E. J. Chamberlain, president of the association; H. J. Greig, Thomas Beane, Leo Korzonok, William Brown, John E. Collins, Harry Parnell, Robert Mulvey and Alphonse Fottler.

Miss Mary McShea, assistant secretary of the Social Service League, is enjoying a two weeks vacation.

Mrs. P. H. Monahan and son, James, of 170 Crawford street, are spending the month of July at the home of their mother, Mrs. J. P. McKenna of Crestwood Y.

Miss Irma C. Simard, cashier at the D. L. Page Co., left today on a ten-day trip to New York city, where she will be the guest of her brother, Mr. Arthur J. Simard, formerly of this city.

Harold Ragelsky, non of Mr. and Mrs. Loula Ragelsky of Pleasant street, is now on an extended automobile tour through New York state. He is accompanied by his sister, Miss Margaret Ragelsky, who is spending several days in Rochester, N. Y.

A feature of tomorrow evening's meeting of Wamont lodge, 25, K. of P., will be a free whist party for members and friends. An entertainment will be provided by a committee headed by P. A. Whipple and it is expected, all members will be in attendance.

Mrs. Ella Riviera of 110 Lincoln st., has arrived from Portsmouth, Ohio, where she accompanied her sister, Mrs. Mae Dwyer Stuart, who is to make her home there, her husband being manager of the S. S. Kroger store in that city. Mr. Stuart was formerly assistant manager of the local Kroger store.

LABOR IS SCARCE IN CONNECTICUT

NEW HAVEN, Conn., July 20.—An industrial survey of the state being made by the state labor department indicates that common labor is becoming so scarce that many large projects may be greatly delayed. The state highway department has already felt this scarcity and contractors in several cities have been searching for laborers. Cities in other states have been combed for common labor, and the wage offered has been increased from 30 to 40 cents an hour without any apparent effect.

Contractors for a new state highway which will open up the upper Housatonic valley from New Milford to the Massachusetts state line say that failure to obtain men to do the grading will delay completion of the highway several months.

THE EDITOR OF THE WEEKLY CLARION SLIPPED, IN HIS GREAT HASTE TO GET DOWN TO THE DEPOT TO SEE IF ANY STRANGERS CAME IN ON THE NOON TRAIN.

NOTHING NEW IN LOCAL TEXTILE STRIKE

Ready Response to Appeal for Memorial to Cyrus Wendall Irish

Spontaneous and generous, indeed has been the response to the appeal sent out by Henry H. Harris of the high school to the graduates, for funds by which a memorial to Cyrus Wendall Irish will be hung in the new school building. Each mail brings contributions and expressions of pleasure in being able to have a part in the memorial and all letters are being carefully preserved by Mr. Harris.

By vote of the alumni association it was decided that the auditorium in the new school building should be known as Cyrus W. Irish auditorium and that the assembly hall in the old building should be named after Mr. Irish.

It was decided that an oil painting of the former headmaster would be most appropriate. An appeal subsequently was sent out in letter form by Mr. Harris, with one dollar named as the individual contribution. While this has been the amount sent in the vast majority of instances, a number of graduates voluntarily have doubled it and one or two persons have contributed \$5.

Today Mr. Harris has received \$246 from approximately 240 graduates. It is felt that a suitable painting cannot be obtained for much less than \$750 and therefore this is the amount tentatively set.

CAR SHOP STRIKERS HOLD MASS MEETING

Members of the various crafts of the Boston & Maine carshops in Billerica, who are on strike, held a mass meeting in their quarters in Odd Fellows building, Middlesex street, this afternoon at 2 o'clock, the principal speaker being Charles E. Anderson, president of the Trades and Labor council.

It was stated at headquarters this morning that there was no new development in the strike, only that the strikers have been able to secure names and addresses of some of the strikebreakers and these will be posted in the Colonial theatre in Middlesex street, where strikers hold their mass meetings.

The management of the Boston & Maine railroad issues the following statement under date of July 19: "There is a serious condition existing at Concord, N. H. A week ago several shops were fired through the building in which workmen were sleeping. Threats of violence have been made repeatedly against loyal men in the service of the road. On Monday night a call boy, on his rounds to call on train service men, was seriously assaulted. His assailant was arrested and appeared in the Concord court this morning.

"The disturbances reached their climax, however, last night. At about 11:30 seven masked men, armed with revolvers, shotguns and rifles, worked their way to the building in which some 50 workmen are sleeping. There was shooting and fighting. The sleepers were driven out into the rain without being given time to dress and an attempt was made to drive them out of town. If any of the men fell or lagged behind they were clubbed.
